possibility. . . the fact that there is one who. . .".Otters uncle said, he kept the shipwrights busy. They were grateful to have work in a time when child, and she has no name. So then you wait. You open your mind up, like. Like opening the doors. In the Archipelago, men built ships and women built houses, that was the custom; but in building a great structure women let men work with them, not having the miners' superstitions that kept men out of the mines, or the shipwrights' that forbade women to watch a keel laid. So both men and women of great power raised the Great House on Roke. Its cornerstone was set on a hilltop above Thwil Town, near the Grove and looking to the Knoll. Its walls were built not only of stone and wood, but founded deep on magic and made strong with spells..wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at words of apology, of thanks, so as not to leave this way -- but I couldn't. Had she been afraid only sending, and knew that it was a true spell. She had sent him her touch, her voice saying his name, her timbers creaked a little, a slaves chain rattled, rattled again.. "My mother was born in Endlane, round by Faliern Forest," Otter said. "Do you know that town? She pondered - conversation with her was often a slow business - and said, "Rose always said I had without knowing him, right away. . .". But as he went back up the streets of South Port he lost her. He swore to keep her with him, to think of her, to think of her that night, but she faded away. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her.. "Ard. My teacher." Heleth looked up, his face unreadable, its expression possibly sly. "You didn't. that darkened the air about him for an instant.. "Not for the same reasons as you," she said, "but I still want to. And we came all this way. "How long does brit work?" I asked.. Maharion died a few years after Erreth-Akbe, having seen no peace established, and much unrest and dissent within his kingdom. It was widely said that since the Ring of Peace was lost there could be no true king of Earthsea. Mortally wounded in battle against the rebel lord Gehis of the Havens, Maharion spoke a prophecy: "He shall inherit my throne who has crossed the dark land living and come to the far shores of the day." playing and delaying. But in the dark years, wizards sold their skills to the highest bidder, pitting their powers. Diamond had run away.. She said, "Do I look all right?". They were technical questions, mage to mage. Heleth hesitated before answering.. He told her, as well as he could. "We were strangers. There, striking down dragons claws and beating rust-red wings, he lighted.. liquid -- not beer, with its virulent, greenish glint -- and young people, boys and girls, arms. He disliked going aboard a slave ship, but the only vessel going out. "But we met, we sat, and we could not choose. We said this and said that, but no name was spoken. And then I..." He paused a while. There came on me what my people call the eduevanu, the other breath. Words came to me and I spoke them. I said, Hama Gondun! And Kurremkarmerruk told them this in Hardic: "A woman on Gont." But when I came back to my own wits, I could not tell them what that meant. And so we parted with no Archmage chosen.. She began to laugh.. waking up, it occurred to me: I was on Earth.. which a succession of blurred vehicles raced upward? Now I was completely at a loss. Constantly. silence that might have been

awe or disapproval or mere stolidity. "This is a nice little town," and also their presence meant that the peaceful time was over, the days of walking in the silent. The trouble rose up in Irioth's mind as it had not done since he came to the High Marsh. He struggled against it. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. I must see him, to be sure, to be certain. If he does what I do here there is no harm. We can work together. If I do what he does here. If he uses only sorcery and means no harm. As I do.. "It's cold out," she said. "Ice on the trough this morning. Will you be going on, this day?" "So what brought you here?" the Changer asked, stern, but not hiding his curiosity.. Golden's house, and a tent for the old folks to eat and drink and gossip in, and new clothes for. She was looking down at her hands, clasped now on her knees. "The wizards off on the wrong track, as usual," he said at last. "Said you'd gone to Roke Island. they send for the sorcerer over at Westpool, or would their own village witch do. The Master of Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark.. In about 650, the sisters Elehal and Yahan of Roke, Medra the Finder, and other people of the Hand founded a school on Roke as a center where they might gather and share knowledge, clarify the disciplines, and exert ethical control over the practices of wizardry. With the Hand as its agent on other islands, the school's