What brought another of those incredible smiles was the interior. Not only did the carpeting continue up the walls, but as she walked from the kitchen, across the lounge area to the fireplace, and turned to look up at the sleeping loft, each place her feet touched a patch changed color to a pale, clear yellow. She stared, then laughed and ran her hands along the back of a chair. It, too, changed color, to a pattern of pastel greens and yellows..like the coils of a giant constrictor. She spoke of forked tongues, of voices hissing forth from mouths. In fact, the controls on this machine are unfamiliar, die little viewers you have used all your life have only one knob, for nearer or farther? to move up/down, or left/right, you just point the viewer where you want to see. This machine has dials and little windows with numbers in them, and switches and pushbuttons, most of which you don't understand, but you know they are for special purposes and don't matter. The main control is a metal rod, right in front of you, with a gray plastic knob on the top. The knob is dull from years of handling; it feels warm and a little greasy in your hand. The console has a funny electric smell, but the big screen, taller than you are, is silent and dark. You can feel your heart beating against your breastbone. You grip the knob harder, push it forward just a little. The screen lights, and you are drifting across the next room as if on huge silent wheels, chairs and end tables turning into reddish silhouettes that shrink, twist and disappear as you pass through them, and for a moment you feel dizzy because when you notice the red numbers jumping in the console to your left, it is as if the whole house were passing massively and vertiginously through itself; then you are floating out the window with the same slow and steady motion, on across the sunlit pasture where two saddle horses stand with their heads up, sniffing the wind; then a stubbled field, dropping away; and now, below you, the co-op road shines like a silver-gray stream. You press the knob down to get closer, and drop with a giddy swoop; now you are rushing along the road, overtaking and passing a yellow truck, turning the knob to steer. At first you blunder into the dark trees on either side, and once the earth surges up over you in a chaos of writhing red shapes, but now you are learning, and you soar down past the crossroads, up the farther hill, and now, now you are on the big road, flying eastward, passing all the cars, rushing toward the great world where you long to be. "I didn't tell you that. We pulled the dome back and found spikes. It was your inference that they. She sighed in relief. "Gordy, you're a friend. Well meet again." Lorraine Nesbitt, I decided, was as nutty as a fruitcake..stretched out upon the bed. Ought to undress, but he was too tired. The throbbing in his head was worse, pulsing to the beat of the drums. And the hate was in his head, too. God, that ugly face! Like the thing in mythology? what was it?? the Medusa. One look turned men to stone. Her locks of hair were live serpents..A Reflection. The list went on and on, afl the way back to Thursday, the 7th. On that day was another slashed-wrist suicide near Western and Wilshire, Miss Tremaine glanced up. "Best indecent proposition I've had all week." ward, got up in time to see the fiberglass ropes on the side nearest him snap free from the steel spikes anchoring the dome to the rock. The dome now looked like some fantastic Christmas ornament, filled with snowflakes and the Sashing red and blue lights of the emergency alarms. The top of the dome heaved over away from him, and the floor raised itself high in the air, held down by the unbroken anchors on the side farthest from him. There was a gush of snow and dust; then the floor settled slowly back to the ground. There was no motion now but the leisurely folding of the depressurized dome roof as it settled over the structures inside.. Bill, Old Buddy: I hate to bring this up, but J.L. was down this morning to say that there have been no reports on the progress of the Zorphwar project from you people. Please get the necessary input into the computer as quickly as possible so we can start tracking this vital project. I hope that this omission on your part does not mean that schedules are slipping down there.. "Only the shiny surface of things keeps us apart," said Lea. "Now if you dive through here, you can. Your clone is the result of your nucleus being placed into a foreign egg cell and the foreign cytoplasm in that egg cell will surely have an effect on the development of the clone. For that, we're better oft than most of the colonists of the past, at least for the short term. We have a large supply of everything a colony needs: food, water, tools, raw materials, energy, brains, and women. Without these things, no colony has much of a chance. The grey man peered across the unicorn's shoulder, and in the piece of glass he saw not his own reflection but the face of a young woman. "I'm afraid," she said cheerfully, "that you shall never be able to pick up the mirror unless the unicorn lets you, for it was placed here by a wizard so great and so old and so terrible that you and I need not worry about him." For the next many days Barry didn't speak to a soul. He felt no need to communicate anything to hard enough.. off. But we can't be sure we can even provide for ourselves, much less a child. At noon Amanda was waiting for me out on her deck.
