"Come on," said Amos, "just a little way. . ." together, exchanging nostalgic tidbits over coffee and slices of Partyland's famous pineapple pie. At Amanda whimpered and fell silent. "But I'd have to become part of ... what Selene is." She pulled away from me, shaking her head. "Selene isn't the evil genius you think, Amanda." My voice sounded thin. Dr. Robales from slumber at his house near the plaza. She turned and padded hastily down the hallway, Nolan behind her. Together they entered the nursery. Reluctantly at first, then with the glad, uncloseted feeling of shaking himself loose over a dance floor, Barry told Cinderella of his ups and downs during the past six months. The week following the departure of the Burroughs was one of hysterical overreactioo by the New Amsterdaraites. When another two weeks went by without the Board of Examiners saying boo, he couldn't stand the suspense any longer and went down to Center St. to fill out a form that asked basically where did he stand. A clerk coded the form and fed it into the computer. The computer instructed Barry to fill out another form, giving more details. Fortunately he'd brought the data the computer wanted, so he was able to fill out the second form on the spot After a wait of less than ten minutes, his number lighted up on the board and he was told to go to Window 28. The production model was ready for shipping hi September. It was a simplified version of the prototype, with only two controls, one for space, one for time. The range of the device was limited to one thousand miles. Nowhere on the casing of the device or in the instruction booklet was a patent number or a pending patent mentioned. Smith had called the device Ozo, perhaps because he thought it sounded vaguely Japanese. The booklet described the device as a distant viewer and gave clear, simple instructions for its use. Rips appeared in the shirt and a small misshapen arm poked out briefly. I could only stare, frozen. The shirt was ripped to shreds. Two arms, a head, a torso came through. The whole thing ripped its way out and fell onto the couch beside the boy. Its face was twisted, tortured, and its mouth kept opening and closing with the screams. Its eyes looked uncomprehendingly about. It pulled itself along with its arms, dragging its useless legs, its spine obviously broken.
