IN THE YEARS after Diamond left home, Golden made more money than he had ever done before. All his deals were profitable. It was as if good fortune stuck to him and he could not shake it off. He grew immensely wealthy..agreeing to end the enmity of their races..He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures..practices of wizards and witches, and all too often rightly so.."Your Rose is a wise flower," said the mage, unsmiling..who read the books. He thought hopefully for a while that he was sick and could miss the party. But the day came, and he was there. Not so evidently, so eminently, so flamboyantly there as his father, but present, smiling, dancing. All his childhood friends were there too, half of them married by now to the other half, it seemed, but there was still plenty of flirting going on, and several pretty girls were always near him. He drank a good deal of Gadge Brewer's excellent beer, and found he could endure the music if he was dancing to it and talking and laughing while he danced. So he danced with all the pretty girls in turn, and then again with whichever one turned up again, which all of them did..the beginning of the Overfell. The door of the house stood open..Medra did not answer at once. "Chance," he said at last, "favoring long desire. Not art. Not knowledge. I think I've come to the place I sought, but I don't know. I think you may be the people they told me of, but I don't know. I think the trees I saw from the hill hold some great mystery, but I don't know. I only know that since I set foot on that hill I've been as I was when I was a child and first heard The Deed of Enlad sung. I am lost among wonders.."moment before they fell back to earth as pebbles. Diamond and Rose had worked out several such.By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town..afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat.all remote descendants of the Old Speech. None of these languages serves for the making of spells."So what brought you here?" the Changer asked, stern, but not hiding his curiosity..Then for a while he held still, body and mind, beginning to understand for the first time where."Why should I do that?" Tears ran out of her eyes and down.and he ceased to think of anything at all. They dumped him into a mule-cart like a sack of oats..So the pattern of the years was set for Tern. He said, "I think we should go to our House, and open its doors..".And, just as in the now of the so-called real world, I didn't know what would happen next. Perhaps tempted to."It's never enough," Mead said. "And what can anyone do alone?".Irioth tried to say he did not want a quarrel. He tried to say that there was work for two. He tried to say he would not take the man's work from him. But all these words burned away in the acid of the man's jealousy that would not hear them and burned them before they were spoken..". "Tell me your name," she said, and he said, "Teriel,.".He had not known how tired he was until he came to haven. He spent all that day drowsing before the fire with the grey cat, while Gift went in and out at her work, offering him food several times-poor, coarse food, but he ate it all, slowly, valuing it. The ashy soil grows a rich, bright grass, and the people there keep. let the mare have her head when somebody came among the dogs shouting curses and beating them back. What they had they shared. In that it was indeed Morred's Isle. Nobody on Roke starved or went unhoused, though nobody had much more than they needed. Hidden from the rest of the world not only by sea and storm but by their defenses that disguised the island and sent ships astray, they worked and talked and sang the songs, The Winter Carol and The Deed of the Young King. And they had books, the Chronicles of Enlad and the History of the Wise Heroes. From these precious books the old men and women would read aloud in a hall down by the wharf where the fisherwomen made and mended their nets. There was a hearth there, and they would light the fire. People came even from farms across the island to hear the histories read, listening in silence, intent. It was not thinking anything much but speed and direction and the sweet taste of river water and the sweet power of swimming. But something like that is what Medra had been thinking as he sat at the table in his grandmother's house in End-lane, talking with his mother and sister, just before the door was flung open and the terrible shining figure stood there..accepted the lesson. "So far as we can see, they are. And no new sickenings." "He's a true sorcerer,.kind of trance, and having done them, sat down in the grass with her back against the house wall,.."And cast wide!" He looked from one to the other again. "I wasn't well taught, in the City of Havnor," he said. "My teachers told me not to use magic to bad ends, but they lived in fear and had no strength against the strong. They gave me all they had to give, but it was little. It was by mere luck I didn't go wrong. And by Anieb's gift of strength to me. But for her I'd be Gelluk's servant now. Yet she herself was untaught, and so enslaved. If wizardry is ill taught by the best, and used for evil ends by the mighty, how will our strength here ever grow? What will the young dragon feed on?".Time passed as always in the Grove, not passing at all it seemed, yet gone, the day gone quietly.images in his mind: great fires blazing, burning sticks with hands and feet, burning lumps that."But maybe now? A hundred ships will sail from the Great Port, from Omer and South Port and your fiefdom on Hosk, the greatest navy the world has seen! I shall lead them. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. During and after the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth century, in the Inner Lands of the Archipelago, only village women kept up rituals and offerings at the old sites. They were despised or abused for doing so. Wizards kept clear of such places. On Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those powers-Roke Knoll and the Immanent Grove-were never spoken of as such. Only the Patterners, who lived all their lives in the Grove, served to link human arts and acts to the older sacredness of the earth, reminding the wizards and mages that their power was not theirs, but lent to them..first big map I drew of all the Archipelago and the Reaches, when I began to work on A Wizard of
