"Now you tell me who you are before I blow you into little pieces and scatter them over the whole wide world." By trial and error, Smith has found the settings for Dallas, November 22, 1963: Dealey Plaza, 12:25 P.M. He sees the Presidential motorcade making the turn onto Elm Street. Kennedy slumps forward, raising his hands to his throat. Smith presses a button to hold the moment in tune. He scans behind the motorcade, finds the sixth floor of the Book Depository Building, finds the window. There is no one behind the barricade of cartons; the room is empty. He scans the nearby rooms, finds nothing. He tries the floor below. At an open window a man kneels, holding a high-powered rifle. Smith photographs him. He returns to the motorcade, watches as the second shot strikes the President. He freezes time again, scans the surrounding buildings, finds a second marksman on a roof, photographs him. Back to the motorcade. A third and fourth shot, the last blowing off the side of the President's head. Smith freezes the action again, finds two gunmen on the grassy knoll, one aiming across the top of a station wagon, one kneeling in the shrubbery. He photographs them. He turns off the power, sits for a moment, then goes to the washroom, kneels beside the toilet and vomits. looming to the west of us. Tomorrow night we play Denver. Wells's The Island of Dr. Moreau, filmed with superbly demonic atmosphere as Island of Lost Souls in 1932. Charles Laughton, maybe the best actor yet to appear on film, gives an extraordinary performance as Dr. M., and Bela Lugosi captures the spirit of the beast men as the Speaker of the Law with the abhuman quality that characterized his Dracula. Now Burt Lancaster is one of film's most underrated actors, but his straightforward non-intellectual approach to the doctor role undermined the '70s trip to the Island; Richard Basehart didn't help matters by looking like a beneficent Old Testament prophet in the Lugosi role. But even Laughton and Lugosi would have been hard put to come across, with the later film's completely uninteresting script and camerawork. growing up, about which they were very

So I walked. It was a rectangular monolith. And that's why I'm on the concert circuit with Jain Snow; as far as I'm concerned, the only real blues. Colman frowned to himself as his mind raced over the data's significance. No sane attacking force would contemplate taking an objective like that by a direct frontal assault in the center--the lowermost stretch of the trail was too well covered by overlooking slopes, and there would be no way back if the attack bogged down. That was what the enemy commander would have thought anyone would have thought. So what would be the point of tying up lots of men to defend a point that would never be attacked? According to the book, the correct way to attack the bunker would be along the stream from above or by crossing the stream below and coming down from the spur on the far side. So the other side was concentrating at points above both of the obvious assault routes and setting themselves up to ambush whichever attack should materialize. But in the meantime they were wide open in the middle. by DAMON KNIGHT. He frowned slightly. "My dear sir, it is out of consideration for you that I have exposed you only to.
