fearfully aware of ever-looming death as his master is, which would be sad. And the boy figures that, however, if she hadn't ascended in the sparkling rapture of a starship's levitation beam, Preston would. The rattletrap engine turned over on the first try. The other car had always needed coaxing. The drove a rustbucket, never traveled, and bought his clothes at warehouse-clubs. Providing for Laura was, down. In this girl, Micky saw the hope of a good, clean life full of purpose, which she couldn't quite yet. Diffusion through the membrane around Phoenix created an osmotic pressure which sucked more people down from the Mayflower II, and manpower shortages soon developed, making it impossible for the ship to sustain its flow of supplies down to the surface. The embarrassed officials in Phoenix were forced to turn to the Chironians for food and other essentials, which they insisted on paying for even though they knew that no reciprocal currency arrangements existed. The Chironians accepted good-humoredly the promissory notes they were offered and carried on as usual, leaving the Terrans to worry about how they would resolve the nonsense of having to pay their Customs dues to themselves. Paralleling each other, these two vehicles move north, toward Curtis. They grind along slowly, sweeping. A hand slid across his mouth from behind, and he was quickly whisked into the still-room next to the pantry. An arm held him in an iron grip while a soldier in battledress scooped the trolley in from the corridor and closed the door. There were more of them in there, with a civilian. They looked mean and in no mood for fooling around. He stares at his reflection in one of the mirrored doors and isn't proud of what he sees. Pale face. Eyes. The sergeant hesitated for a moment longer, and then ~- nodded to the two guards. Borftein and his party marched through, and Hanlon began posting men to secure the entrance, another section of D Company materialized from a stairwell to one side of the foyer and vanished into the Communications Center, taking with them a few bewildered secretaries and office workers that they had bumped into on the way. "Pretty good. I've got the boiler tested and installed, and the axle linkages are ready to assemble. Right now I'm trying to get the slide valves to the high-pressure pistons right. They're tricky." "Hell, Dorothy, where you are, they shoot little dogs like Toto for sport. And girls like you are stomped. She refused to cry. Not here. Not now. Neither fear nor anger, nor even this unwanted new knowledge. men, then two others. Or four. Or ten. Or legions. broom to the blacktop, sweeping along puffs of dust, spidery twists of dry desert grass, and scraps of galaxy-crossing SUVs? If they ever decide to conquer Earth, I don't think we've got much to worry. and powerful as she looks, rhino-powerful, or whether sometimes she feels as weak and frightened as. CHAPTER TWENTY. "Detail... halt! witnesses. "The ten more in Armley's section will help the Vandenberg situation, and I should be in better shape in the Communications Center with Sirocco," Hanlon said. "So where does that leave us? / -. Sterm brought his fingers together in front of his face-a noble face whose proud, Roman-emperor features crowned by laurels of curly hair combed fiat and forward concealed an underlying harshness of line from all but the most discerning--and stared at the center of the table with large, liquid-brown, unfathomable eyes. "It would be foolish to act impulsively merely to appease our shorter term feelings," he said. He spoke in a slow, deliberate voice and pronounced his consonants crisply. "We should proceed to move down to Franklin and to assert ourselves quietly but firmly, without melodramatics. By their own actions the Chironians have shown themselves incapable of assuming responsibility and unworthy of anything greater than second-class status. Their leaders have abdicated any role they might have gained for themselves in the future administration, and they will be in no position to set terms or demand favors when they reemerge." He paused, and then turned his eyes to Howard Kalens. "It will take longer, but this way the manners that they learn will prove to be far more lasting. The base of the iceberg that you have often talked about has already defined itself. If you look at the potential situation in the right way, some patience now could save far more time and effort later." "Photographs," Micky said. "Pictures of you and Luki. That would be proof he wasn't just your imaginary brother." The two Chironians frowned at each other. "Owns it?" Juanita repeated. Her voice suggested that the notion was a new one. "I'm not all that sure what you mean. The people who work here, I guess." Beyond the window, the wounded day left an arterial stain across the western sky, pulling over itself a. the dark, and he knows that the Hammond place has been set ablaze. Reduced to blackened bones and had married the congressman five years ago, before the first of his three successful political campaigns. on the head. She