

THE ANNOTATED PROBATE CODE OF OHIO

Unable to continue Tehanu's story (because it hadn't happened yet) and foolishly assuming that the story of Ged and Tenar had reached its happily-ever-after, I gave the book a subtitle: "The Last Book of Earthsea." That was all right, for she had done the same for Otter's elder sister, and so his parents sent him to her in the evenings. But she taught Otter more than the song of the Creation. She knew his gift. She and some men and women like her, people of no fame and some of questionable reputation, had all in some degree that gift; and they shared, in secret, what lore and craft they had. "A gift untaught is a ship unguided," they said to Otter, and they taught him all they knew. It wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at deceiving his parents, he couldn't resist this knowledge, and the kindness and praise of his poor teachers. "It will do you no harm if you never use it for harm," they told him, and that was easy for him to promise them. Junior's breath smoked from him as if he contained a seething fire of his own. He felt a sheen of condensation arise on his face, cold and invigorating. Hound told his master that they had the hexer in a safe place, and Losen said, "Who was he working for?" Although she would have felt ridiculous phrasing this question in these words to any other three-year-old, no better way existed to ask it of her special son: "Kiddo ... do you realize you're speaking of your dad in the present tense?" Agnes remained mystified by this talk, but a week before, in the rain-swept cemetery, she had learned there was substance to it. But Havnor is also the Great Isle, a broad, rich land; and in the villages inland from the port, the farmlands of the slopes of Mount Onn, nothing ever changes much. There a song worth singing is likely to be sung again. There old men at the tavern talk of Morred as if they had known him when they too were young and heroes. There girls walking out to fetch the cows home tell stories of the women of the Hand, who are forgotten everywhere else in the world, even on Roke, but remembered among those silent, sunlit roads and fields and in the kitchens by the hearths where housewives work and talk. "same," Agnes admonished. "Who's been raising you, sugarpie, if you don't know that? Are you going to pretend you've been brought up by wolves for nine years?" Because his pinching fingers deformed the shape of her mouth, her voice was compressed: "I see all the ways you are." In the dark dumpster, tormented by ceaseless torrents of what-ifs, convinced that the spirit of Vanadium was going to slam the lid and lock him in with a revived corpse, Junior had for a while been reduced to the condition of a helpless child. Paralyzed by fear, withdrawn to the corner of the dumpster farthest from the putrefying pianist, squatting in trash, he had shaken with such violence that his castanet teeth had chattered in a frenzied flamenco rhythm to which his bones seemed to knock, knock, like boot heels on a dance floor. He had heard himself whimpering but couldn't stop, had felt tears of shame burning down his cheeks but couldn't halt the flow, had felt his bladder ready to burst from the needle prick of terror but bad with heroic effort managed to refrain from wetting his pants. As Agnes slipped excess pillows out from behind him and eased him down into the covers, Barty half woke, muttering about how the police were going to kill poor Lummo, who hadn't meant to do all that damage, but he'd been frightened by the gunfire, and when you weighed six tons and had eight legs, you sometimes couldn't get around in tight places without knocking something over. Havnor Great Port is the city at the heart of the world, white-towered above its bay; on the tallest tower the sword of Erreth-Akbe catches the first and last of daylight. Through that city passes all the trade and commerce and learning and craft of Earthsea, a wealth not hoarded. There the King sits, having returned after the healing of the Ring, in sign of healing. And in that city, in these latter days, men and women of the islands speak with dragons, in sign of change. "Will I love you tomorrow, you mean, and the day after tomorrow, and on forever? Of course, forever, Wally, always." Jacob grunted, but probably not because he'd heard what had been said about him, more likely because he'd just turned the page to find a photo of dead cattle piled up like driftwood against the American Legion Hall in some flood-ravaged town in Arkansas. Suddenly so many of Zedd's greatest maxims seemed to conflict with one another, when previously they had together formed a reliable philosophy and guide to success. When Junior checked his Rolex, he realized that he didn't know how long he'd been sitting here since Ichabod had driven off in the Buick. Maybe one minute, maybe ten. Celestina put Angel down, and the girl raced to the bathroom as