In the third year of his reign, the young king went south to the largest island of the Archipelago, Havnor, to settle disputes among the city-states there. Returning in his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with Elfarran. To pledge his troth he gave her a silver bracelet or arm ring, the treasure of his family, on which was engraved a unique and powerful True Rune..the use of a gift of power, he thought, if not to get out of a trap?.The clouds darkened. She didn't understand him, but the idea of fearing him, him personally, was not one she could keep in mind. She tried to be respectful, but it was impossible. She thought he was clever and quite handsome, but she didn't think much about him, except for what he could tell her. He knew what she wanted to know and little by little he told it to her, and then it was not really what she had wanted to know, but she wanted to know more. He was patient with her, and she was grateful to him for his patience, knowing he was much quicker than she. Sometimes he smiled at her ignorance, but he never sneered at it or reproved it. Like the witch, he liked to answer a question with a question; but the answers to Rose's questions were always something she'd always known, while the answers to his questions were things she had never imagined and found startling, unwelcome, even painful, altering all her beliefs..outer courts. . . He wished his son would play with boys his own age, his own sort, from the respectable families of Glade. Tuly insisted on calling the witch "the wisewoman," but a witch was a witch and her daughter was no fit companion for Diamond. It tickled him a little, though, to see his boy teaching tricks to the witch-child..the Language of the Making. It was somewhere else, being eaten up with worry or fear or shame.."It's not my word, it's Waris's. But they've refused. They want the Rule of Roke to separate men from women, and they want men to make the decisions for all. Now what compromise can we make with them? Why did they come here, if they won't work with us?".He made the sign; she looked at him for a moment. "That's easy," she said softly, and made the sign in return, "but not always safe, among strangers.".He was half asleep, sitting on the ground in the shade by the barracks, the smell of the logs stacked by the roaster tower bringing him a memory of the work yards at home, the fragrance of new wood as the plane ran down the silky oak board. Some noise or movement roused him. He looked up and saw the wizard standing before him, looming above him.