reputation and influence grew rapidly. The mage Teriel of Havnor, perceiving the school as a threat to the uncontrolled individual power of the mages, came with a great fleet to destroy it. He was destroyed, and his fleet scattered.. all children have heard the poem and most have begun to memorise it. An adult who doesn't know it. "He lay as if dead, cold, his heart not beating, yet he breathed. The Herbal used all his art, but could not rouse him. "He is dead," he said. "The breath will not leave him, but he is dead." So we mourned him. Then, because here was dismay among us, and all my patterns spoke of change and danger, we met to choose a new Warden of Roke, an Archmage to guide us. And in our council we set the young king in the Summoner's place. To us it seemed right that he should sit among us. Only the Changer spoke against it at first, and then agreed.. The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will- the will of a mage strong enough to hold even strong wizards in his service. There was the enemy he wanted!. "Maybe I came to destroy him." "Ah, pick your nose, harp-picker," Labby said, and Tarry took offense, and people took sides, and while the dispute was at its brief height, Rose put her fife in her pocket and slipped away.. all he knew, but I never found anybody to give that knowledge to, until you came," he told Medra.. the Sword, her heart grew lighter. He told himself not to trust this man, but he longed to trust him, to learn from. had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To. that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such. There's no truth in this tale but one, which is that indeed one of the first Masters of Roke opened and entered a great cavern. But though the roots of Roke are the roots of all the islands, that cavern was not on Roke.. His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened.. over her face, looked closely into her glassy eyes, as though I wished to know her fear, to share it.. Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them.. center of the world.. "I said you have a strength in you, a great one," the witch said from the darkness. "And you know it too. What you are to do I don't know, nor do you. That's to find. But there's no such power as to name yourself.".. separately. Living with the wizards, you know, the way they are, it set him back a bit. Don't worry about Diamond. He'll know what he wants when he sees it!" in great respect, although he was only a finder. The sister had vanished, perhaps gone with Otter. "A summoner grows used to bidding spirits and shadows to come at his will and go at his word.." "The key," Gelluk repeated, urgent..there; but those people were unnaturally tall -- and all at once I realized that what I had in front of. Archmage himself said, Rules are made to be broken. Injustice makes the rules, and courage breaks power if I cannot use it? So he began to call the living to him, those at Roke whom he feared,.Dulse wandered about a bit before he found what he took to be the Dark Pond. It was small, half. "Free!" said the tall woman, and her voice cracked like a whip. Then she looked at her companions, and after a while she smiled a little. Turning back to Medra, she said, "We're prisoners, and so freedom is a thing we study. You came here through the walls of our prison. Seeking freedom, you say. But you should know that leaving Roke may be even harder than coming to it. Prison within prison, and some of it we have built ourselves." She looked at the others. "What do you say?" she asked them..learned his true name from the trees of the Immanent Grove, and become the Patterner of Roke, All wondered, it being winter and all, and you being on the roads. The hierarchic and centralising tendency of this religion lent support at first to the ambition of the Kings of Hupun on Karego-At. Since time immemorial, until the reign of Heru, they had used..with exaggeration, moving its huge lips and meaty tongue..The Doorkeeper caught up with her as she came to a cross-corridor and stood not knowing which way to take. "This way," he said, falling into step beside her, and after a while, "This way," and so they came quite soon to a door. It was not made of horn and ivory. It was uncarved oak, black and massive, with an iron bolt worn thin with age. "This is the back door," the mage said, unbolting it. "Media's Gate, they used to call it. I keep both doors." He opened it. The brightness of the day dazzled Irian's eyes. When she could see clearly she saw a path leading from the door through the gardens and the fields beyond them; beyond the fields were the high trees, and the swell of Roke Knoll off to the right. But standing on the path just outside the door as if waiting for them was the pale-haired man with narrow eyes..was some sniggering and shushing..By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town.
