Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them..the palace of the kings. He got his clothes on, foul as they were from days and days of travel. There was a pair of shoes under the chair, worn but good, strong shoes, and a pair of knit wool stockings to go with them. He put the stockings on his battered feet and limped into the kitchen. Emer stood at the big sink, straining something heavy in a cloth. That had always been his word for evil doings, spells for gain, curses, black magic: "sticky stuff." But he said nothing to the boy and nothing to the boy's mother. He was a consciously close-mouthed man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit, consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to know about Golden's household. His business was none of the witch's business. On the other hand, Tangle might be able to tell him if his son in fact showed promise, had a talent for magery...but he flinched away from the thought of asking her, asking a witch's opinion on anything, least of all a judgment on his son...fast and brilliant, too fast for some of the dancers. Diamond and his partner stayed in, and. "Keep her quiet," said the young woman, and left him holding the mare's reins in this deserted place. She returned after some time lugging a heavy bucket, and set to sponging off the mare's leg. "Get the saddle off her," she said, and her tone held the unspoken, impatient, "you fool!" Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind of a flowering tree at all, but she was in fact beautiful, in a large, fierce way. The mare submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman wiped her down all over, put the saddle blanket back on her, and made sure she was standing in the sun. "She'll be all right," she said. "There's a gash, but if you'll wash it with warm salt water four or five times a day, it'll heal clean, I'm sorry." She said the last honestly, though grudgingly, as if she still wondered how he could have let his mare stand there to be assaulted, and she looked straight at him for the first time.
