Kings, lords, and Islemen charged with defending the islands of the Archipelago came to rely increasingly on wizards to fend off dragons and Kargish fleets. The Deed of Enlad, a good deal of which appears to be purely mythical, concerns the kings before Morred, and Morred's first year on the throne. The capital city of these rulers was Berila, on the island of Enlad. The ship's weatherworker came aboard just before they sailed, no Roke wizard but a weatherbeaten. "Well, he ran out. But the curer from the south said he wasn't dead, and was as dangerous as an adder. San told how Otak had put a curse on Sunbright and said some awful words that made him get smaller and smaller and wail like a stick in the fire, and then all in a moment he was back in himself again, but sick as a dog, as who could blame him, and all the while there was this light around the other one, Otak, like a wavering fire, and shadows jumping, and his voice not like any human voice. "Stop destroying your head," Rose told him. It was far more convenient to him that Losen should be king than that he himself should rule. More quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had smock and leggings and a loathsome felt hat, did not wink back. She played her part even while. It was mere cowardice to keep from Havnor, now fear for his skin, fear lest he find his people had died, the blind girl who knew the names of things. He told them his trick, and the blind girl. But this gift, this undeniable gift t the rock hovering, the unblown fife -- Well, it would be wrong to make too much of it, but probably it should not be discouraged. "But you'll fly again?". He never felt entirely alive in Master Hemlock's house and presence. He felt a little dead. Not dead, but a little dead. "I don't know," said the Doorkeeper. For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a mere toy, such as music or tale-telling, but a practical business, which his business could never quite equal. And he was, though he wouldn't have put it that way, afraid of wizards. A bit contemptuous of sorcerers, with their sleights and illusions and gibble-gabble, but afraid of wizards. So the practice of their lore and the teaching of it had become perilous. Those who undertook it. there was enough, was all. Medra knew the danger of repeatedly taking any form but his own, but he was shaken and weakened by the shipwreck and the long night flight, and the grey beach led him only to the feet of sheer cliffs he could not climb. He made the spell and said the word once more, and as a sea tern flew up on quick, laboring wings to the top of the cliffs. Then, possessed by flight, he flew on over a shadowy sunrise land. On the island of Ark, and in Orrimy on Hosk, and down among the Ninety Isles,

there are tales about a man who came seeking for a land where people remembered the justice of the kings and the honor of wizards, and he called that land Morred's Isle. There's no knowing if these stories are about Medra, since he went under many names, seldom if ever calling himself Otter any more. Gelluk's fall had not brought Losen down. The pirate king had other wizards in his pay, among them a man called Early, who would have liked to find the young upstart who defeated his master Gelluk. And Early had a good chance of tracing him. Golden was earnest, seeing his chance to begin to wean the lad from his mother. She as a woman would cling, but he as a man must learn to let go. And Diamond nodded sturdily enough to satisfy his father, though he had a thoughtful look.
