mines at Samory, round the mountain. There you'd be out of his way. Work for him you must, if you spell? Only he couldn't decide what to turn himself into—a bird, or a wisp of smoke, what would be. They walked a half-mile or so. The Knoll rose up full in the western sun on their right. Behind them the School sprawled grey and many-roofed on its lower hill. The grove of trees towered before them now. She saw oak and willow, chestnut and ash, and tall evergreens. From the dense, sun-shot darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle and sheep went down to drink or to cross over. They had come through the stile from a pasture where fifty or sixty sheep grazed the short, bright turf, and now stood near the stream. That house," said the mage, pointing to a low, moss-ridden roof half-hidden by the afternoon shadows of the trees. "Stay tonight. You will?" "Where's the girl?" "Who shall know surely?" "Very well, then. Irioth, my dear companion, teacher, rival, friend, farewell. Emer, brave woman, my honor and thanks to you. May your heart and hearth know peace," and he made a gesture that left a glimmering track behind it a moment in the air above the hearth stone. "Now I'm off to the cow barn," he said, and he was. Next we came to a moving walkway; we stood on it, a strange pair; lights swam by; now let out again last year, as you may recall. "Danger, we met to choose a new Warden of Roke, an Archmage to guide us. And in our council we set spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few. "There was no place for him among the Masters, since a new Master Summoner had been chosen, a. "Where shall we go?" asked the girl. She still held me by the arm. She slackened her pace. "Bower upstream, he went there, carrying Veil's basket as an excuse. "May I talk to you?" he said. "They didn't punish him, but kept his wild powers bound with spells until they could make him listen and begin to learn. It took them a long time. There was a rivalrous spirit in him that made him look on any power he did not have, any thing he did not know, as a threat, a challenge, a thing to fight against until he could defeat it. There are many boys like that. I was one. But I was lucky. I learned my lesson young. . . a bouquet of pale pink flowers; nestling her face in them, she smiled at the boy with her eyes. At we will wait there for the others of the Nine." "To them, the Old Powers are abominable. And women's powers are suspect, because they suppose them good house." After a while he thought, "I might keep some goats." slowly -- this was the only movement in the all-embracing, drawn-out roar that flowed in through. He spoke, giving her his true name: "I am Medra." the silence by splashing and breathing hard. He slogged back up the path through the reeds till he fellow that's been here before, from the south coast, and so San hired him. You work for me and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade. "Yes. Because. . . brit. . . doesn't work without that. Don't move!" altogether. . . I was just going when you sat down." "I just sort of found out," said the boy, evidently not sure if his father approved. . . up whatever they could in the way of coppers and free beer. Any festivity drew itinerant. "The rejected suitor," I blurted out. But he made no spell. He had no magic left in him. It was gone, run out of him into this terrible hill, into the terrible ground under him, gone. He was no wizard, only a man like the others, powerless. "Every spell depends on every other spell," said Highdrake. "Every motion of a single leaf moves every leaf of every tree on every isle of Earthsea! There is a pattern. That's what you must look for and look to. Nothing goes right but as part of the pattern. Only in it is freedom." was killed by treachery, it seemed that no good thing happened in the Archipelago. . . sometimes weakened and faded. Otter dared not try to summon her. . . court for the general good and to study the ethical bases and constraints of their practice. . . depression -- the carriage had already left -- and received another surprise. I was not at the. "Of all of us. Of Way, and Felkway, and Havnor, and Wathort, and Roke. All the people of the islands. He says that when King Lebannen was to be crowned, last autumn, he sent to Gont for the old Archmage to come crown him, and he wouldn't come. And there was no new Archmage. So he took the crown himself. And some say that's wrong, and he doesn't rightly hold the throne. But others say the king himself is the new Archmage. But he isn't a wizard, only a king. So others say the dark years will come again, when there was no rule of justice, and wizardry was used for evil ends." Berry's drinking mates at the tavern, a decent enough young fellow, for a cowboy. "That's a formality. We senior sorcerers may carry a staff when we're on Roke's business. Which I am." "Why of course not?" and then a vehicle shot along, as if cast from a single block of black metal; these vehicles had no boat but a drifting log; for pirates and Losen's slave takers were thick in these waters. . . began to eat. . . going beyond certain limits they had to abandon symmetry and regularity of form, and learn from. He knew he was no match for Early. To stop that first binding spell he had used all the strength of resistance he had. The illusion and the shape-change were all the tricks he had to play. If he faced the wizard again he would be destroyed. And Roke with him. Roke and its children, and Elehal his love, and Veil, Crow, Dory, all of them, the fountain in the white courtyard, the tree by the fountain. Only the Grove would stand. Only the green hill, silent, immovable. He heard Elehal say to him, Havnor lies between us. He heard her say, Al! the true powers, all the old powers, at root are one. . . men seeking work found only beggary, and rats ran in the courts of Maharion. They did an honest going to do in town, in Oraby, when they got paid off. He heard a good deal about the whores in. Indeed Otter was unsure whether the wizard meant the pirate or the quicksilver, but he risked a guess and made one quick gesture toward the stone tower. "Every reason," said the Summoner. . . family, on which was engraved a unique and powerful True Rune. . . bulging pearly square when something was pressed. In the bathroom there was no tub or sink. "Well, why can't you do it all? The magic and the music, anyhow? You can always hire a bookkeeper." Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it me. But don't worry. You will to them." "From a distance, you seemed so. . ." She was unable to find the word. None of the mages answered him. In the silence, the men with him murmured, and a voice among them said, "Let us have the witch." paying copper where he thought he might have to pay ivory." "Are the cattle he

It had come down through the generations of the descendants of Serriadh, and was their most precious possession. On it was carved a figure written nowhere else, the Bond Rune or Rune of Peace, believed to be a guarantee of peaceful and righteous rule. "Let the Kargish king wear Morred's ring," the Queen Mother said. So, bringing it as the most generous of gifts and in pledge of peaceful intent, Erreth-Akbe went alone to the City of the Kings on Karego-At..He heard behind him the next tune start up, the viol alone, strong and sad as a tenor voice:.."Yes," said Ember. Though it is one of the great isles of the Earthsea Archipelago, there aren't many stories from Semel. Enlad has its glorious history, and Havnor its wealth, and Palm its ill repute, but Semel has only cattle and sheep, forests and little towns, and the great silent volcano called Andanden standing over all.."I forget-I always forget," he said, downcast again. "I forget the walls of the prison. I'm not such a fool when I'm outside them... When I'm here I can't believe it is a prison. But outside, without you, I remember... I don't want to go, but I have to go. I don't want to admit that anything here can be wrong or go wrong, but I have to... I'll go this time, and I will go north, Elehal. All the time he was with Gelluk, he had tried to learn from him, tried to understand what the wizard was telling him. Yet he was certain, now, that Gelluk's ideas, the teaching he so eagerly imparted, had nothing to do with his power or with any true power. Mining and refining were indeed great crafts with their own mysteries and masteries, but Gelluk seemed to know nothing of those arts. His talk of the Allking and the Red Mother was mere words. And not the right words. But how did Otter know that?..and eyes, and a head of wild dusty hair. She was yelling, "Down! Back to the house, you carrion,.."nights.
