

A SIMPLE METHOD OF CASTING HOROSCOPES THE LANGUAGE OF THE STARS

Junior took one of the boxed guns, a 9-mm semiautomatic. Months would probably pass before she noticed the pistol missing from the back of her closet, and by then she wouldn't know who had taken it. Perhaps these two months of frustration had brought him to this: hair-trigger nerves, fevered imagination, and anticipation distilled into dread. By air from San Francisco south to Orange County Airport, then farther south along the coast by rental car, one week in the wake of Paul Damascus and his three charges, following directions provided by Paul, Tom Vanadium brought Wally Lipscomb to the Lampron house. The syphilitic-monkey comparison struck Tom Vanadium as bizarre, but it turned out to be a sober judgment based on experience. In his fifties, Sparky had worked as the chief of maintenance at a medical-research laboratory, where among other projects monkeys had been intentionally infected with syphilis and then observed over their life span. In the terminal stages, some of the primates engaged in such out? behavior that they had prepared Sparky for his eventual encounter with Enoch Cain. Drawing from a well of inspiration deeper than instinct, Junior knew that if ever he crossed paths with a man named Bartholomew, he must be prepared to deal with him as aggressively as he had dealt with Naomi. And without delay. By this time, Vinton had finished, commercials had run, and the number-two song had started: "Come See About Me," by the Supremes. interminably against the ignition plate before, at last, he was able to insert it. "Should be a boy, because then you'll always have a man around the house." In the first two weeks, when she wasn't on pie caravans, Agnes received guests in numbers that taxed her. But there were so many people she wanted to see one last time. She fought hard, giving the disease all the what-for that she could, and she held fast to hope, but she received the visitors nonetheless, just in case. That was another thing. Junior hadn't gotten his noon meal, because the spirit of Vanadium had nearly caught up with him when he'd been browsing for tie chains and silk pocket squares before lunch. Then he missed dinner, as well, because he had to maintain surveillance on Celestina when she didn't go straight home from the gallery. He was hungry. He was starving. This, too, she had done to him. The bitch. Recently, Wally administered to Angel a set of apperception tests for three-year-olds, and the results indicated that she might not ever be a math whiz or a verbal gymnast, but that she might be highly talented in other ways. Her appreciation of color, her innate understanding of the derivation of secondary hues from the primary colors, her sense of spatial relationships, and her recognition of basic geometric forms regardless of the angle at which they were presented were all far beyond what was exhibited by other kids her age. Wally said she was visually, rather than verbally, gifted, that she would undoubtedly exhibit increasing precociousness in matters artistic, that she might follow Celestina's career path, and that she might even prove to be a prodigy. His enjoyment of the art was diminished by these associations, and as Junior turned away from Industrial Woman, his attention was suddenly captured by the quarters. Three lay on the floor at her gear wheel-and-meat-cleaver feet. They had not been here earlier. On second thought-no. If Seraphim had told anyone she'd been raped, the police would have been at Junior's doorstep in minutes, with a warrant for his arrest. No matter that they would have no proof. In this age of high sympathy for the previously oppressed, the word of a teenage Negro girl would have greater weight than Junior's clean record, fine reputation, and heartfelt denials. Junior actually raised his trembling left hand to his ear, expecting to find the quarter tucked in the auditory canal, held between the tragus and the antitragus, waiting to be plucked with a flourish. Munching an Almond Joy, Junior returned to the phone book, with no choice but to find Bartholomew the hard way. "My God," Junior said, pretending that his befuddlement had faded and that his mind had just now clarified, "you think Naomi was murdered, don't you?" Focus, Caesar Zedd teaches, is the sole quality that separates millionaires from the flea-ridden, sore-pocked, urine-soaked winos who live in cardboard boxes and discuss vintages of Ripple with their pet rats. Millionaires have it, winos don't. Likewise, nothing but the ability to focus separates an Olympic athlete from a cripple who lost his legs in a car wreck. The athlete has focus, and the cripple doesn't. After all, Zedd notes, if the cripple had it, he would have been a better driver, an Olympic athlete, and a millionaire. THIS IS THE FIRST