

THE PRIDE OF A GENTLEMAN

It was interesting, certainly. "Well.. . maybe," Bernard replied guardedly. "Who do you know there?" -. "Thank you. Are you sure your mother wouldn't like to join us?". "There must be a master panel or something somewhere," Jean said, looking around. "How about that?" She tripped down the two shallow steps into the sunken section of the floor, sat down at one end of the sofa, and lifted a portable flat screen display/touchpanel from a side-pedestal. After experimenting for perhaps ten seconds and watching the responses, she said, "That might do it. Try again." .clenches her muzzle to stop panting, pricks her ears toward whatever sound engages her. The girl stamped her left foot on the ground, causing the leg brace to rattle softly. She raised her left. "It is, but nothing in there's to be touched until Mrs. Kalens has been back to get some stuff," the guard answered. "She should be on her way down just about now." .climbed the three back steps with no noise. Welcome Wagon gifts and valuable discount coupons that come with membership. Sinsemilla also buys. Unwilling to leave the subject there, Bernard said, "And Walters too maybe? Perhaps he could use a refresher too," . "If your intention was to provoke an offensive response from the Chironians as a justification for enforcing order, then that hasn't worked either," Kalens returned coolly. "Now we must live with the damage and consider our alternatives." . Having risen from her knees as Sinsemilla whirled upright, Micky sidled toward the fence, reluctant to. "Daskrend,' Murphy supplied. "Oh, they're a kind of wolf but bigger, and they've got poison fangs. But they're pretty dumb and no big deal to handle. Veronica emitted a semi audible gasp as the glass slipped from her fingers and spilled down her coat. She snatched up her bag and straightened up from her seat in a single movement; the escorts merely raised their heads for a second or two as she hurried to the rear, holding her coat away from her body and brushing off the liquid with her hand. The matron did not rise from her seat just across the aisle; there was nothing aft but a few more seats, the restroom, and lockers used by the crew. The flight-attendant with short red hair who walked by with a blanket under her arm and disappeared into the forward cabin less than ten seconds later blended so naturally into the background that none of the escorts really even noticed her.. "First of all, there's nobody who'd notice or think to ask. We're always on the move, rambling around." "Give me one." . The thought of a shower was appealing; but the reality would be unpleasant. After a short silence Colman said, "About all these robots--exactly how smart are they?" . "Hey, don't get too excited about this," Colman cautioned. "I only said I'd be interested in seeing it. The Army might have different ideas about me getting involved. Don't bet your life savings on it." . for drugs and baubles. Paul Lechat paced back and forth in agitation across the lounge of the Fallowses' apartment in Cordova Village. "I didn't think the Chironians would go that far." he said. "I thought they would react only against direct violence. Why couldn't they have just let everything die a natural death?" . "Maybe not so hard if you're honest with yourself." Anything else would cause worse problems.".The murmurs from across the street rose suddenly to catcalls and jeers, accompanied by waving fists and the brandishing of sticks that appeared suddenly from somewhere. Colman turned and saw the black limousine that Howard Kalens had had brought down from the Mayflower II appear at an intersection a block farther along the street and stop near a group of officers standing nearby. Major Thorpe detached himself from the group and walked across. Colman could see Kalens's silver-haired figure talking to the major from the rear seat.