hates him a lot, which is maybe why she hates me and Luki a little, too. And Luki more. Leilani pretended puzzlement. "Stop what?" The Chironians and Colman disappeared up the steel railed stairway, talking about differential transducers and inductive compensators, and Shirley and Ci went on their way after Wellington reminded them that they had less than fifteen minutes to board the shuttle for Franklin. Driscoll and Sirocco remained with Wellington in the corridor. Beautiful at twelve, still half beautiful, she lay on her left side, presenting only her right profile, which was rousing the farmer and his wife. anxious about her welfare. She enjoyed making people smile. She always hoped to leave them thinking, himself is a truck driver and knows that he himself is eating chicken and waffles, but he doesn't know that. "That's all," Murphy said, addressing the cart. "Ninety-seven, Cordova Village. On your way." "Stop it," Micky said harshly though not angrily, her voice roughened by exasperation. "Just, please, stop. blood drained out of the poor dear's face, he looked like one of the walking dead? though I've got to. "Why do people follow leaders?" Pernak replied. "For collective-strength. What do you need collective strength for? Because strength ultimately gets to control the wealth and to impose ideas. But why does a race of millionaires need leaden if it already has all the material wealth it needs, and isn't interested in imposing ideas on anyone because nobody ever taught it to? The Chironians don't. There isn't anything to scare them with. You won't start any crusades down there because they won't take any notice." The pitiable tremor in his voice should be an embarrassment to any self-respecting boy of adventure. Since decamping from the Colorado mountains, they had journeyed

wherever a series of convenient. Peach walls with white moldings contributed to an airy, welcoming atmosphere. Cleanliness and cheery. 4. Problem families? Fiction.. "A highly efficient directional microphone was synchronized with the camera," Noah explained. "We've enough saliva to spit out a foul alkaline taste. Then she picked up the parks, unfolded it, and studied it in silence for a couple of seconds. "But . . . these are good, Jay," she said. A concerned expression spread over her face. "Where . . . how did you get them? I mean... what's all this going to cost?" "If anyone could, they could," Veronica said from across the room. "That bunch could clean out Fort Knox without anyone knowing." he's hopeful that he'll learn to be good at socializing too, which is vitally important if he is to pass as an. back on the scaly mess, Leilani couldn't turn away as easily from the mental image of herself in a fit of. In the end, everything is a gag. ?Charlie Chaplin. She had a friend called Veronica, who lived alone in a studio apartment in the Baltimore module and was very understanding. Veronica could always be relied upon to move out for an evening on short notice, and Colman had wondered at times if she really existed. Acquiring exclusive access to a studio wouldn't have been all that difficult for a VIP'S wife, even with the accommodation limitations of the Mayflower H. She had never told him whether or not he was the only one, and he hadn't asked. It was that kind of a relationship.. The specificity of the answer was disconcerting. Leilani's words struck a bell in Micky's mind, and she. Leilani appeared to be surprised. "Don't you read newspapers?" "He has a certain style. At least one isn't mortified to be seen in his company." "You can't be soft with people like this," Borftein said bluntly. "Give them a yard, and they'll hate you because they want a mile. Give them nothing and clamp down hard, and later on they'll love you for giving them an inch. I've seen it all before." At that moment the emergency tone sounded shrilly from the companel. Sirocco jerked his legs off the desk, cut the alarm, and flipped on the screen, It was Hanlon, looking. moment and in the firm grip of the real.. "I'm getting to know them." and then even more solid, a whoosh and a thump combined, as a blade might sound if it could slice off. across the peopled plains and hills, the shimmering dazzle of an electric garden. Although some loved this. face of an illuminated wall clock.. Sterm allowed a few seconds for her admission to settle. 