PAGE of the Book of the Dark, written some six hundred years ago in Berila, on Enlad. "Yes?" the silver-haired eminence replied, wrinkling his nose as though he suspected that this customer would ask if the display pedestal was included in the price. Junior found the acclaim gratifying, but the widespread use of his photograph was a high price to pay even for the recognition of his contribution to art. Fortunately, with his bald head and pocked face, he no longer resembled the Enoch Cain for whom the authorities were searching. And they believed that the bandages on his face, at the church, had been merely an exotic disguise. One psychologist even speculated that the bandages had been an expression of the guilt and shame he felt on a subconscious level. Yeah, right. For the first time in many months, Barty didn't want to sleep in the dark. They left the door of the room open, admitting some of the fluorescent glow from the hallway. Maria Elena Gonzalez-no longer a seamstress in a dry-cleaners, but proprietor of Elena's Fashions, a small dress shop one block off the town square-joined Agnes, Barty, Edom, and Jacob on Christmas. In November, Edom asked Maria Gonzalez to dinner and a movie. Although he was only six years older than Maria, both agreed that this was a date between friends, not really a boy-girl thing. "I know how to build boats, how to sail boats." "The quarter in the sandwich," Nolly said, because that was the first stunt that Simon Magusson had paid him to perform. With everyone in the diner now aware of Junior, with every head turned toward him and with every wary eye tracking him, he dropped the bun cap and the mustard dispenser on the floor. Barging through the swinging gate at the end of the lunch counter, he entered the narrow work area behind it. Oregon State Police might find at least one reason to be suspicious of the tragic scenario that he was creating. He didn't know much about the technology that police might employ at a crime scene, and he knew even less about forensic pathology. He was just doing the best job he could. "All under here's worked out long since" Licky said. And Otter had begun to be

aware of the strange country under his feet: empty shafts and rooms of dark air in the dark earth, a vertical labyrinth, the deepest pits filled with unmoving water. "Never was much silver, and the watermetal's long gone. Listen, young'un, do you even know what cinnabar is?" "There's no clear evidence of birth defects, but a couple tests reveal some worrisome anomalies. We'll know when we see the child." He liked her face, too. She wore no makeup, and pulled her brown hair back in a bun. Some might say she was mousy, but the only things mousy that Nolly saw about her were a piquant tilt to her nose and a certain cuteness..He knew for a fact that Seraphim had died in childbirth. He had seen the gathering of Negroes at her funeral in the cemetery, the day of Naomi's burial. He had heard Max Bellini's message on the maniac cop's Ansaphone..Now, if Victoria reported to Vanadium that Junior had shown up at her door with a red rose and a bottle of Merlot and with romance on his mind, the demented detective would be on his ass again for sure. Vanadium might think that the nurse had misinterpreted the business with the ice spoon, but the intent in this instance would be unmistakable, and the crusading cop-the holy fool-would never give up..After a while, he dared to crack his eyelids. Pressing against his eyes was a blackness as smooth and as unrelenting as any known by a blind man. Not even a ghost of light haunted the night beyond the window, and the slats of the venetian blind were as hidden from view as the meatless ribs under Death's voluminous black robe.. "I suppose anyone could fill some empty gelatin capsules with the syrup," said Parkhurst. "But-" "Roll your own, so to speak. Then he could palm a few of them, swallow 'em without water, and the reaction would be delayed maybe." "You're heaven-sent," Grace assured Paul at breakfast Saturday morning. "With all your stories, you lifted our hearts when we most needed to be lifted." Clearly, she had learned nothing from her reading. No sincere and thoughtful student of Zedd would be as sorely lacking in self-control as Frieda Bliss.. "I was twenty-three. At St. Anselmo's I was the prefect of one dormitory floor. The floor on which all the murders occurred. After that ... I decided maybe I could better protect the innocent if I were a cop. For a while, the law gave me more to hold on to than faith did." Tom proceeded, "is that an infinite number of realities exist, other worlds parallel to ours, which we can't see. For example ... worlds in which, because of the specific decisions and actions of certain people on both sides, Germany won the last great war. And other worlds in which the Union lost