Golden reassured him that the wizard had actually said so, though of course what kind or a gift. So he cherished his free hours as if they were actual meetings with her. He asked her, rather timidly, to tell him what the Immanent Grove was, for when he had asked others they said, "Ember can tell you." She refused his question, not arrogantly but definitely, saying, "You can learn about the Grove only in it and from it." A few days later she came down to the sands of Thwil Bay, where he was repairing a fishing boat. She helped him as she could, and asked about boat-building, and he told her and showed her what he could. It was a peaceful afternoon, but after it she went off in her abrupt way. He felt some awe of her; she was incalculable. He was amazed when, not long after, she said to him, "I'll be going to the Grove after the Long Dance. Come if you like.". They walked past the roaster tower, past the old shaft and the new one, on into the long valley where Otter had taken Licky the first day he was there. It was late autumn now. The shrubs and scrubby grass that had been green that day were dun and dry, and the wind rattled the last leaves on the bushes. To their left a little stream ran low among willow thickets. Mild sunlight and long shadows streaked the hillsides.. but Irioth spoke.. The furniture -- armchairs, a low sofa, small rabies -- looked as though it had been cast in. Oh, it's time, and past time. We must deliver the King. We must find the great lode. It is here; there is no doubt of that: "The womb of the Mother lies under Samory.". "Can't be done,.". larger than she was, enormously larger. She could reach out one finger and destroy him. He stood. The witch said nothing. She knew the girl was right. Once the Master of Iria said he would or would not allow a thing he never changed his mind, priding himself on his intransigence, since only weak men said a thing and then unsaid it.. "I don't see the difference. You're sure you weren't betriated?". "Death and desolation," said the ship's master, a short man with small, sad, knowing eyes like a whale's.. Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking. He would have dragons for his dogs.. It cost him a great effort to speak.. before the staggers begin. And those not struck yet, he says he can keep it off em. So the. work and talk.. an approaching green circle. The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary. They sat unspeaking. The crisis passed. Heleth relaxed a little and even smiled. "Very old stuff," he said, "what I'll be doing. I wish now I'd thought about it more. Passed it on to you. But it seemed a bit crude. Heavy-handed ... She didn't say where she'd learned it. Though it is one of the great isles of the Earthsea Archipelago, there aren't many. Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all

he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known..eye back home, eh? But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead..The huge sign said EXOTAL. Maybe.Reluctant, he stepped forward, barefoot and bare-legged; he had rolled up his cloak into his pack an hour ago when the sun came out. Reeds brushed his legs. The mud was soft and sucking under his feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the circles of ripples from his movement were slight and small. It was shallow for a long way. Then his cautious foot felt no bottom, and he paused..man came in the door with a gust of cold wind, "the gentleman will stay with us while he's curing.Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay..Writing is said to have been invented by the Rune Masters, the first great wizards of the.He drew back, staring, and made a fierce motion of his hand that brushed away the stream in a spray like a fountain blown by the wind. "Yes," he said, "but only disguised. I won't put a semblance-spell on you till we're on Roke." "But maybe now? When you returned?".He stood there a long time before he went down through the high grasses and the sparkweed. At the foot of the hill he came into a lane. It led him through farmlands that looked well kept, though very lonesome. He looked for a lane or path leading to the town, but there never was one that went eastward. Not a soul was in the fields, some of which were newly ploughed. No dog barked as he went by. Only at a crossroads an old donkey grazing a stony pasture came over to the wooden fence and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face.
