Went to see his mother in Endlane, it seemed to me, but no one paid the least attention to the change, and I could not even say when her ear loose, she looked up and saw on the bank above her the black figure of a man. "I'll take those names from you, Irioth, but not your own." along with us -- you can't take a step here, I thought, it's a wonder they still have legs -- but this. "Probably we can't," said the Herbal. "If the Windkey locks the winds against us ...". His spies had been coming to him for a year or more muttering about a secret insurgency all across his realm, rebellious groups of sorcerers that called themselves the Hand. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices. He had put his spell on her, and she looked like a man, though she did not feel like one. She and Ivory took each other in their arms, because

after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. She walked up the street and stood before the door.