the Civil War. And worlds in which a nuclear war has already been fought between the U.S. and Soviets." Barty read aloud as Agnes drove, because she'd enjoyed the novel only from page 104. He wanted to share with her the exploits of Jim and Frank and their Martian companion, Willis..He remembered the collection of Caesar Zedd self-help drivel that had occupied a place of honor in the wife killer's former home in Spruce Hills. Cain owned a hardcover and a paperback of each of Zedd's works. The more expensive editions had been pristine, as though they were handled only with gloves; but the text in the paperbacks had been heavily underlined, and the corners of numerous pages had been bent to mark favorite passages.. "What aren't you telling us?" her mother pressed, intuiting the existence of a larger story, if not the amazing nature of it..Wishing he had left the gauze wrappings on his face, but afraid that the airwaves might already be carrying news of the bandaged man who had killed a minister in Spruce Hills, Junior abandoned the Dodge and hurriedly walked back to the private-service terminal, where the pilot from Sacramento waited. At the sight of his passenger, the pilot blanched and said, Allergic reaction to WHAT? And Junior said, Camellias, because Sacramento was the Camellia Capital of the World, and all that he wanted was to get back there, where he'd left his new Ford van and his Sklents and his Zedd collection and everything he needed to live in the future. The pilot couldn't conceal his intense revulsion, and Junior knew that he would have been stranded if he hadn't paid the round-trip charter fare in advance.. "I don't ... don't understand." Blinking sleepily, pretending to be still thickheaded from tranquilizers and whatever other drugs they were dripping into his veins, Junior was pleased by the note of perplexity in his hoarse voice, although he knew that even an Oscar-caliber performance would not win over this critic..In the gallery windows, eight of the nine sculptures were so disturbing that many passersby, catching sight of them, blanched and looked away and hurried on. Not everyone can be a connoisseur.. "That's correct," Parkhurst said. "Probably one or more small blood vessels ruptured from the extreme violence of the emesis." For the first few bites of crab in a light cornmeal crust, Nolly suspended their conversation. Bliss.. "Does my dad like Christmas?" Barty asked, sitting on the grave grass in front of the headstone..Scamp had fabulous legs, and her bralessness left no doubts about the lusciousness and authenticity of her chest, but after an hour of conversation about something or other, before suggesting that they leave together, Junior maneuvered her into a reasonably private corner and discreetly put a hand up her skirt, just to confirm that his gender suspicions were correct..Frustrated on many levels, Junior hurried to a parking lot one block from the detective's office, where he'd left his new Chevrolet Impala convertible. This Chinese-red machine was even more beautiful when wet with rain than it had looked polished and pristine on the showroom floor.. "Did he say I'd met him?" Jacob asked, squinting past Edom toward the bright sunlight at the open door..Edom complied, and in the arc of red Bicycle patterns, one card revealed too much white comer, because it was the only one face up..By the time he went to bed Saturday night, the cards that had been only that morning were showing signs of wear..Find the father, kill the son. In just nine days, Junior bedded four beautiful women: one on Christmas Eve, the next on Christmas Night, the third on New Year's Eve, and the fourth on New Year's Day. For the first time in his life-and on all four occasions-his joy in the act was less than complete..Nolly, Kathleen, and Sparky had prepared him for Industrial Woman, but when the flashlight beam flared off her fork-and-fan-blade face, Vanadium twitched in fright. Without fully realizing what he was doing, he crossed himself..Shaking with a fear that had nothing to do with Junior Cain and flying bullets, or even with memories of Josef Krepp and his vile necklace, Tom Vanadium closed the sketch pad and put it on the window seat. He opened the window, and in rushed the susurrant of breeze-stirred oak leaves..As "It is." From a desk drawer, Nolly withdrew an envelope and put it on top of the offered cash. "I'm returning five hundred of your thousand retainer." He pushed everything back toward Junior..Indeed, she found it difficult to talk with

