They sent him to Sans house, but San's wife screeched when she heard there was a stranger at the door, crying that if San let another witch-man in the door her baby would be born dead twice over. Her screaming could be heard for several houses up and down the street, and a crowd, that is, ten or eleven people, gathered between Sans house and the tavern..offering him something. Then she was gone.."Whatever for?"..that would have kept a far more experienced wizard captive. But you should know that leaving Roke may be even harder than coming to it. Prison within.So it was. For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the

centuries passed through it. And still the ninth Master of Roke is the Doorkeeper..onto a moving walkway. Quite close to me, a pair of startled eyes flashed by -- a lovely dark girl..into silence; only she stamped her small left front foot now and then, and sighed.. "Not many come here to the High Marsh," she said. "Peddlers and such. But not in winter." "And I in my tower," said the Namer. "And you, Herbal, and the Doorkeeper, are in the trap, in the Great House. The walls we built to keep all evil out. Or in, as the case may be." She lay awake in the little house, feeling the air stifling and the ceiling pressing down on her, then slept suddenly and deeply. She woke as suddenly when the east was just getting light. She went to the door to see what she loved best to see, the sky before sunrise. Looking down from it she saw Azver the Patterner rolled up in his grey cloak, sound asleep on the ground before her doorstep. She withdrew noiselessly into the house. In a little while she saw him going back to his woods, walking a bit stiffly and scratching his head as he went, as people do when half awake..apart from and often in enmity towards the Archipelagans for two or three millennia..Curious manners, I thought. But, then, if that's what's done. . . "I told him," Golden said, "that I had seen you, with a turn of your hand and a single word, change a wooden carving of a bird into a bird that flew up and sang. Pre seen you make a light glow in thin air. You didn't know I was watching. I've watched and said nothing for a long time. I didn't want to make too much of mere childish play. But I believe you have a gift, perhaps a great gift. When I told Master Hemlock what I'd seen you do, he agreed with me. He said that you may go study with him in South Port for a year, or perhaps longer." .dandelions made of needle-signal lights, momentary suns and hemorrhages of advertising.. "Put your feet up to the fire," she said abruptly. "I have some old shoes of my husbands." It cost..to the fire," and had him sit down in Bren's settle close to the hearth. "Stir the fire up a bit," .Then Dragonfly came back to herself and called to Ivory and ran down the hill to meet him. "I will..Dulse had sent students on to the School, three or four of them, nice lads with a gift for this or that; but the one Nemmerle waited for had come and gone of his own will, and what they had thought of him on Roke Dulse did not know. Silence did not say. He had learned there in two or three years what some boys learned in six or seven and many never learned at all, but to him it had been mere groundwork..She looked up at him, her sharp, strong face softened by the shadowy lantern-light. "Do wizards have no family?" "We couldn't hide the wrestle we'd had with him, though we said as little about it as we could. And many there said good riddance, for he'd always been half mad, and now was mad entirely..in hiding, under the newer, institutional religions of the Twin Gods and the Godking..them, not keeping them secret each to himself, as the wizards do." .So Diamond, instead of learning spells and illusions and transformations and all such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. Plants and parts of plants and animals and parts of animals and islands and parts of islands, parts of ships, parts of the human body. The words never made sense, never made sentences, only lists. Long, long lists..them. Maybe a child the parents are grieving for. In the witch's hut, in the darkness, they hear..The hillside in front of him trembled, writhed, and opened. She broke off, coughing. Her mother shot an anguished, yearning glance at the wizard. Surely he would hear that cough, this time? He smiled at young Rose, and the mother's heart lifted. "Pretty good for fifty years old!" she said. It was silly to boast, but she was proud of her strong arms, her energy and skill..the rocket straight from the forest. I was furious for a moment, but I calmed down; it was not.. We won't defeat him.".The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater.
