He went in by the garden door, which gives on the path through the fields to Roke Knoll. It is a curious thing about the Great House of Roke, that it has no portal or grand entryway at all. You can enter by what they call the back door, which, though it is made of horn and framed in dragons tooth and carved with the Thousand-Leaved Tree, looks like nothing at all from outside, as you come to it in a dingy street; or you can go in the garden door, plain oak with an iron bolt. Her heart began to go at a carthorse gallop. She followed him through the maze of corridors to a dark-walled room with a row of high pointed windows. A group of men stood there, and every one of them turned to look at her as she came into the room. "could stab her with. Patterner here. I'd like to learn more about your name." He nodded to the other two mages and was defiling, essentially wicked. Ever since he had walked on the green hill above the town and had seen the bright shadows in the grass, his heart had been easy. He was expectant, full of a sense of great strangeness, but not frightened. He stood still and looked at the people who came to meet him. "Get the sail down," Medra said, peremptory. The master yawned and cursed and began to shout commands. The crewmen got up slowly and slowly began to rake the awkward sail in, and the oarmaster, after asking several questions of the master and Medra, began to roar at the slaves and stride among them rousing them right and left with his knotted rope. The sail was half down, the sweeps half manned, Medra's staying spell half spoken, when the witchwind struck. where Otter had taken Licky the first day he was there. It was late autumn now. Earthsea over thirty years ago: I needed to know where things are, and how to get from here to descents to airy caverns, the glimmer of branched silver in the walls; and as he went on, it was. He was angry then, very angry, a hungry man whose food is snatched from his hand. He summoned the man Tern to reappear, but he did not know his true name and had no hold of heart or mind on him. The summons went unanswered. Kembermouth, a walled, prosperous port city. They left the carter to his master's business and. The wind blew, the long grass nodded in the wind. She looked westward over the reed beds and willows and the farther hills. The whole western sky was empty, clear. She stood still and her soul seemed to go into that sky and be gone, gone out of her. "Do you?" asked the man in the red tunic, smiling a little. She could see his mind dance ahead of hers, taking up and playing with ideas, transforming them as he had transformed brick into butterfly. She could not dance with him, she could not play with him, but she watched him in wonder. Irian stood silent too, but her hope sank down, replaced by a sense of shame and utter insignificance. These were brave, wise men, seeking to save what they loved, but they did not know how to do it. And she had no share in their wisdom, no part in their decisions. She drew away from them, and they did not notice. She walked on, going towards the Thwilburn where it ran out of the wood over a little fall of boulders. The water was bright in the morning sunlight and made a happy noise. She wanted to cry but she had never been good at crying. She stood and watched the water, and her shame turned slowly into anger. However the Division came about, from the beginning of historical time human beings have lived in the main Archipelago and the Kargad Lands east of it, while the dragons kept to the westernmost isles- and beyond. People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for this. at Dulse's request that the wizard had to laugh. "The true art prevails over the false. The pattern will hold," Ember said, frowning. She reached out the poker to gather together her namesakes in the hearth, and with a whack knocked the heap into a blaze. "That I know. But our lives are short, and the patterns very long. If only Roke was now what it once was- if we had more people of the true art gathered here, teaching and learning as well as preserving-". Otter had got control of his face and voice. He wiped his eyes and nose, cleared his throat, and said, "Might be a good idea. Come to Roke. Safer." They needed no persuasion. They rode off leaving everything behind, their blankets, the tent, the iron pot. "How do we get all that back to the village?" he asked the hinny. She looked after the two ponies and said what hinnies say. "Aaawww!" she said. She would miss the ponies. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be." From the same root comes the noun esege, "creative force, breath, poetry."..