Wally stepped into the public hall and pulled the apartment door shut behind him. Whether the cop was unhinged or not, Junior had nothing to gain by talking to him, especially in this disorienting darkness. He was exhausted, achy, with a sore throat, and he couldn't trust himself to be as STILL WEARING HIS white pharmacy smock over a white shirt and black slacks, striding purposefully along the streets of Bright Beach, under a malignant-gray twilight sky worthy of a Weird Tales cover, with ominous accompanying rhythm provided by wind-clattered palm fronds overhead, Paul Damascus headed home for the day. With his refreshed drink, studying Celestina's photograph in the brochure, Junior returned to the living room. She was as stunning as her sister, but unlike her poor sister, she wasn't dead and was, therefore, an appealing prospect for romance. From her, he must learn whatever she knew that might help him in the Bartholomew hunt, without alerting her to his motive. At the same time, there was no reason that they couldn't have a fling, a love affair, even a serious future together. Ever since he'd searched Vanadium's house, over fourteen months ago, Junior had enjoyed learning about other people by touring their homes in their absence. Because he was unwilling to risk arrest for breaking and entering, these explorations were rare, other than in the homes of women whom he'd dated long enough to justify swapping keys. Happily, in this golden age of trust and easy relationships, as little as a week of hot sex could lead to key-level commitment. Junior took one of the boxed guns, a 9-mm semiautomatic. Months would probably pass before she noticed the pistol missing from the back of her closet, and by then she wouldn't know who had taken it. "Acute nervous emesis," Junior croaked. "I've never thought of myself as a nervous person." Agnes supposed Jacob trembled in anticipation of the crash of an airliner or at least a light aircraft. Edom might be calculating the odds that this serene

place-at this specific hour-would be the impact point for one of those planet-killing asteroids that reputedly wiped most life off the earth every few hundred thousand years or so..He considered calling her, but he didn't know what he would say if she answered..One nurse and one nun brought Celestina into the creche behind the viewing window..After Bellini left, Tom questioned Celestina extensively, with an emphasis on Phimie's rape. Although the subject was painful, she was grateful for the questions. Without this distraction, in spite of her well of hope, she might have allowed her imagination to fashion terror after terror, until Wally had died a hundred times over in her mind..Lord, help me here. Give me this one, just this one, and I'll follow thereafter where I'm led. I'll always thereafter be your instrument, but please, please, GIVE ME THIS CRAZY EVIL SON OF A BITCH!.At home, after phoning her folks, Celestina made a ham sandwich. She ate a quarter of it. Then two bites of a chocolate croissant. One spoonful of butter pecan ice cream. Everything was without taste, more bland than Phimie's hospital food, and it cloyed in her throat..When Junior tried to lift Victoria, her voluptuousness lost its appeal. As dead weight, she was heavier than he expected..THE SUN ROSE above clouds, above fog, and with the gray day came a silver drizzle. The city was lanced by needles of rain, and filth drained from it, swelling the gutters with a poisonous flood..Barty rode with his mother in her green Chevrolet station wagon. Because the cakes, pies, and gifts were too numerous to be contained in one vehicle, Edom followed them in his flashier yellow-and-white '54 Ford Country Squire..Outside, flames churned to the left and right of the opening. The front of the house was afire..Still seeking some missing fact, some insight that would help him understand the maniac's Bartholomew obsession, Tom asked more questions until Celestina suddenly realized and revealed what might be the information that he sought: Cain's perverse insistence on playing the reverend's taped rough draft of "This Momentous Day" throughout his long assault on her sister..Holding on to the jamb with one hand, Barty leaned across the threshold, listening to the day. Birds. Softly rustling leaves. Nobody on the porch. Even trying hard to be quiet, people always made some little noise..Pecan cakes, cinnamon custard pies boxed in insulated coolers, gifts wrapped with bright paper and glittery ribbons. Agnes Lampion made deliveries to those friends who were on her list of the needful, but also to friends who were blessed with plenty. The sight of each beloved face, each embrace, each kiss, each smile, each cheerfully spoken "Merry Christmas" at every stop fortified her heart for the sad task awaiting her when all gifts were given..He phoned her before leaving, to be sure she was home. She didn't work weekend shifts at the hospital; but maybe she would have gone out on this night off. When she answered, he recognized her seductive voice-and devilishly muttered, "Wrong number."