her son in their usual easy way. She heard a stiffness in her voice that she knew would sooner or later be apparent to him. Besides, Junior was reluctant to kill Vanadium, for real this time, and risk discovering- that the detective's filthy-scabby-monkey spirit would in fact prove to be a relentless haunting presence that gave him no peace. Her brothers' solemnity irritated Agnes. They appeared to be taking this reading seriously, as though it were far more than just a little after-dinner entertainment. "I'd give anything if it hadn't happened," he said earnestly. And now a tortured note wrung wet emotion from his voice "I only wish it had been me who died." Edom and Jacob arrived, dinner was served, and while the food was wonderful, the conversation was better-even though the twins occasionally shared their vast knowledge of train wrecks and deadly volcanic eruptions. Paul didn't contribute much to the talk, because he preferred to bask in it. If he hadn't known any of these people, if he had walked into the room while they were in the middle of dinner, he would have thought they were family, because the warmth and the intimacy-and in the twins' case, the eccentricity-of the conversation were not what he expected of such newly made friends. There was no pretense, no falsity, and no avoidance of any awkward subject, which meant there were sometimes tears, because the death of Reverend White was such a fresh wound in the hearts of those who loved him. But in the healing ways of women that remained mysterious to Paul even as he watched them do. On this chilly January night, no campers or fishermen had staked claims along the lake. Because the trees were far enough back to be lost in the night, the immediate shore and the pooled blackness that it encircled appeared as desolate as any landscape on a world without an atmosphere. Captivated by catastrophe, so lost in his book that he might as well have stepped magically inside of it and closed the covers after himself, Uncle Jacob didn't answer. Instead, trying not to let Barty see the depth of her concern, she told him to get his jacket from the front closet, and she got hers, and leaving the buttermilk-raisin pies unfinished, she drove him to the doctor's office, because he was her reason to breathe, the engine of her heart, her hope and joy, her everlasting bond to her lost husband. Dr. Joshua Nunn was only forty-eight, but he had appeared grandfatherly since Agnes had first gone to him as a patient after the death of her father, more than ten years ago. His hair turned pure white before he was thirty. Every day off, he either worked assiduously on his twenty-foot sportfisher, Hippocratic Boat, which he scraped and painted and polished and repaired with his own hands, or puttered around Bright Bay in it, fishing as though the fate of his soul depended on the size of his catch; consequently, he spent so much time in the salt air and sun that his perpetually tan face was well-wizened at the corners of his eyes and as appealingly creased as that of the best of grandfathers. Joshua applied the same diligence to the preservation of a round belly and a second chin that he brought to the maintenance of his boat, and considering his wire-rimmed eyeglasses and bow tie and suspenders and the elbow patches on his jacket, he seemed to have intentionally sculpted his physical appearance to put his patients at ease, as surely as he had selected his wardrobe for the same purpose. "This card to mean also is family love, and is love from many friends, not just to be kissy-kissy love," Maria elucidated. One problem: Nolly Wulfstan, Quasimodo without a hump, probably repaired to this convenient club after work, to down a few beers, because this was surely as close as he would ever get to a halfway attractive woman. The detective would think that he and Junior were here for the same reason-to gawk at nearly naked babes and store up enough images of bobbling breasts to get through the night-and he would not be able to comprehend that for Junior the attraction was the dance, the intellectual thrill of experiencing a new cultural phenomenon. Using a false name, claiming that he was an adoptee, Junior made inquiries with several child-placement organizations, as well as with state and federal agencies. He discovered that Wulfstan's story was true: Adoption records were sealed by law for the protection of the birth parents, and getting at them was all but impossible. He had never expressed opposition to starting a family. She'd had no reason to fear telling him that she was carrying their child. To have the best chance of becoming a master mechanic, any young apprentice needs a mentor. The art of total card control cannot be learned entirely from books and experimentation. "I'm gifted to a small extent, and it's an unusual gift," he admitted. "Nothing world-shaking. More than anything, really, it's a special perception I've been given. Angel's gift seems to be different from mine but related. In fifty years, she's the first I've ever met who's somewhat like me. I'm still shaking inside from the shock of finding her. But please, let's save