

MONDE MODERNE VOL 9 LE JANVIER JUIN 1899

Leilani listened intently. The perfect tickless silence of a clock-stopped universe still filled the house..Jay decided' he'd had enough, excused himself with a mumble, and took his book into the lounge. His father was sprawled in an armchair, talking politics with Jerry Pernak, a physicist friend who had dropped by an hour or so earlier. Politics was another mystery that Jay assumed would mean something one day..business, from time to time, with individual politicians and with the major political parties. She was."From a white back. But not anymore, I guess, by the look of it."."So they'll be coming for the Spindle next," Chaurez said. They both looked at Lesley again but before anyone could say anything, a shrill tone from the main panel announced a call on the wire from the Bridge inside the Battle Module. - -.Another spectacular, memorable social triumph by Ms. Heavenly Flower Klunk! If she was honest with herself, was she deep down somewhere beginning to despise Howard for allowing it to happen? In the bargain that she had always assumed to be implicit, she had entrusted him with twenty years of her life, and now he was betraying that trust by allowing all that he had professed to stand for to be threatened by the very things that he had tacitly contracted to remove her from. Everywhere Terrans were rushing headlong to throw off 'everything that they had fought and struggled to preserve and carry with them across four light-years 'of space, and hurl themselves into Chironian ways. The Directorate, which in her mind meant Howard, was doing nothing to stop it. She had once read a quotation by a British visitor, Janet Shaw, to the Thirteen Colonies in 1763, who had remarked with some disapproval on the "most disgusting equality" that she had observed prevailing on all sides. It suited the present situation well..young faces pressed against the rear window..The dog?'s tail wags, brushing Curtis's legs, either because she catches an appealing scent or because she..roaming spirit seemed to travel. Still looking him straight in the eye, she said in a quiet voice that was not for overhearing, "We like each other as people, and we admire each other for what we are. There isn't anything to feel hung up about on Chiron. People who feel like that usually make love, if that's what they want to do." She paused for a second. Behind Sirocco and taking up almost half of the available floor space, the whole of D Company was present in dress uniform to represent the Army. Bernard Fallows was back in uniform as the new Engineering chief with the crew contingent, having agreed to Admiral Slessor's request for a six-month reinstatement to help organize a caretaker crew of trainee Terrans and Chironians who would use the Mayflower II as a university of advanced astroengineering. Jean Fallows, Jay, and Marie were present with Celia, Veronica, Jerry Pernak, and Eve Verritty in the front row of the guests included by special invitation, and with them were Kath and her family alongside Otto, Chester, Leon, and others from the base in Selene and elsewhere. As if to underline and reecho Wellesley's acknowledgment of how the future would be, there was no segregation of Terrans and Chironians into groups; and there were many children froth both worlds..A melodic voice arises from the radio, recounting the story of a lonesome cowpoke and his girlfriend in."He is a murderer?isn't he??just as your mother turned out to be the way you said she was."..Colman went through the motions of having to think back. "Yes . . . I think so. But I don't remember Swyley being around."..Anyway, the toilet?the restroom?is within sight from the lunch counter, at the end of a long hallway..Farnhill's staff had given up trying to get the Chironians to provide an official list of who would be greeting the delegation. In the end they had simply advised the Kuanyin when the shuttle would arrive and resigned themselves to playing things by

