

## THE BOOK OF MORMAN

Harrison was a Baptist, Vanadium a Catholic, and although they approached the same faith from different angles, they weren't coming to it from different planets, which was the feeling Vanadium had been left with following their conversation. It was true that Enoch Cain could never be brought successfully to trial for the rape of Phimie, subsequent to her death and in the absence of her testimony. And it was also uncomfortably true that exploring the possibility that Cain was the rapist would tear open the wounds in the hearts of everyone in the White family, to no useful effect. Nevertheless, to rely on divine justice alone seemed naive, if not morally questionable..Celestina checked her wristwatch and saw that she was running late. With Angel's short legs and layers of red, there was no point in trying to hurry..The toast now came to Celestina. "To Phimie, who will be with me in memory every hour of every day for the rest of my life, until she is with me again for real. And to ... to this most momentous day." His dry tongue, his parched mouth, his desiccated throat felt packed fall of sand, and his voice lay buried alive down there..Although Paul had seen Tom Vanadium's clever coin trick, he didn't understand the rest of their conversation, and he assumed that for everyone else-except Angel's mother-it was equally impenetrable. But taking their clue from the risen Celestina, all those present had fallen silent..Five days ago, reasoning that an unscrupulous attorney would know how to find an equally unscrupulous private detective, even across state borders, Junior had phoned Simon Magusson, in Spruce Hills, for a confidential recommendation. Apparently, there also existed a brotherhood of the terminally ugly, the members of which sent business to one another. Magusson-he of the large head, small ears, and protuberant eyes-had referred Junior to Nolly Wulfstan..Friday brought Scamp again, all of Scamp, all day, every way, wall-to-wall Scamp, so on Saturday he hadn't enough energy to do more than shower..She twisted her sweat-drenched face in what might have been frustration, closed her.Agnes meant to stop Maria from turning the eleventh card, but her curiosity was equal to her apprehension.."Indeed, you did," said Magusson. "And I dismissed him as a well intentioned crusader, a holy fool. Looks like you had a better take on him than I did, Mr. Cain."The mound of earth beside the grave had been disguised by piles of flowers and cut ferns. The suspended casket was skirted with black material to conceal the yawning grave beneath it..When Agnes woke at 1:50 A.M., she was in the grip of a vague apprehension for which she couldn't identify a source..Yet the coin was as real as dead Naomi broken on the stony ridge at the foot of the fire tower..Everyone was silent. The day was morgue-still. The crows had fled the sky, but a single hawk gilded soundlessly, like justice with its prey in sight, high above the tower..Neither customers nor staff could be found in the first of the three large rooms. Only cheaper galleries were crowded with browsers and unctuous sales personnel. In an establishment as upscale as Coquin, the hoi polloi were discouraged from gawking, while the high value and extreme desirability of the art were made evident by the staff's almost pathological aversion to promoting the merchandise..As impressed as Agnes had been with the sample orbs that she'd been shown, she allowed no hope that the singular beauty of Barty's striated emerald-sapphire eyes would be re-created. Although the artist's work might be exquisite, these irises would be painted by human hands, not by God's..He also sought a supplier of high-quality counterfeit ID. This proved easier than he anticipated..In the brief silence between cuts on the album, he heard the clink of the wineglass against the bottle of Merlot, as the visitor evidently gathered them from the floor..Dishes dried and put away, Jacob retired to the living room and settled contentedly into an armchair, where he would probably become so enthralled with his new book of dam disasters that he would forget to make luncheon sandwiches until Barty and Angel rescued him from the flooded streets of some dismally unfortunate town..Jolene started to refill his coffee mug-then thought better of it. "Maybe you don't need more caffeine, Edom." Maria Elena Gonzalez, where no one lived with fear like her brothers Edom and Jacob,.It was then that village sorcery, and above all women's witchery, came into the ill repute that has clung to it since. Witches paid dearly for practicing the arts they thought of as their own. The care of pregnant beasts and women, birthing, teaching the songs and rites, the fertility and order of field and garden, the building and care of the house and its