R. R. Tolkien. We're all dealing with language, after all, aren't we? But there is a very substantial craft involved here, although its material isn't toes or larynxes. And some opinions are worth a good deal more than others..After that day Lang was ruthless in gutting the old Podkayne. The hillside below the post fell steeply away, its features becoming rapidly indistinct in the feeble starlight before vanishing completely into the featureless black of the gorge beneath. There was no moon, and the sky was clear as crystal. When his eyes had adjusted to the gloom, Colman shifted his attention to the nearer ground and methodically scanned the area in which the twenty-five men of the platoon had been concealed and motionless for the past three hours. If they had undercut their foxholes and weapons pits the way he had shown them and made proper use of the rocks and vegetation, they would stand a good chance of escaping detection. To confuse the enemy's tactical plots further, D Company had deployed thermal decoys a half mile back and higher up near the crest, where, by all the accepted principles, it would have made more sense for the platoon to have positioned itself. Auto timed to turn on and off in a random sequence to simulate movement, the decoys had been drawing sporadic fire for much of the night while the platoon had drawn none, which seemed to say something about the value of "the book" as rewritten by Staff Sergeant Colman. McKillian asked, tossing her helmet on the floor and squatting tiredly against the wall. "The lender was not the most comfortable place to hold a meeting; all the couches were mounted horizontally since their purpose was cushioning the acceleration of landing and takeoff. With the ship sitting on its tail, this made ninety per cent of the space in the lander useless. Fortunately for his morale, this state of funk did not continue long. Barry didn't let it. The next night he was off to Partyland, a 23rd St. speakeasy that advertised heavily on late-night TV. As he approached the froth of electric lights cantilevered over the entrance, Barry could feel the middle of his body turning hollow with excitement, his throat and tongue getting tingly..at all." "Senator Moran told me I could live here in privacy. Is that true?" Amanda asked..Toward noon, the same wealthy merchant who'd come around before came around again. After climbing out of his palanquin, he started pacing up and down the way he'd done on his first visit; only this tune instead of looking up at the half-finished seventh stage and shaking his head, he kept glancing sideways at Ike and Eli and Zeke and me.
