Now, as otter, he was thinking only that he would like to stay otter, be otter, in the sweet brown water, the living river, forever. There is no death for an otter, only life to the end. But in the sleek creature was the mortal mind; and where the stream passes the hill west of Samory, the otter came up on the muddy bank, and then the man crouched there, shivering..Her use-name had been Flag, the blue iris of the springs. Wishing to end the line of the Kargish kings but unwilling to risk sacrilege by shedding royal blood, the Godking ordered these children to be stranded on a desert island. Among her clothes and toys the princess Anthil had the half of the broken Ring brought by Erreth-Akbe, which had descended to her from Thoreg's daughter. As an old woman she gave this to the young wizard Ged, shipwrecked on her island. Later, with the help of the high priestess of the Tombs of Atuan, Arha-Tenar, Ged was able to rejoin the broken halves of the Ring and so remake the Rune of Peace. He and Tenar brought the healed Ring to Havnor, to await the heir of Morred and Serriadh, King Lebannen..hire a band. Who's the best in the country? Long, long lists of names and numbers, debts and credits, profits and losses..Night had come. Gift's lamp had flickered out. Only the red glow of the fire shone on Hawk's face. It was not the face she had thought it. It was worn, and hard, and scarred all down one side. The hawk's face, she thought. She held still, listening..HE SPENT THE NIGHT in their old place in the shallows. Maybe he hoped she would come, but she did not come, and he soon slept in sheer weariness. He woke in the first, cold light.

He sat up and thought. He looked at life in that cold light. It was a different matter from what he had believed it. He went down to the stream in which he had been named. He drank, washed his hands and face, made himself look as decent as he could, and went up through the town to the fine house at the high end, his father's house..of his colleagues, no subsequent archmage seriously misused his power to weaken others or break the stillness of their surface, but he drank from them. He had underestimated Diamond's.thought. He was used to being listened to, not to listening. Serene in his strength and obsessed.Early never disregarded any triviality Hound mentioned, because so many of them had proved not to be trivial. He disliked the old man for that, and because he was unshakable. He never praised Hound, and used him as seldom as possible, but Hound was too useful not to use..reflections. "Come on, where are you?" I heard her whisper. I saw only the pale smudge of her.Spring came late again that year, cold and stormy. Medra set to boat-building. By the time the peaches flowered, he had made a slender, sturdy deep-sea boat, built according to the style of Havnor. He called her Hopeful. Not long after that he sailed her out of Thwil Bay, taking no companion with him. "Look for me at the end of summer," he said to Ember..made one gesture of her hand, downward to the earth..From time to time in the years since then, Dulse remembered how he hadn't lost his temper when."I forget-I always forget," he said, downcast again. "I forget the walls of the prison. I'm not.The tall man in his tall hat suddenly sat down on the dirt beside Otter, quite close to him. His breath smelled earthy. His light eyes gazed directly into Otter's eyes. "Would you like to know? You can know anything you like. I need have no secrets from you. Nor you from me," and he laughed, not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Turres. Do you know that name? It's a word in the language of the Allking. His own name in his own language. In our base tongue we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier. The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!" And he stood up, supple and sudden, taking Otter's hand in his and pulling him to his feet with startling strength. He was laughing with excitement..The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny.The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero:..still dance, I thought to myself. That's good. The pair took a few steps, a pale, mercurylike ring.There he was well received by King Thoreg, who, after the shattering loss of his fleet, was ready.Early did not punish Hound for his failure, but he remembered it. He was not used to failures and summer fruits. And quite impossible now. Do you understand that?" "No," Diamond said..After a long time, she came back to the sunlight and the stableyard and her thoughts and puzzles. "But even if he's gone," she said, "surely some of the Masters are truly wise?". "Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room.. "The woman with you defies the Rule of Roke," the Windkey said. "She must leave. A boat is waiting at the dock to take her, and the wind, I can tell you, will stand fair for Way." He was not used to failures and did not like them. He did not like what Hound told him about this boy, Otter, and he remembered it..The sorcerer looked at Dragonfly, who stood straight as a tree and said nothing..these old mines. And he wants it. So it's best for us that we find it. Now I'll walk you out. It's..Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor..Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably

trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode." sides; it resembled the hull of a peculiarly painted vessel lying on its side. This, visible through that we enter departing..In all his flood of talk the only word Gelluk had spoken in the Old Tongue, the language of which wizards' spells were made, was the word tures. "I could fly there as a tern and be back on the ship before daylight," he said to himself, but idly. He was bound for O Port. Ruined lands were all too common. No need to fly to seek them. He made himself comfortable in his coil of cable and watched the stars. Looking west, he saw the four bright stars of the Forge, low over the sea. They were a little blurred, and as he watched them they blinked out, one by one.."I'll get the water," Tern said. He took the basin and went out to the courtyard, to the well..Her brother came in. Yet it is in Hur-at-Hur that people keep the most vivid conviction of the original kinship of human and dragon kind. Their first tune was a stumpy, fast and brilliant, too fast for some of the dancers.
