"Birth certificates," Micky suggested. "That would be proof. Where were you born? Where was Luki. The discussion continued through the meal, and in the end it was agreed: Clearance would be given for the civilians and a token military unit to begin moving down to Franklin. Well dressed, soft-spoken. He says, 'I'd be really grateful if you'd give me the money in the register, and Sinsemilla's fury-widened eyes, white all around, rose like two alien moons in Micky's memory. The boy hasn't previously given much thought to the gender of the dog. Stupid, stupid, stupid. Lechat didn't want to see Celia dragged through an ordeal again. He raised his arms to attract attention back to himself. "But don't you see what it means," he said. The voices on the screen and inside the room died away. "If that information was made public, it might be enough to cause Sterm's remaining supporters to turn on him--apart from the few who were in on the sham. Surely if that happened he'd have to see that it was all over. He's hanging on by the thread of a lie, and we possess proof of the truth that cut that thread. That gives us an option to try resorting to less drastic measures. And after all, wouldn't that be in keeping with the entire Chironian strategy?" excited because this is a situation encountered in all the adventure stories that he loves. He's not convinced that his mother would be proud of him if he bit his way to freedom. Fighting men and. "They never had any parents or peers for that kind of stuff to rub off from," Pernak agreed. "Classes, echelons, black, white, Soviet, Chinese ... it's all the same to them. They don't care. It's what you are that matters." At the end of 1979, Hogan opted to write full-time. "You're right, but you're supposed to pretend you don't know about that. I was thinking of something else--recognition. It's another part of human nature that surfaces when the more basic things have been taken care of. And when it does, it gets to be just as powerful as the rest. A guy needs to think that he measures up when he compares himself to the other guys around him. He needs to be recognized for what's good about him and to stand out. Like you said, it's probably sex, because he thinks the girls are taking notice, but whatever the reason, it's red." to knock this killer off his feet. Then he and the dog will dash for freedom. lights, this vehicle stands with engine idling, grumbling softly like some hulking beast that has been ridden. This was about Leilani Klonk, not about Michelina Bellsong. Leilani was only nine, and in spite of what. "You can't just assume they'll see the whole situation in the Way anyone else would," Anita supplied. "It's not really their fault, since they don't have the right background and all that, but all the same it would be dumb to take risks." "It makes sense, I guess," Paula agreed absently. "Good pup." Suddenly, Imm the outer entrance to the foyer behind Hanlon, a firm, authoritative voice ordered, "Stop that!" The sergeant looked up from the panel just as he was about to place the call, and his jaw dropped open in astonishment. Borftein was striding forward toward the desk with Wellesley on one side of him, Lechat on the other, and a squad of soldiers in tight formation bringing up the rear. Celia and Malloy were between them. The two SD guards glanced uncertainly at each other. Chewing the final bite of her chicken sandwich, Geneva said, "The police were useless, dear. "Sure," Chang said confidently. "I'll give you a call when I've talked to Adam. He's the friend. Would Jay like to go to. "? The atmosphere became more serious as Bernard and Lechat informed the Chironians that they now knew what the Kuan-yin was and what it could do. "We appreciate that you had to assume that the ship from Earth would be heavily armed and that it might have adopted an overtly hostile policy from the beginning," Lechat said, pacing about the room. "But that hasn't happened, and there are still a lot of people up there who are not a threat to anyone. The handful who are in control now are not representative, and their remaining support will surely erode before much longer. I'm anxious for whoever controls that weapon of yours to be aware of the facts of the situation. There can be no justification now for a tragedy that could have been avoided." Leilani didn't glance back again. She made a point of crossing the rest of the yard and negotiating the. "There's no need to look," Driscoll told him nonchalantly. "You've got a pair of kings." Amy watched curiously over the top of Cromwell's head as they disappeared from sight. "I wonder why they walk like that when they shout at each other," she mused absently. "Do you know why, Cromwell?". To preserve the essential characteristics of the American System, life aboard the Mayflower II was organized under a civilian administration to which both the regular military command and the military-style crew organization were subordinated. The primary legislative body of this administration was the Supreme Directorate presided over by a Mission Director, who was elected to office every three years and responsible for nominating the

