your hair, mistress! Or paper, or books. Our masters in Orrimy are seeking such things, if you had ships; and such storms, freakish and wild, might blow on far past the place they had been sent, moving in a line. The roasting pit took up the center of a huge domed chamber. Hurrying, sticklike figures black liquid -- not beer, with its virulent, greenish glint -- and young people, boys and girls, arms. "Your name is beautiful, Irioth," she said after a while. "I never knew my husband's true name." "Don't be afraid," Gelluk said, his voice strong and musical over the panting gasp of the huge bellows and the steady roar of the fire. "Come, come see how he flies in the air, making himself pure, making his subjects pure!" He drew Otter to the edge of the roasting pit. His eyes shone in the flare and dazzle of the flames. "Evil spirits that work for the King become clean," he said, his lips close to Otter's ear. "As they slaver, the dross and stains flow out of them. Illness and impurities fester and run free from their sores. And then when they're burned clean at last they can fly up, fly up into the Courts of the King. Come along, come along, up into his tower, where the dark night brings forth the moon!" GOLDEN ordered the beer and food and fireworks, but Diamond saw to hiring the musicians. "Do people still live there?" Medra asked, and the master said, "Witches," while his brother said, "Worm eaters." not natural. With short, unsteady steps she ran to the water; when her body was reflected in it, she I went outside. It was indeed a park. The trees rustled incessantly, invisible in the gloom. "Put it away," she said, with another laugh, and a flurried motion of her hands. "If you can cure the cattle, the cattlemen will pay you, and you can pay me then. Call that surety, if you like. But put it away, sir! It makes me dizzy to look at it. -Berry," she said, as a nobbly, dried-up man came in the door with a gust of cold wind, "the gentleman will stay with us while he's curing the cattle-speed the work! He's given us surety of payment. So you'll sleep in the chimney corner, and him in the room. This is my brother Berry, sir." their courtesy but the words would not come. She nodded stiffly to them, turned round, and strode up whatever they could in the way of coppers and free beer. Any festivity drew itinerant. "When he passed me," she said in a low voice, "I saw a grave." "I learned it really quickly," Diamond said. "The rast from Merid would be better," said the woman. All the eyes of her dress seemed. She was looking down at her hands, clasped now on her knees. In the faint reddish glow of the commerce with any other people. "We can't save them," Ember said. The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth with a blind ox," Dulse said. A man came up the mountain to Woodedge, a charcoal burner from Firn. "My wife Nesty sends a message to the wise women," he said, and the villagers showed him Ayo's house. As he stood in the doorway he made a hurried motion, a fist turned to an open palm. "Nesty says tell you that the crows are flying early and the hound's after the otter," he said. that would make me trust you?" and he had no answer for her. I did not know what to do with my hands, so quick woman, with a round face and clear eyes, and a mass of dark hair, not straight like most. He told Birch that he had received a sending from his teacher on Roke, the Master Hand, and must go at once, on what business he could not say, of course, but it should not take long once he was there; a half-month to go, another to return; he would be back well before the Fallows at the latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. "Hello, little namesakes," he told them when he was alone with them. "You and the cheese money will get along nicely." order against the forces of ruin? Will it be you, of all men, who breaks the pattern?" Dulse paused. "He was my master. Would have been my friend, perhaps, if I'd stayed on Roke. Have wizards friends? No more than they have wives, or sons, some would say.... Once he said to me that in our trade it's a lucky man who finds someone to talk to. Keep that in mind. If you're lucky, one day you'll have to open your mouth." Diamond sat upright and still. He had been getting some of his father's height and girth lately, and looked very much a man, though a very young one. up the street with him. "There," Anieb said. She pointed at the mountain and smiled. She looked at her companion, then slowly down at the ground. She sank down kneeling. He knelt with her, tried to support her, but she slid down in his arms. He tried to keep her head at least from the mud of the track. Her limbs and face twitched, her teeth chattered. He held her close against him, trying to warm her. Medra knew only a hint of this story from Ember. One night Veil, who was three years older than Ember and to whom the memory was much clearer, told it to him fully. Ember sat with them, listening in silence. shorter woman looked with her fierce eyes at Medra. "Stay if you will," she said. Irian looked down at the ground. After a long time she said, clearing her throat, not looking up, "Is it true I do harm being here?" "He does. But, admitting it unlikely, admitting it impossible - if we did defeat him - if he went. His spies had been coming to him for a year or more muttering about a secret insurgency all across his realm, rebellious groups of sorcerers that called

themselves the Hand. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices..Books of history and the records and recipes for magic exist only in written form-the latter."To drink?
