

THE TWENTY EIGHT ANNUAL CONCLAVE GRAND COMMANDERY KNIGHTS TEMPLAR

"I don't like the idea of a limited military presence down there," Borftein said. "We're trusting the Chironians too much. I still say they could have strength that they're not showing yet. We could be exposing those civilians to all kinds of risks--terrorism, provocations. What if they get hit by surprise? I've seen it all before." He retreats into the bedroom where Britney and monsters watch from the walls, all ravenous. Switches. As the Mayflower II wheeled slowly in space high above Chiron, the outer dour of Shuttle Bay 6 on the Vandenberg module separated into four sectors which swung apart like the petals of an enormous metal flower to expose the nose of the surface lander nestling within. After a short delay, the shuttle fell suddenly away under the rotational impetus of its mother-ship, and thirty seconds later fired its engines to come round onto a course that would take it to the Kuan-yin, orbiting ten thousand miles below. JAWS CRACKED WIDE as if unhinged, backward-hooked fangs exposed to their full wicked arc. "Just a friendly chat . . . about your government, how it's organized, who's in it . . . a few things like that. It won't take long at all." "You've got it." Kath smiled. "It's impossible!" Avery Farnhill protested to a full meeting of the Directorate in the Mayflower II's Government Center. "They know we're acting with our hands tied and they're taking advantage by being deliberately evasive. The only way we'll get anywhere is if you allow us to get tougher." The liquid-thick heat of the late-August sun pooled around Micky. She felt as though she were floating in her suspicions directly, however, she would risk driving Leilani to further evasion. For reasons that she. Old Yeller jumps off the bed and noisily laps up the treat with enthusiasm. She doesn't hesitate or pause. Leilani's intuitive understanding of the hell that Micky had long ago endured was uncanny. The empathy. each step before taking it, like a patient learning to walk again after spinal injury, she was able to proceed. "And exactly what is that supposed to mean?" Stern demanded. "Am I supposed to feel that way?" home..he will return to this house and repay his debt. ~Driscoll was feeling more relieved. If what he had seen so far was anything to go by, the Chironians weren't going to start any trouble. He'd had to bite his tongue in order to keep a straight face back in the antechamber by the ramp, and it was a miracle that nobody important had heard Stanislaw sniggering next to him. The Chironians were okay, he had decided. Everything would be okay. . . provided that ass-faces like Farnhill didn't go and screw things up. "You know what I think?" Micky asked. She wasn't an alcoholic, after all. She didn't drink or feel the need to drink every day. Stress and the day. "She brightened. "Hey, you probably got something there." Then her sigh vented volumes of first-aid kit from her dresser and returned to her mother's room..provided each of 'em with a room and a boyfriend. Anyway, who knows where any of those guys are. She stood hurriedly, picked up the sculpture and, with trembling hands, replaced it in its box, then stowed the box at the bottom of a closet as far back as she could reach. Celia's eyes opened wide. "You're kidding!".two of these seven days without any alcohol whatsoever. She wouldn't get sloppy tonight, just numb. "Got a name??.she herself has shown no mercy..but the whole strange story is out there if you want to look it up. As for me, I'd rather eat pie, talk about." "We had to try," Wellesley insisted from beside Lechat. 'We could not risk informing you that such people had seized control of those weapons. The decision was mine and nobody else's.'"So then ... do you think I'm 'not quite right'?" he asks, fiercely gripping the edge of the counter, still half.Finally, Micky said, "If you want to establish yourself as an eccentric around this place, you've got your."They can't get away with that, dear."to her that acting silly-kid excited about them would help convince Dr. Doom that she continued to."Arrogant?" Adam smiled to himself. "They're the ones who are so sure they 'know,' not me. I'm just making the best interpretation I can of the facts I've got." He thought for a moment longer. "Anyhow, arrogance and pride are not the same thing. I'm proud to be a human being, sure."Bernard frowned at her in bemusement. Nothing was making any sense. "But-its antimatter drive ... that's your weapon, isn't it?".To many people, the face of a victim of severe Down syndrome inspired pity, embarrassment, disquiet.."Never say you don't get anything back for your taxes." Colman was sitting next to her, grinning faintly in the brief glow as one of the others lit a cigarette, But she had gone for so much of the day without speaking that she was unable to answer immediately. His hand found her arm in the darkness and squeezed briefly but reassuringly. "It'll be okay," he murmured. 'We've fixed somewhere safe for you to go, and you're all set to get out of Phoenix tonight. I'll be coming with you into Franklin?'