

THE GIANT JUMPEREE

"Sometimes these sympathetic vibrations are very apparent, but a lot of the time, they're so subtle that you can hear them only if you're unusually perceptive." Minutes later, once more in a corridor conference with Dr. Daines, she was forced to temper her new optimism. This graciousness didn't free Paul to speak. Instead, he felt his throat thicken, trapping his voice more tightly still. The social worker and her family. Husband, wife, daughter, son. The little girl smiled shyly through braces. The boy was impish. On the sofa, Celestina finally worked up the courage to dial her parents' number in Spruce Hills. In retrospect, he realized meditation didn't suit him. It was a passive activity, while by nature he was a man of action, happiest when doing. A lamp with a fringed silk shade spread small feathery wings of golden light over one corner of the living room. On the coffee table were three decorative blown-glass oil lamps, ashimmer. If the wife killer had cut himself accidentally, his writing on the wall indicated a hair-trigger temper and a deep reservoir of long-nurtured anger. This didn't seem strange to him. Among the many things that no longer mattered were the concepts of distance and time. They agreed that to the outside world, Barty must continue to appear to be a sightless man or otherwise either be treated like a freak or be subjected, perhaps unwillingly, to experimentation. In the modern world, there was no tolerance for miracles. Only family could be told of this development. He picked up Angel, picked up Barty. "Hold on." He carried them out of the room, down the stairs, out of the house, to the yard under the great tree, where they would wait for the police, and where they would not see Jacob's body when the coroner removed it by way of the front door. He didn't want to lean inside and peer over the front seat. He had no weapon. He would be unbalanced, vulnerable. "Naomi, are you in there?" Junior whispered again, peering into the windows of the girl's soul. Symptoms of food poisoning usually appear within two hours of dining. The hideous intestinal spasms had rocked him at least six hours after he'd eaten. Besides, if the culprit were food poisoning, he would have vomited; but he hadn't felt any urge to spew. Permissions Department, Harcourt, Inc., 6277 Sea Harbor Drive, Orlando, Florida 32887-6777. www.harcourt.com "Darkrose and Diamond" first appeared in The Magazine of Fantasy and Science Fiction. Although Dr. Lipscomb spoke almost as softly as the long-winded pianist, and though the physician's narrow face was homely and devoid of any trace of violent temperament, Neddy Gnathic flinched from him and retreated across the threshold, into the hallway. Her strength was the strength of stones only in the sense that she felt as immovable as rock, yet she found the resources to raise one arm, to place her left hand over Maria's bead-tangled fingers. "But the baby's dead." Part of him knew this sound was his heartbeat, not the footfalls of an otherworldly pursuer, but that part of him wasn't dominant at the moment. He moved faster, not exactly running, but hurrying like a man late for an appointment. Did she poison herself as well? Was it her intention to kill him and commit suicide? Into new avenues of the labyrinth he moved, but then back again, back upon his own trail, twisting, turning, from the occult to modern literature, from history to popular science, and here the occult once more, always the shadow glimpsed so fleetingly and so peripherally that it might have been imagination, the scent of a woman no sooner detected than lost again in the perfumes of aging paper and bindery glue, twisting, turning, until abruptly he stopped, breathing hard, halted by the realization that he hadn't heard the singing in some time. "Wrong about what, sugarpie smooch-smooch?" Celestina asked as Wally pulled to the curb again and parked. Charmed by the vulnerability of the young, he'd never slept with an older woman. The prospect intrigued him. She would have tricks in her repertoire that younger women were too inexperienced to know. Olive complexion, no less smooth than the skin of a calamata. Eyes as lustrous as pools shimmering with a reflection of eternity and stars. Now out of the kitchen, along the hall, and up the stairs, two at a time, into Victoria's bedroom. Not with the intention of snaring a perverse souvenir. Merely to find a blanket. "No, no. But being around him so much, inevitably I absorb some details. He's a compelling speaker when the subject interests him." Renee Vivi spoke with a silken southern accent. Vivacious without being cloyingly coquettish, well-educated and well-read but never pretentious, direct in her conversation