"Haven't you heard? We can spot each other a mile away. Would you like some."Why?". "Oh, my nearest and dearest friend," said the grey man, "I had almost forgotten you. Forgive me." He took from his pocket an envelope, and from the envelope he took a large, fluttering moth. "This flew in my window last night," he said. The wings were pale blue, with brown bands on the edges, and the undersides were flecked with spots of gold. He pushed in a long metal flap at the side of the trunk, very like a mail slot, and slid the moth inside..Megalo Network Message: September 21, 1977.He replied, "They quickly become deaf and so have no need to speak. She could have sent Teddy on his way with a few polite words instead of making an incident of it. Still, I think I pity rather than dislike her. Don't I let myself get sucked into looking after her like everyone else? That sweet, yielding, dependency is no more than what her father trained into her. It's the Senator I dislike." She snorted. He glanced from side to side to take in the whole of his audience. "I, ah--I almost didn't make it here at all." He paused, and the last whispers of conversation died away. "A sign in the hall outside says that the fossil display is in twelve-oh-three upstairs." The American Archeological Society was holding its annual convention in the Hilton complex that week. Congreve shrugged "I figured that had to be where I was supposed to go. Luckily I bumped into Matt on the way, and he got me back on the right track." A ripple of laughter wavered in the darkness, punctuated by a few shouts of protest from some of the tables. He waited for silence, then continued in a less flippant voice. "The first thing I have to do is thank everybody here, and all the NASDO people who couldn't be with us tonight, for inviting me. Also, of course, I have to express my sincere appreciation for this, and even more my appreciation for

the sentiments that it signifies. Thank you--all of you." As he spoke, he gestured toward the eighteen-inch-long, silver and bronze replica of the as yet unnamed, untried SP3 star probe that stood on its teak base before Congreve's place at the main table..plants' ingenious solution to survival on Mars.
