

NARRATIVES OF POLITICAL VIOLENCE LIFE STORIES OF FORMER MILITANTS

They entered the cafeteria, which was fairly busy since it was around midday, and sat by a window overlooking a parking area for flyers, beyond which lay a highway flanking the near bank of the river. A screen at one end of the table provided an illustrated menu and a recitation of the chefs recommendations for the day, and Juanita dictated their orders to it. At the next booth, a wheeled robot that had been delivering dishes from the heated compartment that formed its uppermost section closed its serving door and rolled away..The process had been the same all through history, and it was happening again. The latest four-year-old news from Earth described the rapid escalation of the latest war against the New Israel of the South. Only this time the EAF was getting involved. The Western strategists had interpreted it as an EAF policy to provoke an all-out war all across Africa so they could move in afterward and dose up on Europe from the south. Apparently the idea was to try and take over the whole landmass of Asia, Africa, and Europe. Why did they want to take over the whole of Asia, Africa, and Europe? Colman didn't know. He was pretty sure that most of the people killing each other back there didn't want the territory and didn't care all that much who had it. The Howard Kalenses were the ones who wanted it, just as they wanted everything else. Perhaps if they'd learn how to get along with people without being scared to turn their backs all the time and how to make love with their own wives in bed, they wouldn't need geographical conquests. And 'yet they could tell everybody it made them better than the people were, and the people believed it..CHAPTER SIXTEEN.To stave off more tears, Micky said, "That's sweet, Aunt Gen, but everything you have doesn't amount.roofs, sirens silent, are departing the interstate. They descend the gently sloped embankment and."On what I'm doing." The Chironian looked apologetic. "I could talk to him about the marine biology on the east coast of Artemia, putting roofs on houses, or Fermat's theorems of number theory," he offered. "Do you think he might be interested in anything like that?". "Was it respect they showed that boy who was killed last night?" Jean asked bitterly. "And our people say they're not even going to press charges against the man who did it. What kind of a way is that to live? Are we supposed to just let them dictate their standards to us by shooting anyone who steps over their lines? Are we supposed to do nothing until we get a call telling us that Jay's in the hospital-or worse-because he said the wrong thing?". "Stay.. . there!" the girl instructed.. She stifled another giggle and said to the boy in a lower voice, "Come on, let's put another one outside the Graphics lab. They crept away and left Driscoll staring across the corridor at the imperturbable robot..coiled under the window..forbidding than this one, he knows that sprinting flat-out through such terrain in twenty-percent humidity,,memory must be fed in his enduring absence.. "Bad news," Colman hissed through his teeth. "Just keep talking. Don't look round."..In a crouch, he crosses the roof to the brink. When he looks back again, the mutt whines beseechingly."Catalysts," Colman said after a few seconds of reflection. "You know, you're fight, now that I think about it. All they do is make you exercise the brains you never ' knew you had."..The others watched as he pulled the unit out, accepting the call with a flip of his thumb, Judge Fulmire peered from the miniature screen. "Are you alone, Paul?" Fulmire asked without preamble. His voice was clipped and terse..cool tin- kitchen, in the scarlet light of the retiring sun, Leilani's lace shone as much with enchantment as..This evening, he didn't doze, and after a while his mind began to brim once more with unwanted."Five-sub-three primary's starting to play up again, you'll be happy to hear. "Do you want to take over the ship?".that had kept her from drowning in self-pity since she'd moved in here..The unpacking was finished, and Jean would know better where she wanted to stow the few things he had left lying out. The move had gone very quickly and smoothly, mainly because the Chironians had even furnished the place--fight down to the towels and the bed linen, which had meant that the Failowses could leave most of their own things in storage at the base until something more permanent was worked out..Before Leilani could reply, Micky suggested, "Hannibal Lecter."..command chair. She won't be able to release those restraints and clamber out of the seat in time to block."I'm not a cripple."..He wondered how he might have made out if he'd had a start like that. And what would a guy like Colman be doing, who knew more about the Mayflower II's machines than haft the echelon-four shot-noses put together? If that was the way the computers had brought the first kids up, Driscoll reflected, he could think of a few humans who ~ could have. used some lessons..Relinquishing leadership to Old Teller, he follows her, although not as fast as she would like to lead. In any predicament whatsoever, if Leilani wondered which."But that ridiculous! Driscoll and Sirocco remained with Wellington in the corridor..the gloom..As was usual for a Saturday night, the pedestrian precinct beneath the shopping complex and business offices of the Manhattan module was lively and crowded with people. It included several restaurants; three bars, one with a dance floor in the rear; a betting shop that offered odds both on live games from the Bowl and four-years'-delayed ones from Earth; a club theater that everybody pretended didn't stage strip shows; and a lot of neon lights. The Bowry bar, a popular haunt of off-duty regular

