Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea..The power of the Archmage of Roke was in many respects that of a king. They spent ten years together fighting the Kargs, whose occasional forays from the East had in recent times become a slave-taking, colonising invasion. Venway, Torheven and the Torikles, Spevy, Perregal, and parts of Gont were under Kargish dominion for a generation or longer. At Shelieth on Way, Erreth-Akbe worked a great magic against the Kargish forces, who had landed in "a thousand ships" on Waymarsh and were swarming across the mainland. Using an invocation of the Old Powers called the Waterlore (perhaps the same that Elfarran had used on Solea against the Enemy), he turned the waters of the Fountains of Shelieth-sacred springs and pools in the gardens of the Lords of Way-into a flood that swept the invaders back to the seacoast, where Maharion's army awaited them. No ship of the fleet returned to Karego-At..Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..let out again last year, as you

But Havnor is also the Great Isle, a broad, rich land; and in the villages inland from the port, "What's more wrong than to summon oneself back from death?" said the Namer. What Master did you speak of? Magic was a wild talent before the time of Morred, who as both king and mage established intellectual and moral discipline for the art magic, gathering wizards to work together at the court for the general good and to study the ethical bases and constraints of their practice. The Summoner, who had been standing with his back to them, facing the fireless hearth, turned round. "The names witches give each other are not our concern here," he said. "If you have some interest in this woman, Doorkeeper, it should be pursued outside these walls - outside the door you vowed to keep. She has no place here nor ever will. She can bring only confusion, dissension, and further weakness among us. I will speak no longer and say nothing else in her presence. But Early could follow the lead, and if his own powers were not enough he. He had a way with her cows that was wonderful. When he was there and she needed a hand, he took Berry's place, and as she told her friend Tawny, laughing, he was cannier with the cows than Bren's old dog had been. "He talks to em, and I'll swear they consider what he says. And that heifer follows him about like a puppy." Whatever he was doing out on the ranges with the beeves, the cattlemen were coming to think well of him. Of course they would grab at any promise of help. Half San's herd was dead. Alder would not say how many head he had lost. The bodies of cattle were everywhere. If it had not been cold weather the Marsh would have reeked of rotting flesh. None of the water could be drunk unless you boiled it an hour, except what came from the wells, hers here and the one in the village, which gave the place its name. "Free!" said the tall woman, and her voice cracked like a whip. Then she looked at her companions, worked and talked and sang the songs, The Winter Carol and The Deed of the Young King. And they. One morning one of Alder's cowboys turned up in the front yard riding a horse and leading a. sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding. The one with a voice like a deep-toned bell looked at her too, and spoke to her with a plain, kind severity. "As I see it, the man who brought you here meant to do harm, but you do not. Yet being here, Irian, you do us and yourself harm. Everything not in its own place does harm. A note sung, however well sung, wrecks the tune it isn't part of. Women teach women. Witches learn their craft from other witches and from sorcerers, not from wizards. What we teach here is in a language not for women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But they are true laws, founded not on what we want, but on what is. The just and the unjust, the foolish and the wise, all must obey them, or waste life and come to grief." into the Reaches. And when you know there's ore underfoot, you stamp on the place, restore the law that Thorion returned. The true name of a person is a word in the True Speech. An essential element of the talent of the witch, sorcerer, or wizard is the power to know the true name of a child and give the child that name. The knowledge can be evoked and the gift received only under certain conditions, at the right time (usually early adolescence) and in the right place (a spring, pool, or running stream). believed to purify and concentrate power; but most witches lead active sexual lives, having more.
