

ORGANIZATIONAL RESILIENCE THIRD EDITION

"Ah." Leilani's eyes widened. "You're the twelve percenters." "I was a kid by an uncle who had died fifteen years into the voyage from a heart condition, but that was about all." "creature that Karloff played." "To preserve the essential characteristics of the American System, life aboard the Mayflower II was organized under a civilian administration to which both the regular military command and the military-style crew organization were subordinated. The primary legislative body of this administration was the Supreme Directorate presided over by a Mission Director, who was elected to office every three years and responsible for nominating the Directorate's ten members. The term of office of the current Mission Director, Garfield Wellesley, would end with the completion of the voyage, when elections would be held to appoint officers of a restructured government more suitable for a planetary environment." "The dog sits up straighter and pricks her ears, as if to say that she, too, is well informed about such." "but scoping the audience was a mistake. Micky stood at the bottom of the steps, and Mrs. D stood." "I heard a woman in the market who said that dead people talk to her," Susie told him. "That's even more ridiculous." "Bernard, Pernak, and Jean stared at the picture for a long time. Pernak's eyes were very serious, and Jean began biting her lip apprehensively. At last Bernard nodded and looked at the other two. "Okay, I'm with you," he told them. "Most of the people making all the big speeches out there aren't equipped to handle this. I don't think Iberia matters too much one way or the other anymore, but we need to get Lechat in on it-and fast." "rehabilitated by the Circle of Friends. I expected to be spotted and warned off, but I thought the." "on a forty-eight, that right?" Waiters asked. "Uh-huh." "Any plans?" "You look as if you might know something about it," Lesley said to Colman. "Is there something down on the surface that hasn't been made public knowledge?" "Aw, cut it out, Hoover," Rastus told the robot. "These people have only just arrived. They've got more than enough to do." He looked at the Terrans. "This is Hoover. He runs the place. Don't pay too much attention or you'll end up buried in junk up to your eyes." "that I think about it, the man who was shot in New Orleans?" "he was Alec Baldwin." "Dr. Doom had gone out to a movie or to dinner. Or to kill someone.." "They destroyed all the pictures of him. Because when he comes back with the aliens, he'll be completely." "With good cheer untainted by any trace of bitterness, she said, "It's okay, dear. If the man who shot my." "I wish I felt as confident as you sound. It seems risky." "Not when you've got the best outfit that the Army ever." "My pseudofather. Late that afternoon, he parked the motor home in a roadside lay-by. Not a style and sexy allure of a robot hunter who had been constructed in a laboratory in the future and sent." "Celia had become very thoughtful in the last few seconds. She waited for the talking to subside for a moment, and then said, "If we have to go up to the ship anyway, it might be possible to make this far more effective than what we've been talking about so far." She paused, but nobody interrupted. "I know where the people who have been arrested." "That's all, Fallows," Merrick murmured without looking up. "You are dismissed." "The snake turned its head to inspect its new admirer, and with no warning, it struck at Leilani as quick as." "She's never told us his name. She's got this thing about names. She says they're magical. Knowing." "THE WORLD IS FULL of broken people. Splints, casts, miracle drugs, and time can't mend fractured." "she had been six years old then, seven at most, and wretchedly jejune. Jejune was a word she liked a lot." "Jean was too astonished to do anything but gape at him while Jay stared in undisguised amazement. Pernak blinked a couple of times and waited a few seconds for the atmosphere to discharge itself. "The problem is it isn't quite that simple," he finally said, forcing his voice to remain steady. "If everybody was going to be left alone to make that choice I'd agree with you, but they're not. There's a faction at work somewhere that's pushing for trouble, and what I've seen of the Chironians says that could mean big trouble. The Iberia thing would at least keep everybody apart until this all blows over, and that's all I'm saying. I agree with you, Bern-I don't think it'll last into the long-term future either, but it's not the long-term that I'm worried about." He glanced at Jean apologetically. "Sorry, but that's how I think it'll go." "trapped in this claustrophobic rolling slaughterhouse with psychotic retirees who'll eat him with chips and." "and powerful as she looks, rhino-powerful, or whether sometimes she feels as weak and frightened as." "Even as he thought that, Eve's words about brainwashing came back to him. Yes, he was willing to concede that he had been through the same processes as everyone else, and that could be why he was unable in his mind to dissociate wealth and status from material possessions. But even if a sufficiently advanced society could supply possessions in an abundance great enough to make their restriction purposeless, that still couldn't equate to unlimited wealth, surely. The very notion was a contradiction in terms, for wealth by definition meant something that was highly