furniture, the mining of ores and metals-these great things had always been in the charge of women. A rich lore of spells and charms to ensure the good outcome of such undertakings was shared among the witches. But when things went wrong at the birth, or in the field, that would be the witches' fault. And things went wrong more often than right, with the wizards warring, using poisons and curses recklessly to gain immediate advantage without thought for what followed after. They brought drought and storm, blights and fires and sicknesses across the land, and the village witch was punished for them. She didn't know why her charm of healing caused the wound to gangrene, why the child she brought into the world was imbecile, why her blessing seemed to burn the seed in the furrows and blight the apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was there, right there in the village or the town, not off in the warlord's castle or fort, not protected by armed men and spells of defense. Sorcerers and witches were drowned in the poisoned wells, burned in the withered fields, buried alive to make the dead earth rich again..Junior poured half the vodka over the corpse, splashed some around other parts of the kitchen, and spilled the last on the cook top, where it trickled toward the active burner. This was not an ideal accelerant, not as effective as gasoline, but by the time he threw the bottle aside, the spirits found the flame..When the ophthalmologist saw her misery, his kind face softened further, and his pity became palpable..Jacob didn't know how he could ever bear to look at Agnes when she came home from the hospital. The sorrow in her eyes would kill him as surely as a knife to the heart.."Maybe," said Angel. "Or maybe to The Monkees ... or maybe to where you didn't get run down by the rhinosharush."The blonde was coming on to him, just as a score of other women had done since his arrival, so Junior tried to balance seduction with information gathering. Putting his hand over the hand with which she was gently massaging his thigh, he said, "I knew her brother in Nam. Then I got wounded,

shipped out, lost touch. Like to find him." before used. Boeotian. A dull, obtuse, stupid person. He felt very Boeotian all of a sudden. Whereas the lone heart at the center of the rectangular white field inspired amazement and delight in her brothers and in Maria, Agnes reacted to it with dread. She strove to mask her true feelings with a smile as thin as the edge of a playing card. Now he shuffled the first of the four decks precisely as he had shuffled the first deck on Friday evening, and he set it aside. Under the spoon to catch drips, she conveyed the shimmering sliver to Agnes's mouth. And although Simon would have denied it, would even have joked that a conscience was a liability for an attorney, he possessed a moral compass. When he traveled too far along the wrong trail, that magnetized needle in his soul led him back from the land of the lost. During the following ten days, he withdrew money from several accounts. He converted selected paper assets into cash, as well. "Acute nervous emesis," Junior croaked. "I've never thought of myself as a nervous person." Of course, Angel might have been playing around with the talking book. Or, even though she'd left the dolls downstairs, she might have been filling the time until Barty's return by having a nice chat with Miss Pixie and Miss Velveeta. She had other voices, too, for other dolls, and one for a sock puppet named Smelly. After taking a preliminary statement from Celestina, Bellini left to romance a judge out of bed and obtain a search warrant for Enoch Cain's residence, having already ordered a stakeout of the Russian Hill apartment. Celestina's description of her assailant was a perfect match for Cain. Furthermore, the suspect's Mercedes had been abandoned at her place. Bellini sounded confident that they would find and arrest the man soon. For Junior, 1968--the Chinese Year of the Monkey--would be the Year of the Plastic Surgeon. He would require extensive dermabrasion to restore the smoothness and tone to his skin, to be as irresistibly kissable as he had been before. While at it, he would need surgery to make subtle changes in his features. Tricky. He didn't want to trade perfection for anonymity. He must take care to ensure that his postsurgery look, when he let his hair grow in and perhaps dyed it, would be as devastating to women as his previous appearance. Oblivious that she and Barty had become the center of attention, Angel said, "Does he ever get the quarters back?" Eventually Junior crossed the room to stand before Industrial Woman in all her scrap-metal glory. Her soup-pot breasts reminded him of Frieda's equally abundant bosom, and unfortunately her mouth, open wide in a silent