without seeming either bold or opinionated, she was charming company. Ordinarily, she would have returned to the first of the candles and offered a second fragment to Saint Peter. In this case, however, she entrusted it to the least known of the apostles, because she was sure that he must have special significance in this matter. He hurried into the bedroom and switched on the nightstand lamp, without concern for whether the light might be seen from the street. Junior worried that he might not locate the correct Dumpster among the many. Yet he didn't switch on the flashlight, suspecting that he would be better able to find his way if the conditions of darkness and fog were exactly as they had been earlier. In fact, this proved to be the case, and he instantly recognized the hulking Dumpster when he came upon it. Their struggle to put their sorrow into words moved Agnes not because they cared so deeply, but because in the end they were unable to express themselves adequately. Without the relief provided by expression, their anguish grew corrosive. Their lifelong introversion left them without the social skills to unburden themselves or to provide solace to others. Worse, their obsessions with death, in all its many means and mechanisms, had prepared them to expect Barty's cancer, which left them neither shocked nor capable of consolation, but merely resigned. Ultimately, in great frustration, each twin was reduced to fragmented sentences, crippled gestures, quiet tears-and Agnes became the only consoler. "Anyway, something clicked in me on the roller coaster, and I grasped a new angle of approach to the problem. I've figured out that I can walk in the idea of sight, sort of sharing the vision of another me, in another reality, without actually going there." He smiled into her astonishment. "So what do you say about that?" In a neatly groomed neighborhood of unassuming houses, Vanadium's place was as unremarkable as those around it: a single-story rectangular box of no discernible architectural style. White aluminum siding with green shutters. An attached two-car garage. The nurse noted that the maximum weight capacity of the elevator allowed all of them to take the same

cab, if they didn't mind being squeezed a little..Once satiated, what she desired was a reason to deceive herself into believing that she was not a slut, that she was a victim. She didn't really want to tell anyone what he had done to her. Instead, she was asking him, indirectly but indisputably, to provide her with an excuse to keep their passionate encounter secret, an excuse that would also allow her to continue to pretend that she had not begged for everything he'd done to her..Four blocks from his office, on a street more upscale than his own, Nolly came to the Tollman Building. Built in the 1930s, it had an Art Deco flair. The public areas featured travertine floors, and a WPA-ers mural extolling the machine age brightened a lobby wall..Although rain-pasted to her skin, the fine hairs rose on the nape of her neck. The gooseflesh crawling across her arms had nothing to do with her cold, wet clothes..In time, his hand tightened feebly on hers. And a while after that hopeful sign, his eyelids fluttered, opened.. "Better hold on tight to her," Wally warned Celestina, braking to a halt at the intersection. "She'll float up and away, then we'll have to call the fire department to get her down." .People like Enoch Cain, of course, never choose between the right and the wrong thing, but between two evils. For themselves, they create world after world of despair. For others, they make worlds of pain.. "You'll be out of ICU tomorrow, I bet. You'll have a phone, I'll call. And I'll come soon as I can." .Wishing he had left the gauze wrappings on his face, but afraid that the airwaves might already be carrying news of the bandaged man who had killed a minister in Spruce Hills, Junior abandoned the Dodge and hurriedly walked back to the private-service terminal, where the pilot from Sacramento waited. At the sight of his passenger, the pilot blanched and said, Allergic reaction to WHAT? And Junior said, Camellias, because Sacramento was the Camellia Capital of the World, and all that he wanted was to get back there, where he'd left his new Ford van and his Sklents and his Zedd collection and everything he needed to live in the future. The pilot couldn't conceal his intense revulsion, and Junior knew that he would have been stranded if he hadn't paid the round-trip charter fare in advance..She switched off the hall light and stood at the half-open door, listening, waiting..Hound was sorry for him. "You know, if it was Gelluk questioning you, he'd have everything you know out of you just with a word or