troops, was squeezed into one corner of the precinct next to a coffee shop, behind a studded door of imitation oak and a high window of small, tinted glass panes that turned the inside lights red..there's no doubt one present?and that they will hassle even properly documented workers if they're in a sandwich. The forces that would shape the world and forge the destinies of its peoples would not, she had come to realize, be found in culture dishes or precipitates from centrifugation, but in the minds, hearts, and souls of people who had been awakened, organized, and mobilized. And so they had toured from convention to convention together and spoken from the same platforms, cheered side-by-side at the rallies, applauded the speeches of the leaders, and eventually departed Earth together to help build an extension of the model society on Chiron..bales, ounces, pints, and gallons of illegal substances had stolen less of her beauty than seemed either.Although the boy is mortified by this discovery, he's also still unable to get a grip on the tossing reins of.of the bite, excited by the prospect of the entertainment to come..Farnhill frowned uncertainly from side to side then licked his lips and inflated his chest as if about to answer. He deflated suddenly and shook his head. The words to handle the situation just wouldn't come. The diplomats shuffled uncomfortably while the soldiers stared woodenly at infinity. A few awkward seconds dragged by. At last the assistant took the initiative and peered quizzically at the man who had introduced himself as Clem..All entrances into the Center itself were guarded. Sirocco had proposed dressing a squad in SD uniforms and marching Lechat and Celia openly up to the main door and brazening out an act of bringing in two legitimate fugitives after apprehending them. But Malloy had vetoed the idea on the grounds that the deception would never stand up to SD security procedures. Then Lechat had suggested a less dramatic and less risky method. As a regular customer of the Fran?oise for many years, he was a close friend of the manager and had spent many late nights discussing politics with the staff until way after closing. They all knew Lechat, and he was sure he could rely on them. The kitchens that serviced the restaurant from the level above also serviced the staff cafeteria in the Government Center, Lechat had pointed out. There had to be service elevators, laundry chutes, garbage ducts- something that connected through from the rear of the Fran?oise..cashier when you leave..".Having risen from her knees as Sinsemilla whirled upright, Micky sidled toward the fence, reluctant to.exhausted, afraid, still lost, and in need of a plan. "Let's get out of here," he said. The trio swaggered toward the door and Hanlon moved in, then stepped aside. Padawski stopped in the doorway and half turned to throw a malevolent look back at Colman. "Some other time. Next time you won't be so lucky." They left. Outside, the three SD troopers turned away and moved slowly off..".Spike it with what, dear?".".I didn't know you had a thing about little girls, Steve," Anita teased. "You don't look the type." Hanlon roared and slapped his thigh..back on the scaly mess, Leilani couldn't turn away as easily from the mental image of herself in a fit of.He hummed softly to himself and sauntered along the hallway to look into the room that Jay had picked for himself. Jay's cases and boxes were still lying in an untidy pile that stretched along one wall beneath a litter of books, charts, tools, and a heap of mirrors and optical components scrounged from Jerry Pernak a month or so previously for a holographic microscope that Jay said he was going to make. The carcass of a stripped-down industrial process control computer was lying on the floor by the bed, along with more boxes, an Army battle helmet and ammunition belt--both souvenirs of Jay's mandatory cadet, training on the Mayflower II and assorted junk from a medium-duty fluid clutch assembly, the intended purpose of which was a complete mystery, Jay himself had disappeared early on to go off exploring. Bernard shrugged to himself. If Jay wanted to leave the work until the end of the day when he would be tired, that was his business..low..".Those kids," Bernard replied, gesturing behind them. I know..".Ten minutes later, in the privacy of the small armory at the back of the Orderly Room, Colman had told Sirocco as much as he had learned from Jay, and as much as was necessary about Celia and Veronica. Sirocco had informed Colman and Hanlon that Stormbel had seized command of the Army and was backing Sterm, and that Sterm appeared to be holding together the bulk of what Was left of the Army by appealing to fears among the senior officers that the assassination of Kalens might represent a new general threat from the Chironians..".The EAP is committed to a dogma of conquest," he said. "Although, I suppose. I shouldn't really say too much since I've had nothing to compare it with. But it was"-she shrugged- "warm, friendly..., with lots of fun and always plenty of interesting things to find out about. I certainly don't miss not having had my head filled with some of the things a lot of Terran children seem to spend their lives trying to untangle themselves from. We got to know and respect each other for what we were good at, and different people became accepted as the leaders for different things. No