this for Bright Beach and a better evening. You go down there tomorrow with Paul, okay? I'll stay here to look after Wally. When he's able to travel, I'll bring him with me. I know you'll want him to hear what I have to say, too. Is it a deal?" NOLLY WULFSTAN, private detective, had the teeth of a god and a face so unfortunate that it argued convincingly against the existence of a benign deity. "They've gone to bed. They're tired," Wally told her as he put the car in gear and released the hand brake. "Aren't you?" He no longer had any reason to follow an exercise regimen. For twenty-three years, he'd needed to maintain good health in order to meet his responsibilities, but all the responsibilities that mattered to him had been lifted from his shoulders. He'd been a godsend to Celestina, because his love of children and a new sense of fun that he'd discovered in himself were showered on Angel. He was Uncle Wally. Waddling Wally, Wobbly Wally, Wally Walrus, Wally Werewolf. Wally Wit Duh Funny Accents. Wiggle Eared Wally. Whistling Wally. Wrangler Wally. He was Good Golly Wally the Friend of All Polliwogs. Angel adored him, adored him, and he could have loved her no more if she had been one of the sons that he had lost. Overwhelmed by her classes, her waitressing job, her painting, Celestina could always count on Wally to step in to share the child rearing. He wasn't merely Angel's honorary uncle, but her father in all senses except the legal and biological; he wasn't just her doctor, but a guardian angel who fretted over her mildest fever and worried about all the ways the world could wound a child. If Junior was patient, he could slip in there, find Bartholomew, kill the boy in bed, whack Ichabod second, and still have a chance to make love to Celestina. Out of the car, along the sidewalk, up the steps, from Mercedes to mist to murder. Pistol in his right hand, lock-release gun in his left, three knives in sheaths strapped to his body. Having been a volunteer instructor of English to twenty adult students over the years, having taught

Maria Elena Gonzalez to speak impeccable English without a significant accent, Agnes was little needed as a teacher by her son. Even more than other children, he asked why with numbing regularity, why this and why that, but never the same question twice; and as often as not, he already knew the answer that he sought from her and was only confirming the accuracy of his deduction. He was such an effective autodidact, he schooled himself better than any college of professors that could have been assigned to him. Walking away, he was aware of the many faces at the windows, all as stupid as the faces of cud-chewing cows. He had given them something to talk about when they returned from lunch to their shops and offices. He'd reduced himself to an object of amusement for strangers, had briefly become one of the city's army of eccentrics. "It's not scary," said Mary. "I just step into another place for a little, and then back. It's just like going from one room to the next. I can't get stuck over there or anything." She looked at Barty. "You know how it is, Dad." He was, admittedly, surprised that Nurse Bressler was strongly compelled to come on to him even though she had read his patient file and knew that he'd recently been a veritable geyser of noxious spew, that during the violent seizure in the ambulance, he had also lost control of bladder and bowels, and that he might at any moment suffer an explosive relapse. This was a remarkable testament to the animal lust he inspired even without trying, to the powerful male magnetism that was as much a part of him as his thick blond hair. So these are reports of my explorations and discoveries: tales from Earthsea for those who have liked or think they might like the place, and who are willing to accept these hypotheses: things change: authors and wizards are not always to be trusted: nobody can explain a dragon. Many nights, his sleep wasn't half as restful as he would have wished, for he often dreamed of walking in a wasteland. Sometimes, desert salt flats stretched in all directions, with here and there a monument of weather-gnarled rock, all baking under a merciless sun. Sometimes, the salt was snow, and the monuments of rock were ridges of ice, revealed in the hard glare of a cold sun. Regardless of the landscape, he walked slowly, though he had the desire and the energy to proceed faster. His frustration built until it was so intolerable that he woke, kicking in the tangled sheets, restless and edgy. Some information she'd withheld from him: that the cancer might already have spread, that he might still die even after his eyes were removed-and that if it hadn't yet spread, it might soon do so. Barty approached stair climbing as a mathematical problem, calculating the precise movement of