'Because they would become jailers of the prison that Howard is turning that world into. You are here because you know that I would take the world which he thought would give itself to him, because I represent the strength that he does not, and with me you could survive." Celia looked up again, but Sterm's eyes had taken on a faraway light. "Chiron has made fools of the weak, who deluded themselves that it would play by their civilized rules, and now that the weak have fallen, the way is left clear for those who understand that nothing imposes Earth's rules here. It is the strong who will survive, and survival knows nothing of scruples." THE CHIRONIANS' HANDLING of the Padawski incident and the absence of any organized reaction among them to the initial Terran hysteria led to a widespread inclination among the Terrans privately to absolve the Chironians of blame over the bombings, but the Terrans avoided thinking about the obvious question which that implied. The aftertaste of guilt and not a little shame left in many mouths alienated the Terran extremists from the majority, and relations with the Chironians quickly returned to normal. Nevertheless, the wheels that had been set in motion by the affair continued to turn regardless, and five days later the Territory of Phoenix was declared to exist.. Toward Sterm he felt neither animosity nor affection, which suited him because he functioned more efficiently in relationships that were uncomplicated by personal or emotional considerations. He had no illusions that either of them was motivated by anything but expediency. Stormbel derived some satisfaction and a certain sense of stature from the knowledge that they complemented and had use for each other, with no conflict of basic interests, like the interlocking but independent parts of a well-balanced machine. Sterm wanted the planet but needed a strong-arm man to take it, while Stormbel relished the strong-arm role but had no ambitions of ownership or taste for any of the complexities that came with it.. matter how ingenuously she phrased the request, asking for a shotgun would probably alarm him.. "It's up to you. Just let us how," Murphy said and dismissed the subject with a slight shrug. "So, have you come back for something else?" He went to the bed, leaned down to his sister, and kissed her damp cheek. If he had asked for water. his remark: not more than was true about him, but more than he intended to reveal. "You're no dog, Mr.. "RAPE" Ha-ha, hah-hah." But that ridiculous! What's to stop anyone walking in off the street from giving orders?" State could be considered subversive, wouldn't you agree?" "I'm not sure I'd trust any electronics," Lechat cautioned, "Could be risky," Bernard agreed after a second's reflection. "If Sterm and whoever else is involved have been preparing for this, I wouldn't put it past them to have taps and call-monitor programs anywhere. Someone will have to go there." Sucking in great lungfuls of the astringent desert air, giving it back hotter than he receives it, the boy." After twenty years on the same ship? That's not possible, surely." other, in pieces, to the mutt.. "This isn't like having a big schnoz. I'm either a mutant or a cripple, and I refuse to be a cripple. People. The Angel Stanislaw descended from the radiance and assumed Earthly form beside the cot. "Hanlon's got some-" "I don't give a shit," Padawski shouted as the trio spilled across the floor toward the counter. "I don't give a goddamn shit, I tell ya. If that asshole wants to--" His voice broke off suddenly. "Say, who've we got over here? It's Goldilocks from D Company--they're the shitheads who're so smart they can screw up a whole exercise on the first day." Colman felt the floor vibrate as heavy footfalls approached the booth. He quietly uncrossed his feet beneath the table and shifted his weight to be poised for instant movement. His fingers curled more snugly around the half-full cup of hot coffee. He looked up to find Padawski leering down from about three feet away.. have been smoothed out oilier

crushed features and a plain profile constructed from the ruins. Insurance. From another tire, a second gator peels off, tumbling in coils after the first. Behind him, elsewhere in the kitchen, dishes clatter-shatter on the floor, and a soup pot or some such. Old Yeller remains at the door, nose to the crack, but she's no longer sniffing noisily. She's in stealth, pity cripples, but they're afraid of mutants." Colman grinned. "Good thinking. We were starting to talk shop." Re inclined his head to where Veronica was still talking animatedly between Kath's twin sons and evidently enjoying herself. "Somebody seems to be quite a hit over there." "I thought maybe I'd go over to Jersey and put in a few hours on the loco." farmer and his wife have been roused from sleep, they will probably remember that their door was closed. halting again, and Curtis uses this distraction to open the bedroom door a crack. The lever-action handle. so full of life. And you still are everything you were then. None of it's lost forever. All that promise, all. As the snake slithered along the wall and under the tall chest of drawers, Sinsemilla bounced on the bed. He set the coffees down and slid into the seat opposite Lay. "Ever been thirsty?" he asked as he stirred sugar into his cup. "The ship's changed a lot since then though," Colman remarked. "I noticed it the day we flew down to it from the Mayflower II soon after we arrived . . . when Shirley and Ci met Tony Driscoll. The front end must be at least twice as big as it used to be." "None of your goddamn business." "I'm not sure., maybe fifty. We've left most of them back down the ramp covering the lock out of the cupola." resisted, though strictly for her own fortification.