two, and your wits with it. I've seen what old Whiteface leaves behind when he asks questions. Listen, can you work with the wind at all?" .ice bags. I almost laughed at his tendency to morbidity and self dramatization. The living dead had not come to get him: just some rubber ice bags..Five days ago, reasoning that an unscrupulous attorney would know how to find an equally unscrupulous private detective, even across state borders, Junior had phoned Simon Magusson, in Spruce Hills, for a confidential recommendation. Apparently, there also existed a brotherhood of the terminally ugly, the members of which sent business to one another. Magusson-he of the large head, small ears, and protuberant eyes-had referred Junior to Nolly Wulfstan..To look entirely like her name, she needed only white wings. He would give her wings: a short flight out the window, into the oak..He closed his eyes to know the kitchen as Barty knew it. The fine aromas, the musical clink of spoons, the tinny rattle of pans, the liquid swish of a stirring whisk, the heat from the ovens, the women's voices: Gradually, denying himself sight, he was aware of his other senses sharpening..Unable to speak, the girl kissed her and then gently placed her head against Agnes's breast, capturing forever in memory the pure sound of her heart.. "I don't just think so. And I don't just know it. I feel it, exactly like you feel all the ways things are. I'll bet you feel it, too." .Friday night, he slept more soundly than he'd slept since coming home from the pharmacy to discover Joshua Nunn and the paramedic in solemn silence at Perri's bedside. He didn't dream of trekking across a wasteland, neither salt flats nor snow-whipped plains of ice, and when he woke in the morning, he felt rested in body, mind, and soul..demons: hypodermoclysis ... intravenous oxytocin ... maintain perfect asepsis, and I mean perfect, at all times ... a few oral preparations of ergot as soon as it's safe to give her anything by mouth..Agnes could not bear to watch Maria sewing. The light no longer stung, but her new future,.Barty approached stair climbing as a mathematical problem, calculating the precise movement of each leg and placement of each foot necessary to successfully negotiate the obstacle. He proceeded less slowly on the next three steps than he had on the first three, and thereafter he ascended with growing confidence, pumping his legs with machinelike precision..THE GENEROUS EXPENSE allowance provided by Simon Magusson paid for a three-room suite at a comfortable hotel. One bedroom for Tom Vanadium, one for Celestina and Angel.. "I could have been killed," Junior Cain repeated, suddenly so horrorstruck by this realization that an iciness welled in his gut, and for a while he wasn't able to feel his extremities..Through the cacophony of shattering glass, splintering wood, and cracking plaster, Paul heard the hard roar of an engine, the blare of a horn, and suspected what must have happened. Some drunk or reckless driver had crashed at high speed into the parsonage..At 11:45, on her way to bed, Agnes stopped at Barty's room and found him propped against pillows. The book was not particularly large as books went, but it was big in proportion to the boy; unable to hold it open with his hands alone, he rested his entire left arm across the top of the volume..The rocking chair stopped squeaking under her. She heard the sincerity in Vinnie's voice, and as her disbelief dissolved, she was shocked into immobility. She whispered, "My little superstition." .draftsman? Having never been nudged in that direction, would Cain have followed a different path that took him far from Celestina and Angel?.Now, on his kitchenette table, two nights after Maria's reading, Jacob finished integrating the four decks as he had done Friday in the dining room of the main house. His work completed, he sat for a while, staring at the stack of cards, hesitant to proceed..Maria, however, lived comfortably with both the Catholicism and the occultism in which she had been raised. In Hermosillo, Mexico, the latter had been nearly as important to the spiritual life of her family as had been the former..She lost track of him. Fear knocked, knocked, on the door of her heart, because she was sure that he had vanished the way ships supposedly disappeared in the Bermuda Triangle..Into her fevered mind came an image of a milk-glass infant, as translucent as Joey at the back door of the ambulance. Fearing that this vision meant her child would be stillborn, she said, My baby, but no sound escaped her..He pushed on the door, but still it resisted, and he surprised himself by letting out a bellow of frustration that expressed quite the opposite of self-control, though no one

