Those eyes burned right through Ike and Eli and Dan and me, as though we weren't even there, then swept upward, absorbing the entire Project with a single glance. Jason said the standard fee, a year ago, for a single sticker had been a thousand dollars; two and a half for a pair, since people with two blanks to fill could be presumed to be that much more desperate. Due however to a recent disproportion between supply and demand, the going price for a single was now seventeen hundred; a double, a round four thousand. Think about it. When summer comes, the conditions will be very different. The atmosphere will be almost as dense as ours, with about the same partial pressure of oxygen. By then, thousands of years from now, these early forms will have vanished. These things are adapted for low pressure, no oxygen, scarce water. The later ones will be adapted to an environment much tike ours. And that's when we'll see the makers, when the stage is properly set."
