Swyley's face was etched sharply by the subdued glow of the forward terrain display screen propped in front of him. "I'm aware of that," Barry said, smarting under the rebuke. When I first met her, I thought that Stella was the coldest person I'd ever encountered. And in Des Moines I saw her crying alone in a darkened phone booth? That's petty. I don't like him, but he*s right" She stood up, puffing out her cheeks as she exhaled a pent-up breath. Colman frowned to himself as his mind raced over the data's significance. No sane attacking force would contemplate taking an objective like that by a direct frontal assault in the center--the lowermost stretch of the trail was too well covered by overlooking slopes, and there would be no way back if the attack bogged down. That was what the enemy commander would have thought anyone would have thought. So what would be the point of tying up lots of men to defend a point that would never be attacked? According to the book, the correct way to attack the bunker would be along the stream from above or by crossing the stream below and coming down from the spur on the far side. So the other side was concentrating at points above both of the obvious assault routes and setting themselves up to ambush whichever attack should materialize. Briefly, to answer other statements in the letters: I apologize for implying that Tolkien's hobbits and Ents (or his other bucolic-comic creations) are as empty-sublime as the Big People's heroics. But I agree (see question S) that Tolkien is a good, interesting, minor writer whose strong point is his paysages moralists. Ditto C S. Lewis, in bis Naraya books. As for other writers mentioned, only strong, selective blindness could miss the Vancian cynicism or the massive Dunsanian irony (sometimes spilling over into despair) which make their heroism far from simple or unquestioned-by-the-authors-them-selves. "What do they say on the Burroughs?" McKillian asked, tossing her helmet on the floor and squatting tiredly against the wall. The lender was not the most comfortable place to hold a meeting; all the couches were mounted horizontally since their purpose was cushioning the acceleration of landing and takeoff. With the ship sitting on its tail, this made ninety per cent of the space in the lander useless.