..Dr. Daines spoke with Celestina in the corridor, outside the door to 724. Some of the passing nurses were nuns in wimples and full-length habits, drifting like spirits along the hallway..There was an otter in our brook."He worked in your shipyard, your highness." Losen liked to be called by kingly titles..Seven or eight years after Tehanu was published, I was asked to write a story set in Earthsea. A mere glimpse at the place told me that things had been happening there while I wasn't looking. It was high time to go back and find out what was going on now.."Well, it still is to me. But what I've been wondering ... when you talk about all the ways things are ... is there someplace where you don't have this problem with your eyes?"..When she turned to him again, he had already slipped into his jacket and snatched the car keys off the foyer table. He put his left hand under her right arm, as though Agnes were feeble and in need of sup-..At worst, Vanadium might begin to wonder if Junior had a link to Seraphim, might uncover the physical-therapy connection, and in his paranoia, might erroneously conclude that Junior had something to do with her traffic accident. That was nuts, of course, but the detective was evidently not a rational man..Based on the evidence, perhaps Sklent never laughed, regardless of how clever the joke. He scowled fiercely at the paintings in the brochure, returned it to Junior, and snarled, "Shoot the bitch."..He liked her face, too. She wore no makeup, and pulled her brown hair back in a bun. Some might say she was mousy, but the only things mousy that Nolly saw about her were a piquant tilt to her nose and a certain cuteness..He was Father Tom again, having recommitted to his vows three years previous. At his request, the Church had assigned him as the chaplain of Pie Lady Services..But he was more than she had ever imagined her boy to be, more than merely a prodigy..Gradually he grew calm. His great frosty exhalations diminished to a diaphanous dribble that evaporated two inches from his lips..Because, since childhood, Jacob had been drawn to stories and images of doom, to catastrophe on both the personal and the planetary scale-from theater fires to all-out nuclear war-he had a flamboyant imagination second to none and a colorful if peculiar intellectual life. For him, therefore, the most difficult part of learning card manipulation had been coping with the tedium of practice, but for years he had applied himself diligently, motivated by his love and admiration for his sister, Agnes..By "all of that," he meant the groceries that she and Joey often sent along with the pies, the occasional mortgage payment they made for someone down on his luck, and the other quiet philanthropies..Had Junior been chest-deep in wet concrete, he would have been more mobile than he was now. He had no feeling in his legs.."Now, I'm doubtless," Vanadium said, his voice returning to the uninflected drone that Junior had come to loathe but that he now preferred to the unsettling voice of quiet passion. "No matter what the situation, no matter how knotty the question, I always know what to do.."Sometimes these sympathetic vibrations are very apparent, but alot of the time, they're so subtle that you can hear them only if you're unusually perceptive."..Of the curiosities Junior uncovered, Frieda's weapons interested him most. Guns were stashed throughout the apartment: revolvers, pistols, and two pistol-grip shotguns. Sixteen altogether..No, impossible. He had killed Victoria almost a year and a half before this phone call. When you were dead, you were gone forever..Down the stairs, through the ground floor, quickly, soundlessly, breath held at times, listening for the other's breathing, listening for the softest squeak of rubber-soled shoes, although the hard clack of cloven hoofs and a whiff of sulfur would not have been surprising. At last he went to the kitchen, full circle from the shiny quarter on the breakfast table to the quarter again. No Cain.."You look as if you've seen a ghost," said Vinnie, and Agnes wished the threat were as simple as a restless spirit, groaning and rattling its chains, like Dickens's

