He sat up and.Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking. He would have dragons for his dogs.."What's up?" said Kurremkarmerruk. "I've been reading about dragons. Not paying attention. But all the boys I had studying at the Tower left."Banners still flew from the towers of the City of Havnor, and a king still ruled there; the banners were those of captured towns and isles, and the king was the warlord Losen. Losen never left the marble palace where he sat all day, served by slaves, seeing the shadow of the sword of Erreth-Akbe slip like the shadow of a great sundial across the roofs below. He gave orders, and the slaves said, "It is done, your majesty." He held audiences, and old men came and said, "We obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" Losen shouted, beating his paralyzed legs with his weak hands.."Even if you -.information, communication, protection, and teaching..honour her inheritance and be true to Iria. My cell. My little stone celibate cell. It had a window looking out on a back-street. No spells - you can't make spells with all their magic going on. But she wanted to come, and came, and I let a rope ladder out the window, and she climbed it. And we were at it when the old men came in! I showed 'em! He had put his spell on her, and she looked like a man, though she did not feel like one. She and Ivory took each other in their arms, because after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. She walked up the street and stood before the door. She looked back then, but he was gone..bright stars of the Forge, low over the

"Yes," she said uncertainly..without you, I remember... I don't want to go, but I have to go. I don't want to admit that. I put out my cigarette.. "Is this some kind of custom?" "Mars?" In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost..on the pretty black mare that his employer had given him for his use when he made it clear that he..ledger full of lists of names and figures, a flicking, dismissive tap. Dulse had seen young men weep for joy at the birth of a first son. He had seen poor men pay witches a year's earnings for the promise of a healthy boy, and a rich man touch his gold-bedizened baby's face and whisper, adoring, "My immortality!" He had seen men beat their sons, bully and humiliate them, spite and thwart them, hating the death they saw in them. He had seen the answering hatred in the son's eyes, the threat, the pitiless contempt. And seeing it, Dulse knew why he had never sought reconciliation with his father.. "And mine with you, my ember of fire, my flowering tree, my love, Elehal." "That's a formality. We senior sorcerers may carry a staff when we're on Roke's business. Which I am." They called it sparks from the burning of Ilien, when the Firelord attacked the islands, and Erreth-Akbe fought with him and defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-Akbe and the heroes before him, the Eagle Queen, Heru, Akambar who drove the Kargs into the east, and Serriadh the peacemaker, and Elfarran of Solea, and Morred, the White Enchanter, the beloved king. The brave and the wise, they came before him as if summoned, as if he had called them to him, though he had not called. He saw them. There he nodded downward and stamped his foot..A long shudder went through her as she stood facing him. She felt herself larger than he was, larger than she was, enormously larger. She could reach out one finger and destroy him. He stood there in his small, brave, brief humanity, his mortality, defenseless. She drew a long, long breath. She stepped back from him..never had, such as mastery over the wizards who served him..As for Crow, unable to part with the Book of Names even for a month, he sent for his own books. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, and she

The Knoll rose up full in the western sun on their right. Behind. All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary eyes. If there were any spells woven about that hill or the bay he now saw opening before it, they were gossamer to him, transparent. Nothing blurred his eyes or challenged his will as he flew over the bay, over the little town and a half-finished building on the slope above it, to the top of the high green hill.
