The image that so held his attention was transmitted from an eighteen-inch-long, infantry reconnaissance that they had managed to slip in a thousand feet above the floor of the gorge and almost over the enemy's forward positions and was supplemented by additional data collected from satellite and other ELINT network sources. The display showed the target command bunker at the bottom of the gorge, known enemy weapons emplacements as computed from backplots of radar-tracked shell trajectories, and the locations of observation and fire command posts from source analysis triangulations of stray reflections from control lasers. On it the cool water of the stream and its tributaries stood out as black lines forking like twigs; the rock crags and boulders were shades of blue; living vegetation varied from rust brown on the hills to deep red where it crowded together along the lower slopes of the gorge; and shell and bomb scars glowed from dull orange to yellow depending on how recently the explosions had occurred. ordinary people nowadays do for amusement? the most beautiful photography that has ever graced a science fiction film. the froth of electric lights cantilevered over the entrance, Barry could feel the middle of his body turning. "Pretty slim. Mostly the air problem. The people I've read about never sank so low that they had to worry about where their next breath was coming from." It was a small story on page three, not very exciting or newsworthy. Last night a man named Maurice Milian, age 51, had fallen through the plate-glass doors leading onto the terrace of the high-rise where he lived. He had been discovered about midnight when the people living below him had noticed dried blood on their terrace. The only thing to connect the deaths of Harry Spinner and Maurice Milian was a lot of blood flowing around. If Milian had been murdered, there might be a link, however tenuous. "What I really wanted to talk to you about is this: You said you couldn't fly this ship. But you were not yourself, you were depressed and feeling hopeless. Does that still stand?."
