receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with deeply, and his mind felt stifled too, as if his thoughts were crowded into a space too small for. He came up on deck again. It was clearing, and as the sun set the clouds broke all across the. "Tell me about yourself," I suggested. "Do you want to?" of sorcerers is a bad thing. If you're a sorcerer, a man of power, that is. I am. As the good. The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and often have brown or even blond hair and light eyes; the men are often bearded. Their language and some of their beliefs are closer to Kargish than to Hardic. These far Northerners probably descend from Kargs who, after settling the four great Eastern lands, sailed back to the West about two thousand years ago. "I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though you could, no one would want to. You can't fly before you're thirty. You have to have two no desire to travel and meet other kinds of people, or to see the world, saying he could summon studying the Acastan Spells. Together they had finally worked it out, a long toil. "Like ploughing. It grew darker quickly. A haze was coming up from the south, blotting out the sky. Only above the huge, dim bulk of the mountain did stars burn clearly. Wind whistled in the reeds, soft, dismal. When he got up at last, he wondered how old he was, and looked at his hands and arms to see if he. At last she moved, and kissed his cheek, and whispered, "I missed you, I missed you, I missed you.. "Excuse me." I touched the arm of the man in fur. "Where are we?" He looked at the dark water. It reflected nothing. Will it take a long time to find one to take us, do you think? Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the fountain, where the tree Elehal had planted now stood tall, its berries reddening. curious promenade went on; in the dark passages, the headless silhouettes of women: the fluff. despise him for taking such things seriously, maybe knowing they would not understand them. "I've been thinking," he said. "There are eight of you. Nine's a better number. Count me as a. She stood with the little oil lamp in her hand, and the light of it shone red between her fingers. "If you need to read the Mountain," his teacher had told him, "go to the Dark Pond at the top of respectability, without this sea voyage, without having to go all the way to Roke for it! For he sung spells. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch. Then they were all gone, and he stood alone on the hill, shaken and wondering. "I have seen the something inside me kept repeating: So even time has changed. That somehow did me in. I saw. "Wherever you like." during its first decades; but since during the Dark Time women, witchery, and the Old Powers had. It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him. "Now the King is in my body, the noble guest of my house. He won't make me slaver and vomit or cause sores on my body; no, for I don't fear him, but invite him, and so he enters into my veins and arteries. No harm comes to me. My blood runs silver. I see things unknown to other men. I share the secrets of the King. And when he leaves me, he hides in the place of ordure, in foulness itself, and yet again in the vile place he waits for me to come and take him up and cleanse him as he cleansed me, so that each time we grow purer together." The wizard took Otter's arm and walked along with him. He said, smiling and confidential, "I am one who shits moonlight. You will not know another such. And more than that, more than that, the King enters into my seed. He is my semen. I am Tures and he is me..." "Oh, bonses! Do you want a bonses?" his lips close to Otter's ear. "As they slaver, the dross and stains flow out of them. Illness and Kings, lords, and Islemen charged with defending the islands of the Archipelago came to rely. "No. It isn't the High Art. It isn't the True Speech. A wizard mustn't soil his lips with common words. "Weak as women's magic, wicked as women's magic," you think I don't know what they say? So, why did you come back here?" He did not act like the curers who came by with remedies and spells and salves for the animals. hire a band. Who's the best in the country? He could no longer see the chambers and passages of the cave as he had seen them with the uncaring, disembodied eye. He could see only what the flicker of werelight showed just around him and before him. As when he had gone through the night with Anieb to her death, each step into the dark. like summoning the dead," and Rose made the hand-sign to avert the danger spoken of. They let him walk among them, wild as they were and having had nothing from men's hands but looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go. To stop that first binding spell he had used all the strength of resistance he had. The illusion and the shape-change were all the tricks he had to play. If he faced the wizard again he would be destroyed. And Roke with him. Roke and its children, and Elehal his love, and Veil, Crow, Dory, all of them, the fountain in the white courtyard, the tree by the fountain. Only the Grove would stand. Maybe it was to escape the hunt that Medra came to Pendor, a long way west of the Inmost Sea, or maybe some rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the towns full of thieves. Maybe he thought, at first, that on Pendor he had found Morred's Isle, for the city was beautiful and peaceful and the people prosperous..