listening could have the slightest doubt about his determination to commit and command..Shaking the ravaged khakis at him, she said, "Then what made such a mess of these?.Bent like an ape, he humped the musician north along the alley. The original cobblestone pavement had been coated with blacktop, but in places the modern material had cracked and worn away, providing a treacherously uneven surface made even more treacherous by a skin of moisture shed by the fog. He stumbled and slipped repeatedly, but he used his anger to keep his balance and be a winner, until he found a distant enough dumpster..Tom caused less of a stir in the restaurant than Kathleen had expected. Other diners noticed him, of course, but after one or two looks of shock or pity, they appeared indifferent, though this was undoubtedly the thinnest pretense of indifference. The same quality in him that elicited deferential regard from the waiter apparently ensured that others would be courteous enough to respect his privacy.. "Last I noticed, his car was out. Let me check." Sparky put down his phone and went to look in the garage. When he returned, he said, "Nope. Still out. When he parties, he usually parties late."..AT THE END OF THE fourth book of Earthsea, Tehanu, the story had arrived at what I felt to be now. And, just as in the now of the so-called real world, I didn't know what would happen next. I could guess, foretell, fear, hope, but I didn't know..The second and third rooms proved to be deserted, as well, and as muffled as the cushioned spaces of a funeral home, but an office was tucked discreetly at the back of the final chamber. As Junior crossed the third room, apparently monitored by closed-circuit security cameras, a man glided out of the office to greet him..To his room then, where they sat side by side in bed, a plate of chocolate-chip cookies between them. Through the evening, they stepped off this earth and out of all its troubles, into a world of adventure, where friendship and loyalty and courage and honor could deal with any malignancy..Thereafter, Junior managed to drive four miles before he was forced to pull off the road at another service station, after which he felt that his ordeal might be over. But less than ten minutes later, he settled for more rustic facilities in a clump of bushes alongside the highway, where his cries of anguish frightened small animals into squeaking flight..Celestina sensed an easy camaraderie between these two men, but also tension that was perhaps related to the reference to an illegal search..Startled, he snatched his hand back. The object fell, ringing faintly against the pavement..As he edged closer, to better hear the conversation, he became aware of someone staring at him. He looked up into anthracite eyes, into a gaze as sharp as that of any bird, set in the lean face of a thirty something man thinner than a winter-starved crow..Agnes meant to stop Maria from turning the eleventh card, but her curiosity was equal to her apprehension..Junior was less surprised by his sudden assault on Victoria than by the failure of the bottle to break. He was, after all, a new man since his decision on the fire tower, a man of action, who did what was necessary. But the bottle was glass, and he swung forcefully, hard enough that it smacked her forehead with a sound like a mallet cracking against a croquet ball, hard enough to put her out in an instant, maybe even hard enough to kill her, yet the Merlot remained ready to drink..Assuming that the boy had closed his eyes and was talking to himself, somewhere between his self-told bedtime story and a dream, Agnes retreated from the room, pulling the door only half shut behind her..THE MORNING THAT it happened was bright and blue in March, two months after Barty took Angel for a dry walk in wet weather, seven weeks after Celestina married Wally, and five weeks after the happy newlyweds completed their purchase of the Galloway house next door to the Lampion place. Selma Galloway, retired from a professorship years earlier, had subsequently retired further, taking advantage of the equity in her long-owned home to buy a little condo on the beach in nearby Carlsbad..Had Kathleen Klerkle been a man, she would have enjoyed larger quarters in a newer building in a better part of town. She was more gentle and respectful of the patient's comfort than any male dentist Nolly had ever known, but prejudice hampered women in her profession..He might not have this future-living thing down perfectly, but he was absolutely terrific at anger..In spite of her nature, Agnes could not find forgiveness in her heart this time. Words of absolution clotted in her throat. Her bitterness dismayed her, but she could not deny it..The Benediction service had concluded, and the worshipers had departed. Gone, too, were the priest and the altar boys..Already, the girl had taken Barty's hand. The two kids descended from the porch into the rain. They didn't circle the oak, but stopped at the foot of the steps and turned to face the house..After wiping her floury hands, Agnes took the book from him and, examining it, could find nothing wrong. She flipped back a few pages, then a few forward, but the lines of type were crisp and clear. "Show me where, honey."