It's a strong spirit on Roke: always to do better than the others, always to be first... The art becomes a contest, a game. The end becomes a means to an end less than itself... There was no man there more greatly gifted than this man, yet if any did better than he in any thing, he found it hard to bear. It frightened him, it galled him..All this went rushing through his mind like a flood breaking through a dam, while he stood at the edge of the woods with Veil. "I thought mages kept themselves apart," he said at last. "High-drake said that to make love is to unmake power."."Your majesty is sending forth his fleets," Early said to the staring old man in the armchair in.Medra bowed his head, standing there. "The Master Changer you have met," he said. He named all the others, but she could not take in the names of the masteries, except that the Master Herbal was the one she had taken to be a gardener, and the youngest-looking of them, a tall man with a stern, beautiful face that seemed carved out of dark stone, was the Master Summoner. It was he who spoke, when the Doorkeeper was done. "A woman," he said..where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody.The Summoner looked up at Irian. Slowly he raised his arms and the white staff in the invocation of a spell, speaking in the tongue that all the wizards and mages of Roke had learned, the language of their art, the Language of the Making: 'Irian, by your name I summon you and bind you to obey me!'.felt the bonds close and tighten, and the old shadow fall..he was hungry most of the time. Not till he could take an hour and run back down to the docks."To say?".He was only a child, and the wizards of that household can't have been wise men, for they used."Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving.the silence, in the cell in the tower. I'm not Irian!" She fell silent abruptly, having spoken. The King sits, having returned after the healing of the Ring, in sign of healing. And in that twilight. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions. Maybe some rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, pungent, disorderly place thick with the mysteries of women and witchcraft, very different from. "Seems to be a hard place to find," Hound said. "No, I suppose I never mentioned it. But it doesn't make much difference, after all. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke." Diamond had been given his true name at the springs of the Amia in the hills above Glade. The wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And Hemlock was invited to his nameday party the year after, a big party, beer and food for all, and new clothes, a shirt or skirt or shift for every child, which was an old custom in the West of Havnor, and dancing on the village green in the warm autumn evening. Diamond had many friends, all the boys his age in town and all the girls too. The young people danced, and some of them had a bit too much beer, but nobody misbehaved very badly, and it was a merry and memorable night. The next morning Golden told his son again that he must think about being a man. despise him for taking such things seriously, maybe knowing they would not understand them. She never argued; it was one of her virtues. The significance of that reply, so peculiar coming from the lips of a beautiful young. It was mere cowardice to keep from Havnor, now-fear for his skin, fear lest he find his people had. "If you'd like to come with me, she lives this way. And though she's only a girl, and poor, I'll. Hound smiled. "They haven't undone what you did yet, either," he said. "Old Whiteface was crawling. Mead looked at her sister. "Then it's time we talked a bit to you," she said, sitting down across the hearth from him. Ayo stood by the table, silent. A good fire burned in the hearth. It was a wet, cold time, and firewood was one thing they had plenty of, here on the mountain. "Well, well, well," he said to his wife, frequently, "all rosy again, eh? "But we met, we sat, and we could not choose. We said this and said that, but no name was spoken. And then I..." He paused a while. There came on me what my people call the eduevanu, the other breath. Words came to me and I spoke them. I said, Hama Gondun! And Kurrenkarmerruk told them this in Hardic: "A woman on Gont." But when I came back to my own wits, I could not tell them what that meant. And so we parted with no Archmage chosen. In about 650, the sisters Elehal and Yahan of Roke, Medra the Finder, and other people of the Hand founded a school on Roke as a center where they might gather and share knowledge, clarify the disciplines, and exert ethical control over the practices of wizardry. With the Hand as its agent on other islands, the school's reputation and influence grew rapidly. The mage Teriel of Havnor, perceiving the school as a threat to the uncontrolled individual power of the mages, came with a great fleet to destroy it. He was destroyed, and his fleet scattered. Ivory, had been all too unprotected. If anybody was under a spell of chastity it must have been. All the teachers of the art magic on Roke were women. There were no men of power, few men at all. He hard-boiled the three new eggs and one already in the larder and put them into a pouch along with four apples and a bladder of resinated wine, in case he had to stay out all night. He shrugged arthritically into his heavy cloak, took up his staff, told the fire to go out, and left.