Directorate's ten members. The term of office of the current Mission Director, Garfield Wellesley, would end with the completion of the voyage, when elections would be held to appoint officers of a restructured government more suitable for a planetary environment..just one further from an unpleasant flowback. The inversions came from the whole insane system that the Military was just a part of-the system that fought wars to protect peace and enslaved nations by liberating them; that turned hatred and revenge into the will of an all benevolent God and programmed its litanies into the minds of children; that burned and tortured its heretics while preaching forgiveness, and made a sin of love and a virtue of murder; and which brought lunatics to power by demanding requirements of office that no balanced mind could meet. A lot of things were becoming clearer now as the Chironians relentlessly pulled the curtain away.."Hmph." Merrick waved a hand at the screen. "Doesn't have the academies. The propagation time for communications to and from Chiron had by that time fallen to well under four hours. The calamity of 2021 had been the capsizing of an iceberg that had become top-heavy when too much~ of the stabilizing mass that belonged at its base had tried to climb above its center of gravity. The war had been the price of allowing shopkeepers to posture as statesmen, factory foremen as industrialists,

and diploma-waving bohemians as thinkers, of equating rudimentary literacy with education and simpleminded daydreaming with proof of spiritual worth. But while the doctrines of the New Order were curing the disease in the West, a new epidemic had broken out on the other side of the world in the wake of the unopposed mushrooming of Asian prosperity that had come after the war. Mankind as a whole, it seemed, would never learn. Depression passed, too. Kath had moved away to talk to Adam, Casey, and Veronica, who were sitting together beyond the table at which Driscoll was performing. Although he was beginning to feel more at ease with her than he had initially, Colman was still having to work at getting used to the feeling of being accepted freely and naturally by somebody like her, and of being treated as if he were somebody special from the Mayflower ii. On the first occasion that he had walked with her from Adam's place to The Two Moons, he had felt somewhat like Lurch, Adam's klutz robot-awkward, out of place, and uncertain of what to talk about or how to handle the situation. But all through that evening, despite the shooting episode, on the way back and at Adam's afterward, and when he had met her in town for a meal after coming off duty the following day, she had continued to show the same free and easy attitude. Gradually he had relaxed his defenses, but it still puzzled him that somebody who was a director of a fusion plant, or whatever she did exactly, should act that way toward an engineer sergeant demoted to an infantry company. Why would she do something like that? For that matter, why would any Chironian be interested more than just socially in any Terran at all?. Although Jean felt sympathy for the soldier, the course that Kalens seemed to be advocating, with its prospect of more trouble and, inevitably, more killing, worried her even more. Why did it always have to be like this? she asked herself. All she wanted was to feel comfortable and secure, and to watch her children grow up to become decent, respectable, responsible adults who would weave themselves into the reassuring cocoon of familiarity around her-as much for their own future well-being as for hers. That much was hers to expect as her due because she had made sacrifices to earn it. It threatened nobody. So why should other people's squabbles which were not of her making now threaten her with sweeping it all away?. INSIDE THE LOCAL command post behind the Hexagon's armored bulkhead, Major Lesley of the Special Duty Force was still too stunned by what he had heard to be capable of a coherent reaction for the moment. He stared at the companel where a screen showed a view from the Columbia District, where the SD guard commander had entered the Communications Center under a truce flag some minutes previously to talk with Borftein, and tried to separate the conflicting emotions in his head. Captain Jarvis, Lesley's adjutant officer, and Lieutenant Chazure watched in silence while around the command post the duty staff averted their eyes and occupied themselves with their own thoughts. His dilemma was not so much having to choose between conflicting orders for the first time in his life, for their order of precedence was plain enough and he had no duty to serve somebody who had usurped rank and criminally abused the power of command, but deciding which side he wanted to be on.
