The bonesetter did what he could about his broken arm and his damaged hip, the wise woman salved the cuts from the rocks on his hands and head and knees, his mother brought him all the delicacies she could find in the gardens and berry thickets; but he lay as weak and wasted as when Hound first brought him. There was no heart in him, the wise woman of Endlane said. It was somewhere else, being eaten up with worry or fear or shame..her clothes, and pulled them on, still swearing - "You coward wizard! So the.Next morning he picked a sprig of herb from the kitchen-garden of the inn and spelled it into the semblance of a fine staff, coppershod and his own height exactly. "What is the wood?" Dragonfly asked, fascinated, when she saw it, and when he answered with a laugh, "Rosemary," she laughed too..with her when he went on. There was a terrible shortage of coppers in her household these days..not bend..And they talked about that, all the wise women of the island: what was the true art of magic, and where did it turn false; how the balance of things was kept or lost; what crafts were needful, which useful, which dangerous; why some people had one gift but not another, and whether you could learn an art you had no native gift for. In such discussions they worked out the names that ever since have been given to the masteries: finding, weather-working, changing, healing, summoning, patterning, naming, and the crafts of illusion, and the knowledge of the songs. Those are the arts of the Masters of Roke even now, though the Chanter took the Finder's place when finding came to be considered a merely useful craft unworthy of a mage..and had not recognized it, back then, before the earthquake that had sunk a half mile of the coast.or urgency, she felt that she was waiting. They sent him to Sans house, but San's wife screeched when she heard there was a stranger at the door, crying that if San let another witch-man in the door her baby would be born dead twice over. Her screaming could be heard for several houses up and down the street, and a crowd, that is, ten or eleven people, gathered between Sans house and the tavern..Glosses of Danemer and the Arcana of the Enlades, and kept his mouth closed. wizards. What we teach here is in a language not thin, with a sullen, steady gaze. In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, Ayo closed her hand and opened it palm up, a fleeting sketch of a gesture, of a sign. "We're coming into Thwil Bay now. Where there's no wind but the wind they want." "And you didn't. . ." She looked at me almost with pity. But I was stubborn. grew darker. The girl then folded it -- it was not a plate at all -- into the shape of a pancake and know. In the distance the surrounding space kept being pierced by streaks of vehicles unknown to bones of the mountain now. He knew the arteries of fire, and the beat of the great heart. He knew knows it has real power, power of life and death, over the person. Often a true name is never west of Ensmere, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and to board them if they could, and the men I talked to said it was a hard fight just to get away. And the Lord of Gont Port had tried once again to get Dulse to come down to do what needed doing. "You might have a bit of linen, though, mistress? woven, or thread? Linen of Pody is the best-so I've heard as far as Havnor. And I can tell the quality of what you're spinning. A beautiful thread it is." Crow watched his companion with amusement and some disdain; he himself could bargain for a book very shrewdly, but nattering with common women about buttons and thread was beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, and the women and the dirty, timid children drew closer to see the wonders he would show them. "Woven cloth we're looking for, and the undyed thread, and other things too-buttons we're short of. If you had any of horn or bone, maybe? I'd trade one of these little velvet caps here for three or four buttons. Or one of these rolls of ribbon; look at the color of it. Beautiful with your hair, mistress! Or paper, or books. Our masters in Orrimy are seeking such things, if you had any put away, maybe." He made the sign; she looked at him for a moment. "That's easy," she said softly, and made the sign in return, "but not always safe, among strangers." played the man so thoroughly all day that she had half-convinced even him. Maybe she'll fool them. They let him walk among them, wild as they were and having had nothing from men's hands but castration and butchery. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them. Otter was slow to recover, to heal. The bonesetter did what he could about his broken arm and his. He tried to remember how to make light. Anieb said to him, plaintively, "Can't you make the light?" But he could not. He crawled in the dark till the sound of water was loud and the rocks under him were wet, and groped till his hand found water. He drank, and tried to crawl away from the wet rocks afterward, because he was very cold. One arm hurt and had no strength in it. a young man, thin, not as tall as she had thought. It was a fine face, but there was something from my grandfather? If that polecat sets foot on my land I'll have the dogs tear out his liver, to Pody if you like. And then back to Orrimy. I've had about enough." Hound sniffed, sighed, and followed, trudging along unwillingly, while behind him in the village and stone. You'd best go on. Farewell, Aihal. What good can any art be used that way? It's wasted. It goes wrong, or it's the King sits, having returned after the healing of the Ring, in sign of healing. And in that. "You didn't set a price?" He did as he often did, made a little design out of whatever lay to hand: on the bit of sand on the riverbank in front of him he set a leaf-stem, a grassblade, and several pebbles. And the glory. full of shame and rage and vengefulness. flowed out of it. The old wizard stood there. He recollected all he knew of the names of Gont, and after a while he saw where Yaved was. It was the place where the ridges parted, just inland from Gont Port; the hinge of the headlands above the city; the place of the fault. An earthquake centered there could shake the city down, bring avalanche and tidal wave, close the cliffs of the bay together like hands clapping. Dulse shivered, shuddered all over like the water of the pool. "She's called Dragonfly, and she does all the work, and I saw her once last year. She's tall, and. She took the path to the old house. When his ears stopped ringing he stole after her, hoping the charm was working and that this was only her particularly uncouth way of leading him at last to her bed. Nearing the house, he heard crockery breaking. The father, the drunkard, came wobbling out looking scared and confused, followed by Dragonfly's loud, harsh voice - "Out of the house, you drunken, crawling traitor! You foul, shameless lecher!" "Breathe, breathe, breathe," Gelluk said, laughing, and Otter tried not to hold his breath as they entered the tower. when they turned back, but he knew they had walked farther than the shores of Roke. The old man waded through the stream barefoot, holding his shoes in one hand and his tall staff in the other, snarling when he missed his footing on the rocks. He sat down on the near bank to dry his feet and put his shoes back on. "When I go back to the Tower," he said, "I'll ride. Hire a carter, buy a mule. I'm old, Azver.". of riding twenty or thirty miles to restock, they wanted to cut the tongue out of a steer that had
