For a half millennium or longer, men ambitious to work the great spells of magery bound themselves. Dulse paused. "He was my master. Would have been my friend, perhaps, if I'd stayed on Roke. Have. "Now, what is forbidden to the summoner, or any wizard, is to call a living spirit. We can call to them, yes. We can send to them a voice or a presentment, a seeming, of ourself. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. You can see why this must be. To summon a living man is to have entire power over him, body and mind. No one, no matter how strong or wise or great, can rightly own and use another. "Master," Medra said, afoot, "wake up. " "Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken harshly, and Diamond stiffened up a bit. "What brought you here, Azver?" the Namer asked. "I've often thought of asking you. A long, long way to come. And you have no wizards in the Kargish lands, I think. " "We'll have to see," said Alder, the next day, "if my beasts are cured. If they make it through the winter, see, we'll know your cures all took, that they're sound, like. Not that I doubt it, but fair's fair, right? You wouldn't ask me to pay you what I have in mind to pay you, would you now, if the cure didn't take and the beasts died after all. Avert the chance! But I wouldn't ask you to wait all that time unpaid, neither. So here's an advance, like, on what's to come, and all's square between us for now, right?" "Look at all the stuff you can do," she said. "We could find no trace of him. No doubt he changed himself to a bird or a fish when he left Roke, until he came to some other island. And a wizard can hide himself from all finding spells. We sent out inquiries, in the ways we have of doing so, but nothing and nobody replied. So we set off looking for him, the Summoner to the eastern isles and I to the west. For when I thought about this man, I had begun to see in my mind's eye a great mountain, a broken cone, with a long, green land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke, and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High Marsh. Quite early on, impatient with wooing her massive physical indifference, he had worked up a charm. They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal, turned away scowling. Then she touched his hand very lightly. When he stroked the sleek black flow of her hair she seemed only to endure his touch, and he stopped. When he tried to embrace her she was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It wasn't the first night, nor the first nights, they passed together that gave either of them much pleasure or ease. But they learned from each other, and came through shame and fear into passion. Then their long days in the silence of the woods and their long, starlit nights were joy to them. She was getting used to his strange face now and was able to read it. She thought that he looked sad. His way of speaking was harsh, quick, dry, peaceable. The men of the Isle are not always wise, eh?" he said. "Maybe the Doorkeeper." He looked at her now, not glancing but squarely, his eyes catching and holding hers. "But there. In the wood. Under the trees. There is the old wisdom. Never old. I can't teach you. I can take you into the Grove." After a minute he stood up. "Yes?" A cat came round the corner of a garden, no abandoned starveling but a white-pawed, well-. by a crossbow quarrel. The boy they

"Can you do that coming down?" Golden asked, and Diamond said,,thinking by his height he was a child, and then saw the small breasts. It was a woman. She was.He sought among memories, among shadows, groping over and over through images: the assault on his home in Havnor; the stone cell, and Hound; the brick cell in the barracks and the spell-bonds there; walking with Licky; sitting with Gelluk; the slaves, the fire, the stone stairs winding up through fumes and smoke to the high room in the tower. He had to regain it all, to go through it all, searching. Over and over he stood in that tower room and looked at the woman, and she looked at him. Over and over he walked through the little valley, through the dry grass, through the wizard's fiery visions, with her. Over and over he saw the wizard fall, saw the earth close. He saw the red ridge of the mountain in the dawn. Anieb died while he held her, her ruined face against his arm. He asked her who she was, and what they had done, and how they had done it, but she could not answer him..we can tell it as a story? Gift had never seen him smile..Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Paln did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore..that of finishing the last bite of a perfectly ripe pear.."Hmf," said Golden, chewing. Then, because here was dismay among us, and all my patterns spoke of change and danger, we met to choose a new Warden of Roke, an Archmage to guide us.