shriek, reminded him of Frieda retching. Mary was at play here, and the sight of her, his first in seven years, almost brought Barty to his knees. She was the image of her mother, and he knew that this must be at least a little bit what Angel had looked like when, at three, she had initially arrived here in 1968, when she explored the kitchen on that first day and found the toaster under a sock. Sklent proved to be angry, suspicious, volatile, but also a man of tremendous intellectual power. A profound and dazzling conversationalist, he rattled off breathtaking insights into the human condition, astonishing yet unarguable opinions about art, and revolutionary philosophical concepts. Later, except in the matter of ghosts, Junior would not be able to remember a single word of what Sklent had said, only that it had all been brilliant and really cool. The hilly streets of the city, ignoring all traffic lights and stop signs, pegging the speedometer needle at its highest mark, as though he might eventually be air-cooled by sufficient speed. He wanted to slam through unwary pedestrians, crack their bones, and send them tumbling. A shock-haired, bright-eyed woman with a candle bound to her forehead set down her pick to show Otter a little cinnabar in a bucket, brownish red clots and crumbs. Shadows leapt across the earth face at which the miners worked. Old timbers creaked, dirt sifted down. Though the air ran cool through the darkness, the drifts and levels were so low and narrow the miners had to stoop and squeeze their way. In places the ceilings had collapsed. Ladders were shaky. The mine was a terrifying place; yet Otter felt a sense of shelter in it. He was half sorry to go back up into the burning day. "At home," Otter said. It wasn't a lie. He did have a pouch at home. He kept his fine-work tools and his bubble level in it. And he wasn't altogether lying about the wind. Several times he had managed to bring a bit of magewind into the sail of a boat, though he had no idea how to combat or control a storm, as a ship's weatherworker must do. But he thought he'd rather drown in a gale than be murdered in this hole. Cradling the baby, the nun turned with it to Celestina, folding back a thin blanket to present her with a good look at the tiny girl. Another of Junior's self-improvement projects, since moving to California, was to become a knowledgeable gourmet, also a connoisseur of fine wines. San Francisco was the perfect university for this education, because it offered innumerable world-class restaurants in every imaginable ethnic variety. "Why? What was he going to get out of it?" NORTHBOUND ON THE coastal highway, headed for Newport Beach, Agnes saw bad omens, mile after mile. Maria's face gathered into a frown, like a piece of brown cloth cinched by a series of whipstitches. "Six lessons." He doubted that the singer had been Victoria Bressler, dead nurse, but he believed this was the same voice he'd heard on the telephone, back on the twenty-fifth of June, when someone purporting to be Victoria had called with an urgent warning for Bartholomew. When finally he found his voice, it was rough-sawn with a blade of grief. "My wife. Perri. Perris Jean." A blood test might prove that Junior was the father. Accusations might sooner or later be made against him by bitter and hate-filled members of her family, perhaps not even with the hope of sending him to prison, but solely for the purpose of getting their hands on a sizable pan of his fortune, in the form of child support. There in more genteel and gilded ages, and her flights of imagination sometimes acquired such vivid detail that they were eerily like memories. "I thought so," Angel said, dubious squinching her face. "Mrs. Ornwall made me cheese." Celestina was maneuvered aside as the surgical team began resuscitation procedures. Stunned, she backed away from the table until she encountered a wall. In southern California, as dawn of this new momentous day looms. The hateful window. The hateful, frozen window. Celestina wrenched on the crank with all of her strength, and felt something give a little, wrenched, but then the crank popped out of the socket and rapped against the sill. Now, Obadiah produced a pack of playing cards as though from a secret pocket in an invisible coat. "Like to see a little something?" Agnes's faith told her that the world was infinitely complex and full of mystery, and in a peculiar way, Barty's talk of infinite possibilities supported her belief and gave her the comfort to

