VIII. works out that way." belly growing wrinkled and flaccid. A trickle of blood crawled from the wound, making an erratic line. Sirocco had endorsed the request, it was true, but Colman wasn't sure it would count for very much since Sirocco ran D Company, and anything he said was probably inverted somewhere along the chain as a matter of course. Perhaps he should have persuaded Sirocco not to endorse the request. On the other hand, if anything recommended by Sirocco was inverted to start with, and if Pendrey was crazy but normal by the Army's standards, and if the premises that Pendrey was working with were also crazy, then the decision might come out in Colman's favor after all. Or would it? His attempt to think the tortuous logic of the situation once again was interrupted by Swley at last leaning back and turning his face away from the screen..The DetwtUer Boy 47. like a foreign country." He shrugged. "I guess it'll all be gone before too long though. Things keep creepin'. Someone opened the door of the Mariner's Tavern and called inside, "Why is everybody so glum this evening when there's a beautiful rainbow looped across the world?". I heard the door open. Bill, Old Buddy: I hate to bring this up, but J.L. was down this morning to say that there have been. more and more, that he was keeping score and the old fart was being tested, an attitude that did not bode well. Finally, with ten minutes left on the clock, he'd just up and left, which was not, strictly speaking, a violation. It did imply that some kind of closure had been achieved, which definitely was not the case; he'd panicked, pure and simple. A fiasco from which he'd naturally feared the worst in the form of a letter addressed to Dear Applicant. ("We regret to inform you, etc. . . .") But possibly the old fart had been making things deliberately difficult, testing him, possibly his reactions hadn't been that entirely inappropriate. Possibly he'd passed.. She was quiet for a long time, then shuffled her feet awkwardly. She glanced at him, then at Song and. "It's elementary, my dear Sherlock," she said. "Andrew Detweiler is a vampire." I frowned at her. "Of course, he's a clever vampire. Vampires are usually stupid. They always give themselves away by leaving those two little teeth marks on people's jugulars." She frowned, shook her head vehemently, and then said, "Well . . . maybe. . . ." "Do you want to talk about it?" "We use the breather valves from our old suits," McKillian said. Only those who have reviewed, year in and year out, know how truly abominable most fiction is. And we can't remove ourselves from the pain. Ordinary readers can skip, or read every third word, or quit in the middle. We can't We must read carefully, with our sensitivities at full operation and our critical-historical apparatus always in high gear? or we may miss that subtle satire which disguises itself as clich?, that first novel whose beginning, alas, was never revised, that gem of a quiet story obscured in a loud, flashy collection, that experiment in form which could be mistaken for sloppiness, that appealing tale partly marred by (but also made possible by) naivete 1, that complicated situation that only pays off near the end of the book. Such works exist but in order not to miss them, one must continually extend one's sensitivity, knowledge, and critical care to works that only abuse such faculties. The mental sensation is that of eating garbage, I assure you, and if critics\* accumulated suffering did not find an outlet in the vigor of our language, I don't know what we would do. And it's the critics who care the most who suffer the most; irritation is a sign of betrayed love. As Shaw puts it: working for that they mean business when they say they want more money. You begin with an unfertilized egg cell and treat it in such a way as to remove its nucleus, either by delicately cutting it out or by using some chemical process. In the place of the removed egg cell nucleus, you insert the nucleus of a somatic cell of the same (or, possibly, an allied) species, and then let nature take its course.