valued and in limited supply. In other words, if on Chiron possessions did not equate to wealth and thereby satisfy the universal human hunger to be judged a success, then what did? "Cool." "braced leg had ever before allowed, playing cowgirl-with-lariat as she rose from the floor. Swung like a." "Kath looked apprehensively at Celia. Celia nodded in answer to the unvoiced question. "Yes, that's the way I want it," she said. Kath nodded and accepted the situation at that." "she was eating broccoli, not with clear distaste, but with the indifference of nutritional duty." "been Familiar with that strategy." "The discussion continued for a while longer without making any further headway, but Kalens seemed more thoughtful and less insistent. Eventually the others left, and Fulmire sat for a long time staring with a troubled expression at his desk. At last he activated the terminal by his chair, which he had switched off earlier in response to Kalens's request for "one or two informal opinions that I would rather not be committed to record." "All covering positions manned and standing by," one of the duty crew sang out from a station inside the command post." "windows, until the pie-powered trucker returned and they ventured out upon the road again. Even then," "At last Kath looked around for a way of relieving the heaviness in the air. "How will you get them up to the ship?" she asked Colman." "seemed to have been dammed into a still pool. Saturated by silence, the house brimmed also with an." "before she had been able to return here. She hadn't been Leilani Klonk when she hurried from this

room..Colman nodded. "Her friends showed up, and she's in Franklin. It all went fine." He turned his head to Celia. "This is Bret. He got Veronica off the base." "Oh, Jay, don't be silly. Come on now--tell me where all this came from." Gen sighed. "Rolling blackout. Third World inconvenience with the warm regards of the governor. Not." Well, I think there's something to be scared about," Paula said. "Suppose they turn out to be really mean and don't want to mess around with talking at all. Suppose they send a missile up at us without any warning or anything .. I mean, we'd be stuck out in space like a sitting duck, wouldn't we. Then where would we be?" "Those for?" Lechat invited. All of the members' hands went tip. "Against?" There were no hands. "The resolution is passed," Lechat announced. Phoenix had officially become a part of Chiron once again..Well, all right, the clown car is wishful thinking, as they only appear in circuses. In fact, it's certain to be." Not if I have anything to say about it," Geneva promised.. "What kind of outcome?" Thelma asked from beside Leon..Colman's eyes widened for a moment as he listened. "I'd never really thought about it," he admitted. "But I guess, yes . . . it'd have to have been like that. Your kids today don't seem to have changed all that much either. "How do you mean?" Kath asked.. "They would never have listened if I had told them. It was necessary to demonstrate that every alternative to force was futile. He has."I'm not sure I'd trust any electronics," Lechat cautioned, "Could be risky," Bernard agreed after a second's reflection. "If Stern and whoever else is involved have been preparing for this, I wouldn't put it past them to have taps and call-monitor programs anywhere. Someone will have to go there."..The rural Colorado darkness is not disturbed by approaching headlights or receding taillights. When he."Good pup," he tells Old Yeller, meaning to encourage her and prepare her for what might be coming..He nodded. "It's all in the Neiman Marcus bag." He hesitated, but then decided that this woman's.The screen before him suddenly came to life to show her face. A flicker of surprise danced in her eyes for the merest fraction of a second, and then gave way to a smoldering twinkle of anticipation mixed with a dash of amusement..Leilani didn't suggest that an Egyptian queen who had reigned more than two thousand years ago.Standing a short distance apart from the group in the opposite direction, Colman was becoming as fed up as the rest of them. It was midafternoon, and Farnhill's party was still inside with no sign yet that whatever was going on was anywhere near ending. The squad's orders were to stand easy, which helped a bit, but all the same, things were starting to drag. He heaved a sigh and for the umpteenth time paced slowly across to the corner of the building to stand gazing past it at the above-surface portion of the complex. Behind him, Driscoll and Stanislaw stopped talking about Carson's sex lie abruptly as two Chironians stopped by on their a t t e m entrance.. "I've talked to shrinks. They're all crazy. How do they know whether I know me or not? Do you know how your head works inside?" Anita shook it in a way that said she didn't care all that much either. Colman's scowl deepened, more from frustration at a promise that was beginning to evaporate than from disapproval of something that wasn't his business. "Then how do you expect a pill to figure it out?".looked clean, so far from Earth..CLUMP, CLUMP, CLUMP, clump, clump, clump, clump, clump..Mr. Hooper doesn't have the wit to understand what she wants of him, so he just chatters on..was pale blond now, streaked with gray. Spit out.Fate possessed the sharper teeth, the stronger jaws..The Chironians traded in respect, Colman was beginning to understand as he listened to the talk around him. They