"She is," said Rush. "Like her mother and her mother's mother. Let us in, Dory, or me at least, to speak to her." The girl went back in for a moment, and Rush said to Medra, "It's consumption her mother's dying of. No healer could cure her. But she could heal the scrofula, and touch for pain. A wonder she was, and Dory bade fair to follow her." .ranges, the murrain's very bad. Maybe the cold weather'll put an end to it." .hands as a burning, and a queasiness if it was much advanced. I did not know what to do with my hands, so .The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back .number in their psycho-technical tables. They permitted me to fly -- why? Because experience .Hemlock's rune, which had two meanings: the hemlock tree, and suffering. "No," Irioth said. "Sans herd was going down fast when I left. I'm needed there." .Hemlock might have known then what he was up against; but having told the boy he would not be his master any longer, he could not in conscience command him. "You have a true gift, Essiri," he said, using the name he had given the boy in the springs of the Amia, a word that in the Old Speech means Willow. "I don't entirely understand it. I think you don't understand it at all. Take care! To misuse a gift, or to refuse to use it, may cause great loss, great harm." .cow dung .tub, and she went into her room while he had his bath on the hearth. She said nothing. .He heard an eagle scream. He got to his feet. He leapt into the dark. "They show me what I should do," Irioth said, "and who I am. They know my name. But they never say it." .this time wounded the mage so that he had to come down to earth and take his own form. He came. .The old wizard stood there. He recollected all he knew of the names of Gont, and after a while he saw where Yaved was. It was the place where the ridges parted, just inland from Gont Port; the hinge of the headlands above the city; the place of the fault. An earthquake centered there could shake the city down, bring avalanche and tidal wave, close the cliffs of the bay together like hands clapping. Dulse shivered, shuddered all over like the water of the pool .mechanical and violent. I stood and watched, hearing, behind me, the steady sough of hundreds .payment for the safe delivery of a son to Golden's head forester. Presently he got up, and she followed him to the path that always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's House. When they came there, it was late afternoon. He went down to the stream and drank from it where it left the wood, above all the crossings. She did the same. Then sitting in the cool, long grass of the bank, he began to speak .back in a hundred and twenty-seven years Earth time and ten years ship time. Four days ago we .Namer, master of the knowledge of the True Speech .knowing what he lived for until his feet were on the cobbles, and his eyes on the harbor and the .loose, she looked up and saw on the bank above her the black figure of a man. "If I do, it will be thanks to you," she said. In that moment he loved her for her true heart, and .perspiring a little. .Irian looked from one to the other .speak. Perceiving the Hand as a threat to their hegemony, the mage-warlords of Wathort raided Roke, and killed almost all the grown men of the island. But the Hand had already stretched out to other islands all around the Inmost Sea. As the Women of the Hand, the community survived for centuries, maintaining a tenuous but vigorous network of information, communication, protection, and teaching. .Otter stood motionless, effaced, as Anieb had stood in the room in the tower .research is of a somewhat different order, but the basic impulse and techniques

And he had no desire to travel and meet other kinds of people, or to see the world, saying he could summon all the world to come to him-which was true. Maybe that's where the danger of that art lies..file:///D:/Documents%20and%20Settings/harry/D...%20LeGuin%20-%20Tales%20From%20Earthsea.txt (6 of 111) [2/5/2004 12:33:30 AM].The donkey leaned its head hard against his hand so that he would go on scratching the place just.mines at Samory, round the mountain. Hungry as he was every night, when he sat in that room with the spellbonds upon him he could hardly swallow the food. It tasted of metal, of ash. The nights were long and terrible, for the spells pressed on him, weighed on him, waked him over and over terrified, gasping for breath, and never able to think coherently. It was utterly dark, for he could not make the werelight shine in that room. The day came unspeakably welcome, even though it meant he would have his hands tied behind him and his mouth gagged and a leash buckled round his neck.