Marley come to Ebenezer Scrooge on Christmas Eve..The Selective Service physician quickly declared Junior to be maimed and unfit. Quietly but with passion, Junior pleaded for a chance to prove his value to the armed forces, but the examiner was unmoved by patriotism, interested only in keeping the cattle line of other potential draftees moving past him at a steady pace..Leaning across the front seat, he lowered the passenger's window six inches. Then he lowered the driver's-side window an equal distance..Even above the piston-knock of her heart and the bellows-wheeze of her breath, Celestina heard wood crack, a small pane of glass explode, and metal torque with a squeal. The creep was going to get away..The paramedic put aside the needle, having used it, and grabbed the paddles of a."Ordinarily, I'd recommend that you apply hot compresses every two hours to relieve discomfort and to hasten drainage, and I'd send you home with a prescription for an antibiotic.".Nevertheless, Junior was thrilled to hear the name Bartholomew, and to know that the boy of whom Celestina spoke was the Bartholomew of Bartholomews, the menacing presence in his unremembered dream, the threat to his fortune and future that must be eliminated..In the spring and summer of '66, he flew to Memphis, Tennessee, stayed a few days, and walked 288 miles to St. Louis. From St. Louis he hiked west 253 miles to Kansas City, Missouri, and then southwest to Wichita. From Wichita to Oklahoma City. From Oklahoma City east to Fort Smith, Arkansas, from whence he rode home to Bright Beach on a series of Greyhound buses..Although Junior was free of the superstitions that Naomi, in her innocence and sentimentality, had embraced, he wept without pretense..The little hands, so weak now but someday strong: Would they eventually be capable of savagery, as were the father's hands? Misbegotten offspring. This seed of a demonic man whom Phimie herself had called sick and evil. However innocent-looking now, what pain might she eventually in-- on others? What outrages might she commit in years to come? Although Celestina searched intently, she could not glimpse the father's evil in the child..Raising his revolver, Tom squeezed off two shots, but the gun didn't discharge..So that my mind could move about among the years and centuries without getting things all out of order, and to keep contradictions and discrepancies at a minimum while I was writing these stories, I became (somewhat) more systematic and methodical, and put my knowledge of the peoples and their history together into "A Description of Earthsea." Its function is like that of the first big map I drew of all the Archipelago and the Reaches, when I began to work on A Wizard of Earthsea over thirty years ago: I needed to know where things are, and how to get from here to there-in time as well as in space..It's just ... the last time I saw him, he trapped me in a corner and told this god awful story, far more than I wanted to know, about some British murderer back in the forties, this monstrous man who beat people to death with a hammer, drank their blood, then disposed of their bodies in a vat of acid in his workroom." He shuddered..Nah. Every secret society has a secret handshake. We'll have this instead." Her face was still close to his, and she rubbed noses with him..It could only be made better by the presence of her parents. They had planned to fly down to San Francisco this morning, but late yesterday, a parishioner and close friend had died. A minister and his wife sometimes had duties to the flock that superseded all else..Maria was hand-repairing some of Joey's clothes, which Agnes had meticulously damaged earlier in the day..After the song concluded, Junior felt better. His heartbeat soon returned to normal. The damp palms of his hands grew dry..Nolly adored her laugh, so musical and girlish. He would have made all sorts of a fool out of himself, anytime, just to hear it..Surprised, Tom leaned in his chair to look more directly at the blind boy. On the telephone, Celestina had mentioned only that Barty was a prodigy, which didn't quite explain the aptness of the oak-tree metaphor..Desperately trying to collect her wits, Agnes gazed out at the deluged graveyard, where the mournful trees and massed monuments were blurred by purling streams ceaselessly spilling down the windshield..Putting one hand on the object to which she referred, Barty said, "Mom and I were listening to a book when you got here. This is a talking book."The opening paragraph still lingered in his memory, because he had crafted it with great care: Greetings on this momentous day. I'm writing to you about an exceptional woman, Agnes Lampion, whose life you have touched without knowing, and whose story may interest you..This morning, only his love for his sister, Agnes, gave him the courage to drive and to become the pie man..Repressing a smirk, feigning a respectful solemnity, he dared to glance at Vanadium, but the detective stared into Naomi's grave as though he hadn't heard the mockery-or, having heard it, didn't recognize it for what it was..THE SANDMAN WAS powerless to cast a spell of sleep while Junior spent the night flushing away enough water to drain a reservoir..No. Lampion. Somewhere in your father's French background, there must have been lamp makers. A lampion is a small lamp, an oil lamp with a tinted-glass chimney. Among other things, in those long ago days, they used them on carriages."He knocked the pepper shaker on its side, and then with a groan