respected knowledge and expertise in every form, and they showed it. Perhaps, he thought to himself, that was bow the first generation had sought to compete and to attain identity in their machine-managed environment, where such things as parental status, social standing, wealth, and heritage had had no meaning. And they had preserved that ever since in the way their culture had evolved..thinks they're all just breeding grounds for legionnaires' disease and that gross flesh-eating bacteria."I'm not that hung up about it," Colman insisted, not for the first time. "Maybe it is like some of the guys think, and maybe it's not. Anyhow, there can't be one left our age who isn't a great-grandmother already. Look at the statistics . . ." "I've seen your mother go through a lot of men over the years. She's always been so ... restless. I knew.Curtis doesn't want a refuge. He wants to find an escape hatch. The flash of gamma rays ionized the upper atmosphere, and the sky above Chiron glowed in streak~ that extended for thousands of miles. Sensitive radiation-monitoring instruments were CHAP! F.M THIRTY-NINE burned out all over the outside of the Mayflower II, and because of the electrical upheaval, it was twelve hours before communications with the surface could be resumed..Smiles and grins relieved the solemn atmosphere that had seized the room.. From the direction of the table, Jean emitted an audible sigh of relief. Bernard grinned up at the screen. "Thanks." he said. "We're all glad to hear it. Talk to you again soon." Kath gave a quick smile and vanished from the screen..a merry mood often sang an ebullient mantra that she'd composed herself: "I am a sly cat, I am a summer.Judging by the

Jean took the boots and turned them over in her hands. Then she picked up the parks, unfolded it, and studied it in silence for a couple of seconds. "But . . . these are good, Jay," she said. A concerned expression spread over her face. "Where . . . how did you get them? I mean... what's all this going to cost?" a halt in front of the motel, next to the restaurant, still upright, hissing and rumbling, smoking and steaming.. "Great idea," Colman said and stood up. Anita let her hand slide down his arm to retain a light grip on his little finger. The others drank up, rose one by one, nodded good night to Sam the proprietor, and began moving toward the door in a loose gaggle..could endure, this was too much, too much, intolerable..could be disguised as a sweet romance novel with just a switch of the dust jackets.. "The build-up at Canaveral is proceeding on schedule and will be completed before midnight," he informed Stern at a midday staff meeting in the Columbia District's Government Center. "The greater pan of Phoenix is being abandoned as we assumed would be unavoidable, but the key points are secure and the wastage among the regular units has been checked. Transfer of SD forces to the surface will be completed by early evening, with the exception of those units being held to cover the Battle Module, the Columbia District, and Vandenberg. All operations tomorrow are clear to proceed as planned, with the strike against the Kuan-yin going in at 0513 hours, launch of orbital cover group immediately afterward, and the advance upon Franklin in force moving out at dawn." "Heavens, no, dear. We emptied the register and all but thanked him for sparing us the trouble of paying. Finally, he starts up toward the second floor. The stairs softly protest. Hesitantly, he eases open the driver's door and slips out of the SUV. onto the bed of the transport..she'd fetch the brandy and drink that instead, regardless of Leilani's objections. Alcohol never soothed. "That's okay," Colman said. "We just have to take some measurements." Without waiting for a reply he walked over to the door, opened it, poked his head in, called back to Stanislaw, "This is it. Where's Johnson?" and went inside. Stanislaw put down the toolbox and followed, then Colman came back out and squatted down to rummage inside it for something. Veronica appeared and went in with the packing roll, Stanislaw came out, Colman went back in with a measure, and a few yards away along the corridor Carson and Maddock managed to get the picture-crate stuck across an awkward corner. While the SD was half watching them, Fuller came up the stain to ask where Johnson was, Stanislaw waved in the direction of the doorway, and Fuller went in while Colman came out. Carson dropped his end. He thought of the face of Celia Kalens, who had vanished presumably to safety, and then come all the way back to the heart of the Government Center; she'd risked everything for the truth to be known. Then he gazed out again at the sergeant, the corporal, and the figures standing behind them in a silent plea for reason. They were risking everything too, so that what Celia and the others had done would not have been in vain. Whatever Lesley stood to lose, it couldn't be more than those people had already put on the line..view to him, so he pushes through the door without knowing what lies beyond.. "She's coming down to the surface later this evening to pick up some papers and things from the house after it's dark. But she'll be under escort. We've worked out a plan, but it needs someone to get me into the house first, before they arrive, and to get her away afterward. Also I'll need a way of getting out of the shuttle base later-it's being closed off. You're the only person she'll trust.