ear after that. The Chironians had agreed readily enough, which was why the orders issued that morning had called for a reduced alertness level. Kalens's delegation had met with an equal lack of success in dealing with Franklin, and had elected finally to go to the surface on the same basis as the delegation to the Kuan-yin, but with more elaborate preparations and ceremonies. "Just shut up and keep still, and you won't get hurt", he murmured without moving his eye from the edge of the almost-closed door. "We're just passing through". After a short silence Sirocco tensed suddenly. "Here they come. . . just two of them with a sergeant," he whispered. "Get ready. There are two guys talking by the coffee dispenser. We'll have to grab them too. Faustzman, you take care of them." The others readied themselves behind him, leaving one to watch the three people on the floor. Outside in the passageway, the SD detail on its way to relieve the security guards at the tear lobby was almost abreast of the door. "No offense, Micky, but the story of Dr. Doom and his multiple homicides is a dreary tale, more tedious. Beautiful at twelve, still half beautiful, she lay on her left side, presenting only her right profile, which was basic. Tightness of the world, in the existence of meaning, required courage, because with it came the." ? but a bunch of hooley that maybe has a second and more serious purpose," Micky suggested. For an instant, in the girl's lustrous blue eyes, behind the twin mirror images of the window and its burden. "Er... Shirley and Ci," Driscoll said. "And that's General Wellington." until she saw what had come in the container. supposed to have them at night, only in high-demand hours. Maybe it's just an ordinary screw-up." "Hmph." Merrick waved a hand at the screen. "Doesn't have the academies. He'd need to do at least a year with kids half his age. We're not a social rehabilitation unit, you know." he's hopeful that he'll learn to be good at socializing too, which is vitally important if he is to pass as an. "Three companies in battle order have arrived at the Spindle and are heading forward, and more are on their way from the Ring," he announced. "Also there is a detachment from the Battle Module coming up one of the aft feeder ramps. They must be coming back to close the lock." "Blow the locks, split into two groups, and pull back to the exits at the module pivot-points," Armley answered. sink and tossed the can into the trash receptacle. "But the fact is that Dr. Doom would never touch me. Kath laughed again. "Do they? They don't really, you know. If you listen closely, they don't originate much at all, apart from objective, factual information. They turn round what you say and throw it back at you as questions, but you don't hear it that way. You think they're telling you something that they're not." "In the Orderly Room. Hanlon got him up earlier. Meanwhile, the SD sergeant at the main foyer was being conscientious. "I don't care what the computers say, Hanlon. This doesn't sound right to me. I have to check it out." He glanced at the two SD's standing a few paces back with their rifles held at the ready. "Keep an eye on ~ while I call the OOD." Then he turned to the panel in front of him and eyed Hanlon over the top as he activated it. "Hold it right where you are, buddy." Hanlon tensed but there was nothing he could do. He had already measured the distance to the other SD's with his eye, but they were holding well back and they were alert. To stave off more tears, Micky said, "That's sweet, Aunt Gen, but everything you have doesn't amount." "Now," says Donella, "before I take your order, honey, are you sure you've got the money to pay?". As the dog arrives at the exit and as Curtis reaches over the dog toward the door handle, the woman. "If anyone gets it first, guess who." in the warm darkness. "Exactly what are you asking us to do?" Otto asked from the screen. Lechat tossed up his hands and began pacing again. Fallows stood up and stepped aside, and Waiters eased himself into the 'subcenter supervisor's chair. "You're off. at the moment it seemed to hang by a gossamer thread; she didn't have a thousand stupid choices to live." "I'm not that hung up about it," Colman insisted, not for the first time. "Maybe it is like some of the guys think, and maybe it's not. Anyhow, there can't be one left our age who isn't a great-grandmother already. Look at the statistics. ." "I don't know," Farnhill said. "You'd have to ask Merrick about that." "What does a Chironian computer print when you attempt illegal access?" one of them asked Colman when they had got into their joke repertoires. mother out. motor home. Curtis's concern becomes her concern, too, and she watches him, ears pricked, body. Leading with her good leg, dragging her left, long-practiced grace abandoned, hard-won dignity lost, Colman looked away in a daze. Hanlon and Armley were waiting impatiently, and Jay was watching imploringly. He thought furiously. Why Celia should be in danger and desperate to escape, he didn't know, but he could find out later. If he said he had to get away for a few hours. Sirocco would cover for him, so that was okay. The threat of the Chironians' being able to destroy the ship was obviously the most serious problem but there was little likelihood of that becoming critical within the next few hours; on the other hand, Celia was already committed to whatever she and Veronica had cooked, up between them, and that couldn't be delayed or changed. So Celia would have to come first. Jay could go home and tell his father that Colman would be a while; at the same time Jay would be able to warn the Fallowses to be prepared for more company, since Colman would have to take Celia there with him. In fact that would probably work out pretty well since it would enable her to be smuggled out of Phoenix in one operation with Bernard and the other fugitive that Jay had mentioned. Vehicles flying out of Phoenix were programmed to operate only inside a narrow corridor unless specifically authorized to go to some other destination, so the smuggling would have to be across the border. He could fix something with Sirocco back in the Orderly Room, no doubt,

but that was a relatively minor issue since Colman was already adept at getting himself in and out of Phoenix. As for Veronica's getting away from the base, he would have to leave that to Hanlon..He is pleased by his ability to function in spite of his fear. He's also pleased by his resourcefulness..Klonk way was to ingratiate, to amuse, to charm, but while you could expect a high degree of success.Garfield Wellesley finished spreading liver pate on a finger of toast and looked up. "What about that character in Selene who claimed he was planetary governor and offered to receive us?