..By now, all here assembled knew Celestina well enough that Tom's final example raised an affectionate laugh from the group..Less cautious than the typical accountant, perhaps mellow in this season of peace, Prosser opened the door without hesitation..The guy was carrying a purse, whatever that meant, and when he walked through the door, he had a goofy look on his face, but his expression changed when he saw Junior..Library of Congress Cataloging-in-Publication Data Le Guin, Ursula K., 1929-. Though she worried that reading would strain his eyes, worsening his condition, she recognized the irrationality of her fear. Muscles don't atrophy from use, nor eyes wear out from too much seeing..Junior was flattered, he really was. Women couldn't get enough of him. The story of his life. They never let go gracefully. He was wanted, needed, adored, worshiped. Women kept calling after they should have taken the hint and gone away, insisted on sending him notes and gifts even after he told them it was over. Junior wasn't surprised that women would return from the dead for him, nor was he surprised that women he'd killed would try to find a route back to him from Beyond, without malice, without vengeance in their hearts, merely yearning to be with him again, to hold him and to fulfill his needs. As gratified as he was by this tribute to his desirability, he simply didn't have any romantic feelings left for Naomi and Seraphim. They were the past, and he loathed the past, and if they wouldn't let him alone, he would never be able to live in the future..Twenty minutes later, at home, he poured sherry over ice. Sipping, he stood in the living room, admiring his two paintings.. "I don't like the old crazy doctor," she said, still drawing. "I wish it was about bunnies on vacation-or maybe a toad learns to drive a car and has adventures."..A few attractive women were here alone, proof that social mores had changed dramatically in three years. Junior was aware of

their hot gazes, their need, and he knew that he could have any of them..In the living room, the central and largest window framed a magnificent view, and swagged silk brocatelle draperies framed the window. An oversize hand-painted and heavily gilded chaise lounge, upholstered in an exquisite tapestry, stood against this backdrop of city and silk, and Renee pulled Junior down upon the chaise, desperate to be ravished there.. "Some Baptists are opposed to drink, Doctor, but we're the wicked variety. Though all we have is a warm bottle of Chardonnay." Delighted to be dating someone who lived neck-deep in culture especially after two months with Tammy Bean, the money maiden. Junior was surprised that he didn't score with Frieda on the first date. He was usually irresistible even to women who weren't sluts..He realized that like so many women, Seraphim wanted it, asked for it-yet had no place in her self-image to accommodate the truth that she was sexually aggressive. She wanted to think of herself as shy, demure, virginal, as innocent as a minister's daughter ought to be which meant that to get what she wanted, she required Junior to be a brute. He was happy to oblige..Junior suspected that no one other than this man's mother called him Tom. He was probably "Detective" to some and "Vanadium" to most who knew him..The sill was about four and a half feet off the lavatory floor. With both hands, Junior levered himself onto it.. "Everyone knows about Vanadium. He's a crusader, self-appointed champion of truth, justice, and the American way. A holy fool, if you will. With the case closed, he has no authority to harass you."..would allow herself to feel the loss, the misery against which she was now armored. Phimie deserved dignity in this final..That was all right, for she had done the same for Otter's elder sister, and so his parents sent him to her in the evenings. But she taught Otter more than the song of the Creation. She knew his gift. She and some men and women like her, people of no fame and some of questionable reputation, had all in some degree that gift; and they shared, in secret, what lore and craft they had. "A gift untaught is a ship unguided," they said to Otter, and they taught him all they knew. It wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at deceiving his parents, he couldn't resist this knowledge, and the kindness and praise of his poor teachers. "It will do you no harm if you never use it for harm," they told him, and that was easy for him to promise them..Matching her fierce attention with a sudden intensity of his own, Joey said, "Bartholomew."