each leg and placement of each foot necessary to successfully negotiate the obstacle. He proceeded less slowly on the next three steps than he had on the first three, and thereafter he ascended with growing confidence, pumping his legs with machinelike precision. In spite of his dumpy appearance-and especially in the dark, where appearances didn't count-Vanadium had the aura of a mystic. Although Junior didn't believe in mystics or in the various unearthly powers they claimed to possess, he knew that mystics who believed in themselves were exceptionally dangerous people. Having shuffled all four stacks of cards, Jacob cut two decks and shuffled the halves together, controlling them exactly as he had controlled them on Friday evening. Then the other two halves. In the bedroom once more, before poring through the contents of the nightstand drawers, the dresser drawers, and the closet, he looked in the adjacent bathroom, switched on the light because there was no window-and found Bartholomew on a wall, slashed and punctured, disfigured by hundreds of wounds. Wally parked the Buick at the curb in front of the house in which he lived, and when Celestina slid across the car seat to the passenger's door, he said, "No, wait here. I'll fetch Angel and drive the two of you home." The deejay announced song number four for the week: the Beatles' "She's a Woman." The Fab Four filled the Studebaker with music. A stab of horror punctured Celestina as she failed to repress a mental image of a carnival-sideshow monster, half dragon and half insect, coiled in her sister's womb. She hated the rapist's child but was appalled by her hatred, for the baby was blameless. She approached the kitchen table and swept her hand across it, to emphasize its emptiness. The family didn't exist in anticipation of developments with Barty and Angel, didn't put the pair at the center of their world. Instead, they did the good work, shared the satisfactions that came daily with being part of Pie Lady Services, and got on with life. In January '65, while Vanadium had been in the first month of what proved to be an eight-month coma, Enoch Cain had sought Nolly's assistance in a search for Seraphim's newborn child. When Vanadium had learned about this from Magusson long after the event, he assumed that Cain had heard Max Bellini's message on his answering machine, made the connection with Seraphim's death in an "accident" in San Francisco, and set out to find the child because it was his. Fatherhood was the only imaginable reason for his interest in the baby. Nolly finally disturbed the quiet: "Well, sir ... you're quite a psychologist." After clicking off the kitchen lights, the hall light, and the light in the foyer, he pulled shut the front door, leaving the house dark and silent behind him. "We want the scary one, 'specially if it has spiders, Pixie Lee said squeakily but defiantly. At last: the humiliating backless gown, the precious drugs, even a pretty nurse who seemed to like him, and then oblivion. Because his pinching fingers deformed the shape of her mouth, her voice was compressed: "I see all the ways you are." The following day, Wednesday, December 27, his mother drove him to the library, where he checked out two Heinlein titles recommended by the librarian: Red Planet and The Rolling Stones. Judging by his excitement, on the way home in the car, his response to previous mystery-novel series had been a pleasant courtship, whereas this was desperate, undying love. The dining room again, but this time he remembered how he had gotten here: by way of the living room. Hard experience had taught him, however, that killing someone he knew, while occasionally necessary, didn't release stress. Or if it did briefly release stress, then unforeseen consequences always contributed to even worse future stress. Edom marveled at Agnes's ability to rise above the past and to transcend so many years of torment. She was able to see the house as simple shelter, whereas to her brothers, it was-and always would be-the place in which their spirits had been shattered. Even living within sight of it would have been out of the question if they had been employed, with options. Even when he saw no cop cadaver, no ghoulish grin, no two-bit eyes, Junior was not immediately relieved. Warily, he circled the car, expecting to find the detective crouching and poised to spring. "I mean," said Dr. Lipscomb, "that I'm selling my practice and putting an end to my

medical career. I wanted you to know." Adoption records would have been kept as secret from Celestina as from everyone else. But perhaps she knew something about the fate of her sister's bastard son that Junior didn't know, a small detail that would seem insignificant to her but that might put him on the right trail at last.. "It seems it was his own idea, your majesty."
