"I like them," she insisted. Then, "My name's Cinderella. What's yours?" He smiled faintly. "I didn't know much about anything then. Too many people were already dead. If I'd gone to a hospital, they'd have wanted to know how I'd stayed alive so far. Sometimes I'm glad if s over, and, then, the next minute I'm terrified of dying." It took Smith six weeks to increase the efficiency of the image in-tensifier enough to bring up the ghost pictures clearly. When he succeeded, the image on the screen was instantly recognizable. It was a view of Jack McCranie's office; the picture was still dim, but sharp enough that Smith could see the expression on Jack's face. He was leaning back in his chair, hands behind his head. Beside him stood the open catalogue on her lap. The old woman hesitated. "You will not be offended if I speak?\*" When I was through with my talk and with the question-and-answer session, I sang "Randall's Song". play gin. ". "That's right," said Jack. "And nearer than you think is a great, grey, dull, tangled, boggy, and baleful swamp. The first piece is at the bottom of a luminous pool in the center. But it is so grey there that the grey man would blend completely in with the scenery and never get out again. Up this one is a mountain so high that the North Wind lives in a cave there. The second piece of the mirror is on the highest peak of that mountain. It is so windy there, and the grey man is so thin, he would be blown away before he was halfway to the top. Two leagues short of over there, where the third piece is, there stretches a garden of violent colors and rich perfume where black butterflies glisten on the rims of pink marble fountains, and bright vines weave in and about The only thing white in the garden is a silver-white unicorn who guards the last piece of the mirror. Perhaps the grey man could get that piece himself, but he will not want to, I know, for lots of bright colors give him a headache." glanced his way, however, was Evelyn, the woman behind the refreshment stand. He went to other. McKillian didn't seem to know what she wanted. "No. I... but, yes. Yes, I guess I do." She looked at. He had been loitering, alone and melancholy, for the better part of an hour, eavesdropping to his right on a conversation about somebody's drastic need to develop a more effective persona and to his left on a discussion of the morality of our involvement in Mexico, when a black woman in a white nylon jumpsuit and a very good imitation calf-length mink swept into the room, took a quick survey of those present, and sat down, unbelievably, by him!. "They were arrested, for trafficking, right here on this couch, while they were taking money from the agent that had set them up. There's no way they can wiggle out of it this time. People say how sorry they are and everything, but I don't know: they were criminals, after all. What they were doing only makes it harder for the rest of us to get our endorsements honestly." "Originality has always been my Waterloo," Barry admitted. "I just don't seem to be able to come up with my own ideas. I did have one, though, just this morning on my way here, and I was going to try and slip it in while I was taking the exam, only it never seemed quite natural. Have you ever noticed that you never see baby pigeons? All the pigeons you see out on the street are the same size-full-grown. But where \_do they come from? Where are the little pigeons? Are they hidden somewhere?" He stopped short, feeling ashamed of his idea. Now that it was out in the open it seemed paltry and insignificant, little better than a joke he'd learned by heart, than which there is nothing more calculated to land you in the bottom percentiles.. "Those who lead, lead," he said, simply. "I'll follow you as long as you keep leading." orange design, went to the trunk and lowered it through a small round hole in the top. As the last of it. "The most unique collection of architecture ra the world." He has just completed a new sf novel, On Wings of Song.. "Be quiet and help me," said the thin grey man, "or I shall put you in the trunk with my nearest and. Then came the examination, the removal to the hospital, the tests. "I wasn't lagging at you, young man," she told him, taking the same coolly aggrieved tone she'd. I flagged a cab to take us back to the cabletraio station. Amanda said nothing for the entire ride, just sat staring at her hands clenched in her lap. I put an arm around her. She stiffened momentarily at my touch, then buried her face against my shoulder. At the station, waiting for the train to come in, she sat up and began pushing at her hair.. He turned to move out of my way and I saw the hump. He was about to panic, tensing to slam the door. I smiled my friendly, disarming smile and. She nodded. "And go berserk. It was awful. No one can live that way." The scene outside was deceptively quiet as Colman lifted a flap and peered out, keeping his head well back from the edge of the canopy. The hillside below the post fell steeply away, its features becoming rapidly indistinct in the feeble starlight before vanishing completely into the featureless black of the gorge beneath. There was no moon, and the sky was clear as crystal. When his eyes had adjusted to the gloom, Colman shifted his attention to the nearer ground and methodically scanned the area in which the twenty-five men of the platoon had been concealed and motionless for the past three hours. If they had undercut their foxholes and weapons pits the way he had shown them and made proper use of the rocks and vegetation, they would stand a good chance of escaping detection. To confuse the enemy's tactical plots further, D Company had deployed thermal decoys a half mile back and higher up near the crest, where, by all the accepted principles, it would have made more sense for the platoon to have positioned itself. Auto timed to turn on and off in a random sequence to simulate movement, the decoys had

been drawing sporadic fire for much of the night while the platoon had drawn none, which seemed to say something about the value of "the book" as rewritten by Staff Sergeant Colman. "There are two ways to do anything," he told the recruits. "The Army way and the wrong way. There isn't any other way. Byline (or "I") is the same species of creature as the Kindly Editor or the Good Doctor, who appear from time to time in these pages. That is, she is a form of shorthand. When Byline rewrites story X, that doesn't mean that I?the real, historical personage?actually did or will or wish to rewrite story X, or that I expect its real, historical author to rewrite it to Byline's prescription, any more than my saying that "my" copy of Bug Jack Ban-on tried to punch "me" in the nose means that such an event really happened. Pauline Kael's Movie Loon is another such fiction; these little creatures we send scurrying about the page are not our real, live selves, and their exploits are dictated more by the exigencies of our form than by a desire for personal glory..The commission agents who had handled the orders for the first
