The lamps were low, the jailor was huddled asleep in a corner on a piece of grey canvas, but Amos went immediately to the bars and looked through..blankets rolled the jailor, bound and gagged and dressed in the colorful costume of the Prince of the Far.how well you handled the forces of Zorph. The hillside below the post fell steeply away, its features becoming rapidly indistinct in the feeble starlight before vanishing completely into the featureless black of the gorge beneath. There was no moon, and the sky was clear as crystal. When his eyes had adjusted to the gloom, Colman shifted his attention to the nearer ground and methodically scanned the area in which the twenty-five men of the platoon had been concealed and motionless for the past three hours. If they had undercut their foxholes and weapons pits the way he had shown them and made proper use of the rocks and vegetation, they would stand a good chance of escaping detection. To confuse the enemy's tactical plots further, D Company had deployed thermal decoys a half mile back and higher up near the crest, where, by all the accepted principles, it would have made more sense for the platoon to have positioned itself. Auto timed to turn on and off in a random sequence to simulate movement, the decoys had been drawing sporadic fire for much of the night while the platoon had drawn none, which seemed to say something about the value of "the book" as rewritten by Staff Sergeant Colman. "There are two ways to do anything," he told the recruits. "The Army way and the wrong way. There isn't any other way. So when I tell you to do something the Army way, what does it mean?".When the blowout started, Lang had snapped on her helmet quickly. Then she had struggled against. "Wait a moment," Song broke in.