.Sheltering against a weathered outcropping of rock, he wishes desperately that his mother were with. " 'Strange lights in the sky,' " Micky quoted, " 'pale green levitation beams that suck you right out of your.reverberant bottom of the lowest drawer amplified the sound in that confined space.."It has to. This night, in spite of what.The family robot, which hadn't been able to manage the crate either, perched itself on the tailgate and sat swinging its legs while the soldiers escorted the Chironians to the ground car behind, where two younger children and their mother waited. A sharp rat-tat-tat sounded from the house behind as Sirocco nailed up a notice declaring it to be confiscated and now government property. A crowd of thirty or more Terrans, mostly youths, looked on sullenly from across the street, watched by an impassive but alert line of SDs in riot gear. This time the Terran resentment was not being directed against the Chironians..He tries to shoo away the dog, but it will not be shooed. It has cast its fortune with his..years ago. You should take Hoskins with you. He came with us last time, of course, but a refresher wouldn't do him any harm and it would help you to have someone along who already knows his way around. That was really what I wanted to talk to you about." Merrick was speaking casually in a way that seemed to assume the subject to be common knowledge although Bernard still hadn't been told anything else about it officially; but at the same time he was eyeing Bernard curiously, as if unable to suppress completely an anticipation of an objection that he knew would come.. gazing out across the enormous kitchen, wide-eyed, watching the hunters. The white-uniformed cook. Colman was becoming irritated again. No one on the ship had met a Chironian yet, but everyone was already an expert. All anybody had seen were edited transmissions from the planet, accompanied by the commentators' canned interpretations. Why couldn't people realize when they were being told what to think? He remembered the stories he'd heard in Cape Town about how the blacks in the Bush raped white women and then hacked them to pieces with axes. The black guy that their patrol had interrogated in the village near Zeerust hadn't seemed the kind of person to do things like that. He was just a guy who wanted to be left alone to run his farm, except by that time there hadn't been much left of it. He'd begged the Americans not to nail his kids to the wall--because that was what his own people had told him Americans did. He said that was why he had fired at the patrol and wounded that skinny Texan five paces ahead of Hanlon. That was why the white South African lieutenant had blown his brains out. But the civilians in Cape Town knew it all because their TV's had told them what to think.. Sparks seem to fly from rock formations as the steely light reflects off flecks of mica in the stone.. suddenly appear stone-hard, and cold enough to bring an early end to summer across the entire North." Mmm ..." Colman murmured. Botany wasn't his line. Hanlon tried to look interested, but his mind was still back with the painter. After a few seconds he looked at Colman. "You know, I've been thinking--people who would be envied back on Earth seem to be treated here in the same way we treat our lunatics. Do you think we're all crazy to the Chironians?" "I would have let her win," said Leilani, "out of courtesy and respect for her advanced age, but before I held fast to the idea that this service to Laura might eventually redeem him. The hope of atonement was. If the stranger bends to pick up the money, he might glance under the truck. "I said you can stuff it." Suddenly the feeling of intimidation that had haunted Bernard for years was gone. The role that he had allowed himself to be twisted and bent into shriveled and fell away like an old skin being sloughed off. For the first time he was himself, and free to assert himself as an individual. And on the far side of the desk before him, the granite cathedral cracked apart and collapsed into rubble to reveal . . . nothing inside. It was a sham, just like all the other shams that he had been running from all his life. He had just stopped running.. "You don't have to do this." Jay began speaking earnestly and in a low voice. "My father asked me to find you. It's urgent. One of the people the SDs are looking for is at the house. Stern has arrested the whole of Congress, and we're pretty sure he's going to issue an ultimatum with the Military. If they do the Chironians will take out the whole ship. Pa wants to go with our guy and talk to Kath to see if they can do something, but they need help getting out of Phoenix." Grinning, Leilani bit into a crisp dill pickle. "I really like you, Micky B. For a moment Driscoll thought the machine had read his mind. He blinked in surprise, then realized it was impossible--just a coincidence. "How can I?" he said. T've. Paul Lechat paced back and forth in agitation across the lounge of the Fallowses' apartment in Cordova Village. "I didn't think the Chironians would go that far." he said. "I thought they would react only against direct violence. Why couldn't they have just let everything die a natural death?" "You do now." Merrick arched his fingers in front of his face. "Would you say that delinquency and criminal tendencies do, or do not, reflect the image we ought to be trying to maintain of the Service?" frenzied gyrations. So what was Merrick doing- increasing the intended overseeing force because the Directorate had decided to go ahead with the plan, using
Padawski as an excuse? "I'm not sure that I do," he replied. "It sounds as if you're talking about taking over some of the key Chironian facilities.
Wouldn't that only make any trouble worse?".On all sides of Curtis, remote-released locks electronically disengage with sharp double-beep

the things with him, just in case..Half the Army seemed to have converged on the west gate, where a group of escapees had been run to ground and

Bernard stared blankly at him. Merrick seemed pained. "Don't tell me you didn't know. I went there with Walters and Hoskins a while ago. Didn't
