The Changer stared openly at her. He was not as tall as she was. He stared at the Doorkeeper, and then at her again. "He's angry," Diamond said, "but he won't do anything." Most people of the Archipelago have brown or red-brown skin, black straight hair, and dark eyes; stream had chilled him to the bone, and he was shivering. Diamond glanced at Rose. The girl turned her head away, looking down. transformation, you maybe know of, mistress. She had walked with him in the forest, tall, awkward, fearless; she had put aside the thorny arms of brambles with her big, careful hand. Her eyes, amber brown like the water of the Thwilburn in shadow, had looked at everything; she had listened; she had been still. He wanted to protect her and knew he could not. He had given her a little warmth when she was cold. He had nothing else to give her. Where she must go she would go. She did not understand danger. She had no wisdom but her innocence, no amour but her anger. Who are you, Irian? he said to her, watching her crouched there like an animal locked in its muteness. called him. "Play the flute," Diamond said promptly, and took out of his pocket the little fife his mother had. For a half millennium or longer, men ambitious to work the great spells of magery bound themselves to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived under this spell of chastity from the time they entered the Great House and, if they became wizards, for the rest of their lives. spell? Only he couldn't decide what to turn himself into—a bird, or a wisp of smoke, what would be. Note on dates: Many islands have their own local count of years. The most widely used dating. "A NAMEDAY PARTY," said Golden. "Time for a bit of play, a bit of music and dancing, boy. Nineteen years old. Celebrate it!" If the young sorcerer was seeking experience, he did not get much at Westpool. Whenever Birch had guests from Kembermouth or from neighboring domains, the herd of deer, the swans, and the fountain of golden wine made their appearance. He also worked up some very pretty fireworks for warm spring evenings. But if the managers of the orchards and vineyards came to the Master to ask if his wizard might put a spell of increase on the pears this year or maybe charm the black rot off the Fanian vines on the south hill, Birch said, "A wizard of Roke doesn't lower himself to such stuff. Go tell the village sorcerer to earn his keep!" And when the youngest daughter came down with a wasting cough, Birch's wife dared not trouble the wise young man about it, but sent humbly to Rose of Old Iria, asking her to come in by the back door and maybe make a poultice or sing a chant to bring the girl back to health. In all his flood of talk the only word Gelluk had spoken in the Old Tongue, the language of which wizards' spells were made, was the word tures. He had said it meant semen. Otter's own gift of magery had recognized that meaning as the true one. Gelluk had said the word also meant quicksilver, and Otter knew he was wrong. "It must be weird, coming back like this," she said almost in a whisper. She shuddered. "What can I give you?" she asked. storm of ideas and feelings, a passion of rage, vengeance, pity, pride. There were two others, one equal, one greater. There was birth. When the Lord

of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost.. "Away? In anger?
