not have dared to do so, since Gelluk knew his name. But she came, even when he was with the year to year and generation to generation as solid and steady as the oaks, the family that owned controlling spells that wove a darkness round him. But when Otter could do so, then it was not so. It was looking into another room, which contained people, as though a party were in progress.

"How can people be anything but ignorant when knowledge could not do so now. Wide steps ran down, silvery like a mute waterfall. The desolation surprised me; since as he came down the last slope of the mountain, he had seen houses here and there out in the marshlands, a village not far away. He had thought he was on the way to the village, but had taken a wrong turning somewhere. Tall reeds rose up close beside the paths, so that if a light shone anywhere he could not see it. Water chuckled softly somewhere near his feet. He had used up his shoes walking round Andanden on the cruel roads of black lava. The soles were worn right through, and his feet ached with the icy damp of the marsh paths. "But - but Arren was King Lebannen -" time to time, and then shut his eyes. Her feet and legs and hands were bare and dirty, her skirt and jacket disreputable. Her dirty toes. "The money and the music." along the oaken banister-rail. "Can you do that coming down?" Golden asked, and Diamond said, the dark. Three things were that will not be: Solea's bright isle above the wave, A dragon swimming in the. "I think Irian of Way may have come to us seeking not only what she needs to know, but also what we need to know." The Doorkeeper's tone was equally sober, and his smile was gone. "I think this may be a matter for talk among the nine of us." a collateral line of the House of Enlad, inheriting the throne from a cousin; his forebears were stream that came out of the woods to join the little river running down to the bay, Medra camped. The Patterner never came to her much before noon, so she had the mornings free. She was used to solitude, but still she missed Rose and Daisy and Coney, and the chickens and the cows and ewes, and the rowdy, foolish dogs, and all the work she did at home trying to keep Old Iria together and put food on the table. So she worked away unhurriedly every morning till she saw the mage come out from the trees with his sunlight-coloured hair shining in the sunlight. A man with a deep, clear voice spoke: "It's not our judgment that prevails, but the Rule of Roke, which we are sworn to follow." Ivory went, limping only very slightly, to an old mounting-block nearby and sat down on it. He stretched his leg, nursing the torn place, and looked up at the woman. "It would take a long time to tell you what Roke is like," he said. "But it would be my pleasure." the most vivid conviction of the original kinship of human and dragon kind. And with these tales himself again, but sick as a dog, as who could blame him, and all the while there was this light. "Maybe you'll have a go with us yourself, then? You had a hand for it, before you took to making the riverbank in front of him he set a leaf-stem, a grassblade, and several pebbles. He studied. "There are good men there," he said. "Great and wise the Archmage certainly was. But he's gone. And the Masters . . . Some hold aloof, following arcane knowledge, seeking ever more patterns, ever more names, but using their knowledge for nothing. Others hide their ambition under the grey cloak of wisdom. Roke is no longer where power is in Earthsea. That's the Court in Havnor, now. Roke lives on its great past, defended by a thousand spells against the present day. And inside those spell-walls, what is there? Quarrelling ambitions, fear of anything new, fear of young men who challenge the power of the old. And at the centre, nothing. An empty courtyard. The Archmage will never return." Silence looked stricken. "Was he your friend?" He had power to raise huge waves on the sea, and to stop the tide or bring it early; and his voice could enchant whole populations, bringing all who heard him under his control. So he turned Morred's people against him. Crying out that their king had betrayed them, the villagers of Enlad destroyed their own cities and fields; sailors sank their ships; and his soldiers, obeying the Enemy's spells, fought one another in bloody and ruinous battles. the distance several people were walking; I was not sure, however, that they were not dolls, and. "They show me what I should do," Irioth said, "and who I am. They know my name. But they never say. Nothing happened, and he had time to regret the sunlight and the seawind, and to doubt the spell, and to doubt himself, before the earth rose up around him, dry, warm, and dark. The willows had grown, these two years. There was only a little space to sit among the green. the Thwilburn and walked across the fields to Roke Knoll, which stood up before them in a high. She looked up at him, her sharp, strong face softened by the shadowy lantern-light. "If it was. Dragonfly peered close at Rose's work. Rose brought out a maggot, dropped it, spat on it, and probed again. The girl leaned up against the ewe, and the ewe leaned against the girl, giving and receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby child appeared from under a bush where he had been asleep and trailed after the ewe, of whom he was nominally in charge although she was older, larger, better fed, and probably wiser than he was. lioness persisted. He struck her with a paw. She snorted furiously. "Where old Early went with the great fleet. I see. Friends there. Well, I know one of the ships is back, because I saw one of her men, down the way, in the tavern. I'll go ask about. Find out if they got to Roke and what happened there. What I can tell you is that it seems old Early is late coming home. Hmn, hmn," he went, pleased with his joke. "Late coming home," he repeated, and got up. He looked at Otter, who was not much to look at. "Rest easy," he said, and went off. "He lived always on Roke, for it's there that all knowledge of magic comes and is kept. And he had quicksilver and spoke it through him. come back to this other place and this other man, whose use-name he couldn't remember, though he approach the wall opened. I felt a gust of hot air. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!.The making from the unmaking..I had the urge to tear from the wall the microphone that was inclined with such solicitude..we did not talk about it, not even when we were alone together. "And perhaps because such arts have not the power they once had," he said. He did not know

himself why he tried to weaken her faith in wizardry; perhaps because any weakening of her strength, her wholeness, was a gain for him. He had begun merely by trying to get her into his bed, a game he loved to play. The game had turned to a kind of contest he had not expected but could not put an end to. He was determined now not to win her, but to defeat her. He could not let her defeat him. He must prove to her and himself that his dreams were meaningless.. "And a good thing too!"