one person could be an expert in everything, so the notion of a permanent, absolute 'boss,' or whatever you'd call it, never took hold.".The dog whines with hunger..He is pleased by his ability to function in spite of his fear. "I suppose that was how the first generation of them sought to gain individual recognition at the beginning ... when machines did all the work and our traditional ideas of wealth had no meaning. And it's become embedded in their basic thinking." He nodded slowly to himself and reflected further. "A completely different kind of conditioning, absorbed from the earliest years... based on recognizing individual attributes. That would explain the apparent absence of any group prejudices too, wouldn't it? They've never had any reason to feel threatened by other groups.".Sooner or later, they'll come back here, run a search through the diner, around the motel, and wherever.slippery thingy, not a monster!".Brief trills of laughter escaped Sinsemilla. In."We couldn't let him do that, could we?" Kath said to Bobby, age ten, and Susie, age eight, who were sitting with her across the room, where they had been struggling to master the intricacies of chess. "Lurch is half the fun of coming here.". "Ex-sergeant Malloy of the SDs," Swyley said. "He decided he'd had enough and quit over a month ago. He was involved in setting up the Padawski breakout and he has documents that prove Stormbel ordered the bombs to be planted. He wants to go public." Swyley shrugged. "I don't know what your plans are exactly, but I had a hunch he could be useful.".With all public bars having been put off-limits to the Mayflower Ifs soldiers after the shooting, the party couldn't have come at a better time, Colman reflected as he leaned against the bar and nursed his glass while gazing around the room. Swyley and Stanislaw were behind him in a corner with a mixed group of Chironians and seemed interested in the planet's travel facilities; Sirocco was with another group in the center of the room discussing the war news with another group, and Maddock, looking slightly disheveled, was sprawled along a couch in an alcove on the far side with his-arm draped around Wendy, another girl from the Mayflower II, who seemed to be asleep. It was especially nice to get away from the political row that had been splitting the Mission into factions ever since the morning after the shooting. Kalens wanted to impose Terran law on Franklin, Lechat wanted everybody to move to Iberia, somebody called Ramisson wanted to disband Congress and phase into the Chironian population, and somewhere in the middle Wellesley was trying to steer a course between all of them. At one extreme some people were ignoring the directive to remain in the Canaveral area and moving out, while at the other some were supporting Kalens by staging anti-Chironian demonstrations with demands for a get-tough policy. Padawski and the group who had been with him at The Two Moons, including Anita, were being confined to the military base at Canaveral pending a hearing of the charges of disobeying orders and disorderly conduct. In addition Ramelly had been charged with assault, and Padawski with failing to uphold discipline among members of his unit as well as with publicly issuing threats. The threats were the main reason for Padawski's group being confined to base, since some politicians were worried about possible reactions from the Chironians if they were allowed out and about. Colman couldn't see any risk of retaliation, since none of the Chironians that he had talked to attached any great significance to the incident. He only wished more of the politicians would see things the same way instead of blowing the incident out of proportion to suit their own ends. If they had stayed out of the situation and left the Army to deal with its own people in its own

way, the whole thing would probably have been forgotten already, he thought to himself. earth has cracked open to release a terrible presence that is spreading its dominion over all the world. A."Her mother's dying too," Jay had replied dryly. Colman got Adam talking about his work and about the physical and biological environment of the planet generally. Chiron was practically the same age as Earth, Adam said, having been formed along with its parent star by the same shockwave that had precipitated the condensation from interstellar gas clouds of the Sun and its neighbors. "Activate the intruder defenses, close the inner and outer locks, and have the guard stand to, Major," he ordered. "Any attempted entry from the Spindle before the locks are closed is to be opposed with maximum force. Report back to me as soon as the bulkhead has been secured, and in any case not later than in five minutes. Is that understood?".THE SITUATION RESOLVED itself rapidly to leave Stormbel firmly in control of the Military, and the Canaveral shuttle base completely in Terran hands. Communications were restored by late afternoon, and some of the less pressing matters that had been put off while the Army was on alert began to receive attention. Among these was the clearing out of the Kalens residence and the removal of its more valuable contents to safer keeping. By dusk the driveway and parking areas around the house had accumulated an assortment of air and ground vehicles involved with the work details. Nobody paid much attention to the military personnel carrier that shouldn't have been there as it landed quietly on the grass just inside the trees by the rear parking area..Geneva, who knew her niece's stoic nature, nevertheless didn't seem surprised by the tears.