sleep. Monday morning, New Year's Day, Agnes carried two suitcases out of the back door, set them on the porch, and blinked in surprise at the sight of Edom's yellow-and-white Ford Country Squire parked in the driveway, in front of the garage. He and Jacob were loading their suitcases into the car. In the physician's eyes, a yearning to believe. In his face, a squint of skepticism. He'd once spoken that very sentiment to her. Golden haze, sun in the heart. His words had melted her, tears had sprung into her eyes, and sex been better than ever. Tom Vanadium liked this man at once. Cop instinct told him that Damascus was honest and reliable. Priestly insight suggested even more impressive qualities. Without a word, Joshua Nunn and the paramedic retreated to the foyer. The parlor doors slid shut. At the open kitchen door, arms laden with a stack of four bakery boxes, her mother said, "Will you get those last four pies for me there on the table? And don't jostle them, dear." On the afternoon of November ninth, when Paul and Barty were with her, reminiscing, and Angel was in the kitchen, getting drinks for them, his mother gasped and stiffened. Breathless, she paled past chalk, and when she could breathe and speak again, she said, "Get Angel now. No time to bring the others." By the time he ordered cr?me brulee for dessert, he was able to laugh at himself. Had he expected to see a ghost enjoying a cocktail and free cashews at the bar? mother's understanding of the world and of her own existence. Unlike most other toddlers, Barty was entirely comfortable with change. From bottle to drinking glass, from crib to open bed, from favorite foods to untried flavors, he delighted in the new. Although Agnes usually remained near at hand, Barty was as pleased to be put temporarily in the care of Maria Gonzalez as in the care of Edom, and he smiled as brightly for his dour uncle Jacob as for anyone. "Our little girl's going to walk backward her whole life if you drive in reverse all the way to the hospital." An IV rack stood beside the bed, dripping fluid into his vein, replacing the electrolytes that he had lost through vomiting, most likely medicating him with an antiemetic as well. His right arm was securely strapped to a supporting board, to prevent him from bending his elbow and accidentally tearing out the needle. The coin stopped turning, pinched flat between the knuckles of the cops middle and ring fingers. He retrieved a box of Kleenex from the nightstand and offered it to his suspect. "Here." The muffling fog quieted the city as much as obscured it, and the alley was surprisingly still. Many of the businesses were closed for the night, and as far as Junior could discern, no delivery trucks or other vehicles were parked the length of the block. Even above the piston-knock of her heart and the bellows-wheeze of her breath, Celestina heard wood crack, a small pane of glass explode, and metal torque with a squeal. The creep was going to get away. "Better. Fear doesn't require him even to seduce a woman or to buy a bottle of whiskey. He just needs to open himself to it, and he will be filled like a glass under a faucet. As difficult as this may be to comprehend, Cain would choose to be neck-deep in a bottomless pool of terror, desperately trying to stay afloat, rather than to suffer that unrelieved hollowness. Fear can give shape and meaning to his life, and I intend not merely to fill him with fear but to drown him in it." The bow business had started a few months ago. Angel said she wanted to look pretty in her sleep, in case she met a handsome prince in her dreams. "I mean it. You have a lot of responsibilities here. Barty. Pie Lady Services. People who depend on you. Friends who love you. When you came on board with me, mister, you bought into a whole lot more than you can walk away from." The universe was vast and Barty small, yet the boy's immortal soul made him as important as galaxies, as important as anything in Creation. This Agnes believed. She couldn't tolerate life without the conviction that it had meaning and design, though sometimes she felt that she was a sparrow whose fall had gone unnoticed. Barty sat on the edge of the doctor's desk, legs dangling, holding Red Planet, his place marked by an inserted finger. Junior tossed garments on the floor and across the bed to create the impression that the detective had packed with haste. After being imprudent enough to blast Victoria Bressler five times with his service revolver-perhaps in a jealous rage, or perhaps because he had gone nuts-Vanadium would have been frantic to flee justice. So it became dangerous to practice sorcery, except under the protection of a strong warlord; and even then, if a wizard met up with one whose powers were greater than his own, he might be destroyed. And if a wizard let down his guard among the common folk, they too might destroy him if they could, seeing him as the source of the worst evils they suffered, a malign being. In those years, in the minds of most people, all magic was black. Finally, only thirty miles south of Spruce Hills, he