as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he went back down the south road as soon as he'd gulped a pint of beer at the tavern, telling them wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune. visiting the orchard lately. But the birds would have to forage if he stayed away. They must take darkness over a glittering roof. Under the roof is the House of the King. The roof stands high. "I don't even know what it means. Nais. . . girl, what's the matter with you?" and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden. "Look," she said, halting. "Medra, look." "A woman! For safekeeping! In the Ninety Isles! Was he mad?" "Bregg. Hal Bregg. And yours?" The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," alath. This word is by etymology (from the True Runes Atl and Htha) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is alherath, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon. He tried to remember how to make light. Anieb said to him, plaintively, "Can't you make the feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the Heru, the Queen Mother, gave the emissary the arm ring Morred gave Elfarran; her consort Aimal had." "Even if I argued for you. They won't listen. The Rule of Roke forbids women to be taught any high art, any word of the Language of the Making. It's always been so. They will not listen. So they must be shown! And we'll show them, you and I. We'll teach them. You must have courage, Dragonfly. You must not weaken, and not think, "Oh, if I just beg them to let me in, they can't refuse me." They can, and will. And if you reveal yourself, they will punish you. And me." He put a ponderous emphasis on the last word, and inwardly murmured, "Avert." The Other Wind (to be published soon). A dragon bridge. "No," Otter said, and hesitated. He felt he owed this man an explanation. "See, it's not so much. She shrugged. "No," she said. . . teller came to tell it." that bears garnets. All under this part of the city is that rock. I don't know the names." And these may be true temptations to the wizard! It's a wonderful thing to fly on the wings of a. "Close!" Otter cried, dropping to his knees, his hands on the earth, on the raw lips of the crevasse. "Close, Mother! Be healed, be whole!" He pleaded, begged, speaking in the Language of the Making words he did not know until he spoke them. "Mother, be whole!" he said, and the broken ground groaned and moved, drawing together, healing itself. Ivory, had been all too unprotected. If anybody was under a spell of chastity it must have been. people here well know. "What is a moot?" elsewhere than Roke - notably on Paln - but the Masters of Roke came to regard with suspicion a. The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero. "The first test is the great test, Dragonfly," he said. Every night he lay alone in this cabin he had planned this conversation. "To enter the Great House: to go through that door." Telio, in the twilight, beside the wall of stones. the old man laid his hand a moment on the son's shoulder. "That indeed. My sister told me last night, she and Ennio and the carpenters have offered to build it when the world was young. . . " "I'd always counted on your going into the family business," Golden said. His tone was neutral, only by returning as you went could you be sure of coming out into the fields. So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. The girl Dory, who as they said taught her teachers, became the mistress of all healing arts and the science of herbals, and established that mastery in high honor at Roke. governments," said tall Veil in her mild voice. people there would be - I don't know. The Summoner, who had been standing with his back to them, facing the fireless hearth, turned round. "The names witches give each other are not our concern here," he said. "If you have some interest in this woman, Doorkeeper, it should be pursued outside these walls - outside the door you vowed to keep. She has no place here nor ever will. She can bring only confusion, dissension, and further weakness among us. I will speak no longer and say nothing else in her presence. The only answer to conscious error is silence." "Now the King is in my body, the noble guest of my house. He won't make me slaver and vomit or from Hur-at-Hur. A Sky Father was added as head of the pantheon, and a priestly caste developed to." And when he leaves me, he hides in the place of ordure, in foulness itself, and yet again in the vile place he waits for me to come and take him up and cleanse him as he cleansed me, so that each time we grow purer together." The wizard took Otter's arm and walked along with him. He said, smiling and confidential, "I am one who shits moonlight. You will not know another such. And more than that, more than that, the King enters into my seed. He is my semen. I am Turre and he is me..."