put it upright once more..Junior reached the window seat and stared down at her. "I don't believe that's true."A nuclear-powered sound system blasted out the Doors, Jefferson Airplane, the Mamas and the Papas, Strawberry Alarm Clock, Country Joe and the Fish, the Lovin' Spoonful, Donovan (unfortunately), the Rolling Stones (annoyingly), and the Beatles (infuriatingly). Megatons of music crashed off the brick walls, made the many-paned metal framed windows reverberate like the drumheads in a hard-marching military band, and created simultaneously an exhilarating sense of possibility and a sense of doom, the feeling that Armageddon was coming soon but that it was going to be fun..Miss White was admitted to St. Mary's late January fifth," said Nolly, "with dangerous hypertension, a complication of pregnancy."A quick review of these book spines revealed that the treasured Zedd collection wasn't here..Sweaty, chilled, trembling, weak-kneed, watery-eyed with self-pity, Junior spread a plastic garbage bag on the driver's seat. He got in the Suburban, twisted the key in the ignition, and groaned as the engine vibrations threatened to undo him..Although Junior continued to feel threatened, continued to trust his instinct in this matter, he didn't devote his every waking hour to the hunt. He had a life to enjoy, after all. Self-improvements to undertake, galleries to explore, women to pursue..To his room then, where they sat side by side in bed, a plate of chocolate-chip cookies between them. Through the evening, they stepped off this earth and out of all its troubles, into a world of adventure, where

friendship and loyalty and courage and honor could deal with any malignancy..On this morning in March, minutes after the pie caravan had departed, Edom got his Ford Country Squire out of the garage and drove to the nursery, which opened early. Spring was drawing near, and much work needed to be done to make the most of the rosarium that Joey Lampion had encouraged him to restore. He happily contemplated hours of browsing through plant stock, tools, and gardening supplies..The reception was from six o'clock to eight-thirty. If she were to arrive on time, guardian angels would have to be perched on all the traffic lights along the way..She got out of the cab and stood on the sidewalk in front of the gallery, her legs as shaky as those of a newborn colt..Vanadium arrived and stood beside Junior. His black suit was cheap, but it fit better than Rudy's..Across the room, the girl on the window seat showed no awareness of his arrival. She sat sideways to him in the niche, with her back against one wall, knees drawn up, a big sketch pad braced against her thighs, working intently with colored pencils..A speeding truck passed, stirring the fog, and the white broth churned past the car windows, a disorienting swirl..Turning his attention to Barty, Obadiah broke into a smile, revealing a gold upper tooth. "Something here is sweeter than that lovely pie. What's the child's name?"..Initially, the Pacific could not be seen beyond an opaque lens of fog, Yet later, when the mist retreated, the sea itself became a portent of sightlessness: Spread flat and colorless in the morning light, the glassy water reminded her of the depthless eyes of the blind, of that terrible sad vacancy where vision is denied..Barty stood in the rain, surrounded by the rain, pummeled by the rain, with the rain. Saturated grass squished under his sneakers. The droplets, in their millions, didn't bend-slip-twist magically around his form, didn't hiss into steam a millimeter from his skin. Yet he remained as dry as baby Moses floating on the river in a mother-made ark of bulrushes..Unfortunately, Caesar Zedd had not written a self-help book on how to commit homicide and escape the consequences thereof, and as before, Junior was entirely on his own..Joey couldn't raise his head, couldn't turn more directly toward her ... because his spine had been damaged, perhaps severed, and he was paralyzed..In retrospect, he realized meditation didn't suit him. It was a passive activity, while by nature he was a man of action, happiest when doing.. "Science. Quantum mechanics. Which is a theory ... of physics. But by theory, I don't mean just wild speculation. Quantum mechanics works. It underlies the invention of television. Before the end of this century, perhaps even by the '80s, quantum-based technology will give us powerful and cheap computers in our homes, computers as small as briefcases, as small as a wallet, a wristwatch, that can do more and far faster data processing than any of the giant lumbering computers we know today. Computers as tiny as a postage stamp. We'll have wireless telephones you can carry anywhere. Eventually, it will be possible to construct single-molecule computers of enormous power, and then technology-in fact, all human society-will change almost beyond comprehension, and for the better."