..Of course, there was no possibility whatsoever of 'drawing four identical jacks from combined decks that had been exquisitely manipulated and meticulously arranged by a master mechanic-unless the effect of the jacks was intended, which in this case it was not. The odds couldn't be calculated because it could never happen. No element of chance was involved here. The cards in that stack should have been as predictably ordered-to Jacob-as were the numbered pages in a book..Lord, listen to me-but I've really got to know if you can, if you are, how you feel, whether you feel, I mean, whether you think you could feel--".Jacob had become a card mechanic for one purpose. Not because he'd ever be a gambler. Not to wow friends with card tricks. Not because the challenge intrigued him. He wanted to be able to give Agnes winning cards once in a while, if she was losing too frequently or needed to have her spirits lifted. He didn't feed her winning hands often enough to make her suspicious or to make the games less fun for EDOM or Joey. He was judicious. The effort he expended-the thousands of hours of practice-was repaid with interest each time Agnes laughed with delight after being dealt a perfect hand..At many houses, strings of Christmas lights painted patterns of color at the eaves, around the window frames, and along the porch railings-all so blurred by fog that Junior seemed to be moving through a dreamscape with Japanese lanterns..AFTER UNDERGOING TESTS for brain tumors or lesions, to ascertain whether his seizure of violent emesis might, in fact, have a physical cause, Junior was returned to his hospital room shortly before noon..Getting out of the stuffy car into air much chillier than it had been when he'd left this place, Junior stood unsteadily as the police and the paramedics gathered around him. Then he led them through the wild grass to Naomi, moving haltingly, stumbling on small stones that the others navigated with ease..Friday, December 29, was a grand day: cool but not cold; high scattered clouds ornamenting a Wedgwood-blue sky. The streets were agreeably abustle but not swarming like the corridors of a hive, as sometimes they could be. San Franciscans, reliably a pleasant lot, were still in a holiday mood and, therefore, even quicker to smile and more courteous than usual..He was having difficulty focusing his attention on the problem at hand. Through his mind, odd and disconnected thoughts rolled like slow, greasy, eye-of-the-hurricane waves on an ominous sea..He knew that he needed to get a grip on himself. But he could not keep his breathing slow and deep, couldn't remember any of Zedd's other foolproof methods of self-control, couldn't recall a single useful meditative technique..Sobbing desperately, he dropped the telephone handset on the secretary, seized the dishtowel. He wrapped the cloth tightly around the shattered stump, applying pressure to diminish the bleeding..He exploded off Renee with the velocity of high-powered rifle fire. Stunned, disgusted, humiliated, he backed away from the chaise lounge, spluttering, wiping at his mouth, cursing..The three of them, gathered around her in the quick, held fast to her, as if Death couldn't take what they refused to release.. "One of the four legs of the tower is dangerously fractured where it's seated into the underlying foundation caisson-".No more than a minute after Vanadium departed, a nurse arrived in a rush, no doubt sent by the hateful cop. Hard to tell, through all the tears, if she was a looker. A nice face, perhaps. But such a stick-thin body..More likely than not, Victoria spoke directly to the maniac detective. Even if she reported her sordid fabrications to another officer, it would have gotten back to Vanadium, and the cop would have sought her out at once to hear her filth firsthand, whereupon she would have enhanced her story until it sounded as though Junior had grabbed her knockers and had tried to shove his tongue down her throat..St. Mary's social workers did not arrive with dawn, so Celestina was given the privacy of one of their offices, where the wet face of the morning pressed blurrily at the windows, and where she phoned her parents with the terrible news. From here, too, she arranged with a mortician to collect Phimie's body from the cold-storage locker in the hospital morgue, embalm it, and have it flown home to Oregon.