reluctantly acknowledged that slow deep breathing, positive thoughts, high self esteem, and firm resolve weren't sufficient to subdue his treacherous bowels. He needed to find lodging for the night. He didn't care about a swimming pool or a king-size bed, or a free continental breakfast. The only amenity that mattered was indoor plumbing. Sitting on a stool at the counter, he ordered a cheeseburger, coleslaw, french fries, and a cherry Coke. "Thanks, Sparky, but not tonight. I'm thinking of taking a look around downstairs if old Nine Toes isn't stuck at home tonight with a case of paralytic bladder." Putting one hand on the object to which she referred, Barty said, "Mom and I were listening to a book when you got here. This is a talking book." "The Finder" takes place about three hundred years before the time of the novels, in a dark and troubled time; its story casts light on how some of the customs and institutions of the Archipelago came to be. "The Bones of the Earth" is about the wizards who taught the wizard who first taught Ged, and shows that it takes more than one mage to stop an earthquake. "Darkrose and Diamond" might take place at any time during the last couple of hundred years in Earthsea; after all, a love story can happen at any time, anywhere. "On the High Marsh" is a story from the brief but eventful six years that Ged was Archmage of Earthsea. And the last story, "Dragonfly," which takes place a few years after the end of Tehanu, is the bridge between that book and the next one, The Other Wind (to be published soon). A dragon bridge..being careful to place the point of impact precisely where the bottle had struck her. Ordinarily, a child of three would be too young to learn the use of a blind man's cane, but Barty wasn't ordinary. Initially, no cane was available for such a small child, so Barty began with a yardstick sawn off to twenty-six inches. By his last day, they had for him a custom cane, white with a black tip; the sight of it and all that it implied brought tears to Agnes just when she thought her heart had toughened for the task ahead. "I was never Cary Grant, to begin with," said Vanadium, still

ceaselessly rolling the quarter across his fingers, "so I had no big emotional investment in my appearance. Cosmetic surgery would have added another year of recuperation time, probably much longer, and I was anxious to get after Cain. Seemed to me this mug of mine might be just the thing to scare him into an incriminating mistake, even a confession." On the nightstand waited a glass of water on a coaster and a pharmacy bottle containing several capsules of a potent painkiller. The weather was good, so he went for a walk, though he crossed the street repeatedly to avoid passing newspaper-vending machines. An SFPD patrol car swept past, its siren silent, the rack of emergency beacons flashing on its roof. He told her that he loved her, and she slipped away upon his words. As she went, the haggard look of the terminal leukemic patient passed from her, and before the gray mask of death replaced it, he saw the beauty he had preserved in memory when he was three, before they took his eyes, saw it so briefly, as if something transforming welled out of her, a perfect light, her essence. People that he was innocent and, in fact, constitutionally incapable of premeditated murder. The day before Christmas, along the California coast. Although sun gilded the morning, clouds gathered in the afternoon, but no snow would ease sled runners across these roofs. The Beatles began singing the number-one song, "I Feel Fine," as Junior turned off the county highway and followed the lake road northeast around the oil-black water. They had two titles in the American top five. In disgust, he switched off the radio. Dessert was on the house. The waiter brought the four best items on the menu, to spare them the need to make two small decisions after having made such a big one. Although she would have felt ridiculous phrasing this question in these words to any other three-year-old, no better way existed to ask it of her special son: "Kiddo ... do you realize you're speaking of your dad in the present tense?" Although weak, he was no longer in danger of spewing bile and blood like a harpooned whale. The siege had passed. A sense of mystery overcame Agnes, unnerving but not entirely or even primarily unpleasant. "I'm going to tell you something about your father that might comfort you," he said, "but you can't ask me for more than I'm ready to say right now. It's all a part of what I'll discuss with you in Bright Beach." Indeed, the winter storm had dampened neither his hair nor his clothes. The rain appeared to slide away from him a millimeter before contact, as though the water and the man were composed of matter and antimatter that must