"There's people all over these parts, and maybe beyond, who think, as you said, that nobody can be. he was crossed, or frightened, then he did harm. He turned a kettle of boiling water over a cook. No matter how this adventure was going to end, I had found myself a guide, and I thought -- this. "Was that the Archmage? Truly?" "How can we get free?" "It is. They did that? Good." He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheet, had it done and hung out one sunny day before she knew what he was doing. "You needn't do that, sir, I'll do your things with mine," she said.-- I felt a number of amused stares, or so it seemed to me. I quickly turned away and walked. failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He. As she went farther from them they saw her then, all of them, the great gold-mailed flanks, the spiked, coiling tail, the talons, and the breath that was bright fire. On the crest of the Knoll she paused a while, her long head turning to look slowly round the Isle of Roke, gazing longest at the Grove, only a blur of darkness in darkness now. Then with a rattle like the shaking of sheets of brass the wide, vaned wings opened and the dragon sprang up into the air, circled Roke Knoll once, and flew.. all alone in his brightness in his courts of stone? He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke..smile to cover an upsetting incident. She was not pretending to be calm, she truly was calm..For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a mere toy, such as music or tale-telling, but a practical business, which his business could never quite equal. And he was, though he wouldn't have put it that way, afraid of wizards. A bit contemptuous of sorcerers, with their sleights and illusions and gibble-gabble, but afraid of wizards.. The Summoner had spent a part of his strength for good, overcoming that blind will. And I didn't have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And not a shred of power left in me to follow him with. So he got away from Roke. Clean gone..". "Which power?". It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy.