either repel each other or, on contact, trigger a cataclysmic blast that would shatter the very foundation of the universe. Edom bit his lower lip, shook his head, and stubbornly clung to Barty's left foot. Without ceremony or prayer, although with much righteous anger, Junior hoisted the dead musician over the lip of the Dumpster. For a dreadful moment, his left arm tangled in the loosely cinched belt of the London Fog raincoat. Straining a shrill bleat of anxiety through his clenched teeth, he desperately shook loose and let go of the body. Indeed, he would get through the rest of 1965 without resorting to another homicide. The nonfatal shooting in September would be regrettable, quite messy, painful-but necessary, and calculated to do as little damage as possible. Mary Lampion, little light, was home-schooled as her father and mother had been. But she didn't study just reading, writing, and arithmetic. Gradually she developed a range of fascinating talents not taught in any school, and she went exploring in a great number of the many ways things are, journeying to worlds right here but unseen. "Yes?" the silver-haired eminence replied, wrinkling his nose as though he suspected that this customer would ask if the display pedestal was included in the price. The tone sounded, as promised, and a man's voice spoke from the box: "It's Max. You're psychic. I found the hospital here. Poor kid had a cerebral hemorrhage, arising from a hyperensive crisis caused by ... eclampsia, I think it is. Baby survived. Call me, huh?" Junior worried that he might not locate the correct Dumpster among the many. Yet he didn't switch on the flashlight, suspecting that he would be better able to find his way if the conditions of darkness and fog were exactly as they had been earlier. In fact, this proved to be the case, and he instantly recognized the hulking Dumpster when he came upon it. Barty, at the head of the table, sensed Mary's approach only as she was about to touch him. She put a hand on his arm and said, "Daddy, will you turn your chair away from the table and let me sit on your lap?" Paul realized that the kitchen had fallen silent, that the women had turned to the two children and now stood as motionless as figures in a waxworks tableau. Agnes, who inherited the property, would have welcomed her brothers in the main house. Although both were willing to visit her for an occasional dinner or to sit in rocking chairs on the porch, on a summer night, neither could abide living in that ominous place. Junior had seen the silvery coin snapping off the cop's thumb and spinning upward. Now it was gone, as though it had vanished in midair. "Mom always says that pigs will surely fly one day if ever Daddy chooses to convince them that they've got wings." He snatched the woman's car keys off the pavement, slid behind the wheel of the Pontiac, and drove off to find a pharmacy, the only stop that he intended to make until he reached Spruce Hills. Junior closed his weary eyes and gratefully submitted as the paramedic wiped his greasy face and his crusted lips with a cool, damp cloth. "That's kind of you," Panglo stammered, "but I have little time for reading, very little time." NOLLY WULFSTAN, private detective, had the teeth of a god and a face so unfortunate that it argued convincingly against the existence of a benign deity. Yet, uncaught, the quarter would have dropped to the floor. Junior would have heard it ring off the tiles. Which he hadn't. He raised one hand to halt the genteel debate. "The whole reason I stopped here first, before taking you folks on to my place, is so I wouldn't have to bring your suitcases back after Agnes won you over. This is where you'll be happiest, though you're always welcome if she tries to work you to death." She wasn't listening closely to him. Numb. She felt as though she were half anesthetized. She was looking past him, at nothing, and his Voice seemed to be coming to her through several layers of surgical masks, though he now wore none at all. At one point late in the afternoon, as all three Hackachaks were hurling scorn and invective at Junior, he noticed Vanadium standing in the doorway, observing. Perfect. He pretended not to see the cop, and when next he sneaked a look, he discovered that Vanadium had vanished like a wraith. A thick slab of a wraith. A cast-bronze figure, fixed to lacquered walnut in want of raw dogwood, suffered above the bed. This crucifix, contrasting starkly with the white walls, reinforced the impression of monastic economy. In the morning, after their

first night together, without either of them suggesting what must be done, Barty and Angel went in silence into the backyard and, together, climbed the oak, to watch the sunrise from its highest bower. Three years later, on Easter Sunday in 1986, the fabled bunny brought them a gift: Angel gave birth to Mary. "It's time for a nice ordinary name in this family," she declared..The owner, also the pilot on this trip, was pleased to be paid cash in advance, in crisp hundred-dollar bills, rather than by check or credit card. He accepted payment hesitantly, however, and with an unconcealed grimace, as though afraid of contracting a contagion from the currency. "What's wrong with your face?" Ordinarily, she would have returned to the first of the candles and offered a second fragment to Saint Peter. In this case, however, she entrusted it to the least known of the apostles, because she was sure that he must have special significance in this matter.."You haven't had previous episodes like this?" Parkhurst asked, standing at the bedside with a file folder in his hands, half-lens reading glasses pulled down to the tip of his nose..Everyone from the pie caravan had gathered under the oak. The entire family, in its many names, adults and children, heads tipped back hands shielding their eyes from the late sun, watched Barty's progress in all but complete silence..Caesar Zedd recommended not merely seizing the day but devouring it. Chew it up, feed on the day, swallow the day whole. Feast, said Zedd, feast, approach life as a gourmet and as a glutton, because he who practices restraint will have stored up no sustaining memories when famine inevitably comes..Occasionally he woke in the night and heard himself murmuring the mantra aloud, which apparently he had been repeating ceaselessly in his sleep. "Find the father, kill the son." In April, Junior discovered three Bartholomews. Investigating these targets, prepared to commit homicide, he learned that none had a son named Bartholomew or had ever adopted a child..Captivated by catastrophe, so lost in his book that he might as well have stepped magically inside of it and closed the covers after himself, Uncle Jacob didn't answer..From the floor, Junior snatched up the bottle of wine that had twice failed to shatter. His lucky Merlot..Prudence required that they strategize as though Enoch Cain were Satan himself, as though every fly and beetle and rat provided eyes and ears for the killer, as though ordinary precautions could never foil him..Raising one hand, wiggling the fingers, he said, "Toes, toes, toes, toes, toes." Tongue clamped between his teeth as he concentrated on keeping the blue crayon within the lines of the bunny, Barty nodded. "Yeah.."Why should I be afraid of a stumbling blind boy?" asked Junior again. But this time the words issued from him in a different tone of voice, because suddenly he sensed something knowing in this boy's attitude, if not in his manufactured eyes, a quality similar to what the girl exhibited..He rolled Neddy onto one side, but no gold watch lay underneath, so he let the musician flop onto his back again..She was of two minds about this. She wanted him, wanted to be held and cherished, to satisfy him and to be satisfied. But she was the daughter of a minister: The concept of sin and consequences was perhaps less deeply ingrained in some daughters of bankers or bakers than in a child of a Baptist clergyman. She was an anachronism in this age of easy sex, a virgin by choice, not by lack of opportunity. Although she'd recently read a magazine article containing the claim that even in this era of free love, forty-nine percent of brides were virgins on their wedding day, she didn't believe it and assumed that she'd chanced upon a publication that had fallen through a reality warp between this world and a more prudish one parallel to it. She was no prude, but she wasn't a spendthrift, either, and her honor was a treasure that shouldn't be thoughtlessly thrown away. Honor! She sounded like a maid of old, pining in a castle tower, waiting for her Sir Lancelot. I'm not just a virgin, I'm a freak! But even putting the idea of sin aside for a moment, assuming that maidenly honor was as pass? as bustles, she still preferred to wait, to savor the thought of intimacy, to allow expectation to build, and to start their conjugal life together with no slightest possibility of regret. Nevertheless, she had decided that if he was ready for the commitment that she believed he'd already teetered on the edge of expressing three times, then she would set aside all misgivings in the name of love and would lie down with him, and hold him, and give of herself with all her heart..At a point where deep water met the shoreline, Junior drove off the road and onto the strand. He parked twenty feet from the water, facing the lake, and switched off the headlights and the engine.."Oh, Wally, I am worried. I'm deeply worried. My mama is going to buy herself a first-class ticket to the fiery pit if she doesn't stop this prevaricatin'!"
