Ed took out his ID folder, took his license from the folder, tickled the edge of the endorsement sticker from the back of the license with his fingernail, and offered it to Barry.. Congratulations, Fleet Captain! I am pleased to transmit to the facsimile printer in your area a copy of your certificate suitable for framing and wall display. "Well," Song admitted, "it wasn't a bad inference, at that. But the holes I saw were not punched through. They were eaten away." She waited for Lang to protest that the dome bottom was about as chemically inert as any plastic yet devised. But Lang had learned her lesson. And she had a talent for facing facts.. frogs croaked at them, and one or two bubbles broke the surface. Together Amos and Jack looked into. "Marvelous," Singh said, truly impressed. He had seen the tiny whirlbirds weaving the suits, and the other ones, like small slugs, eating them away when the colonists saw they wouldn't need them. I even checked to see if the names were in alphabetical order.. Damon Knight. "Sure." She raised her eyebrows. The one over the patch didn't go up as high as the other. "If you see him from the front, you can't even tell." There were shrill, staccato shrieks of mindless torment, but they didn't come from Detweiler.. The Podkayne was lowered to the ground, and sadly decommissioned. It was a bad day for Mary Lang, the worst since the day of the blowout. She saw it as a necessary but infamous thing to do to a proud flying machine. She brooded about it for a week, becoming short-tempered and almost unapproachable. Then she asked Crawford to join her in the private shelter. It was the first time she had asked any of the other four. They lay in each other's arms for an hour, and Lang quietly sobbed on his chest. Crawford was proud that she had chosen him for her companion when she could no longer maintain her tough, competent show of strength. In a way, it was a strong thing to do, to expose weakness to the one person among the four who might possibly be her rival for leadership. He did not betray the trust. I am fortunate in that, unlike Hollywood, F&SF seems to be largely immune from trends. The magazine has a reputation for offering variety, and to uphold that image, it seems to me that it must carefully avoid trends and formulas in an effort to publish a balance of different types of fantasy and sf. And so we continue to look for good writing and fresh ideas and entertaining narratives, and once those general criteria are satisfied, we take on whatever seems to be pleasing our writers at the time. That's the best way I know of pleasing our leaders..that they might fail..Forever..really believe that." I know it's painful to be told that something in which one has invested intense emotion is not only bad art but bad for you, not only bad for you but ridiculous. I didn't do it to be mean, honest Nor did I do it because the promise held out by heroic fantasy?the promise of escape into a wonderful Other world?is one I find temperamentally unappealing. On the contrary. It's because I understand the intensity of the demand so well (having spent my twenties reading Eddison and Tolkien; I even adapted *The Hobbit* for the stage) that I also understand the absolute impossibility of ever fulfilling that demand. The current popularity of heroic fantasy scares me; I believe it to be a symptom of political and cultural reaction due to economic depression. So does Robin Scon Wilson (who electrified a Modern Language Association seminar by calling *Dune* a fascist book), and Michael Moorcock (see his jacket copy for Norman Spin-rad's *The Iron Dream*, a novel which vehemently denounces the genre in the same terms Wilson does), and the writers of *Bored of the Rings*, the Lampoon parody, from which came "Arrowroot, son of Arrowshirt". "You take it easy. What's this about another one?". worse and worse all day; then he'd be fine, all rosy and healthy\* looking." She bit her lip. "I don't think the Detweiler boy killed him." "There are times," said Amos, "when it is better to know only the reward and not the dangers." "Just before you came down." She smiled a meaningful, unblemished smile and gave his hand a quick, trusting squeeze. "You know, Larry-you're an all-right guy." "Hey?" Jason grabbed Barry's hand and gave it an earnest squeeze. The children became very quiet and stared solemnly at the new arrivals, while Jason said the standard fee, a year ago, for a single sticker had been a thousand dollars; two and a half. We can therefore imagine that at birth, every human individual will have scrapings taken from his little toe, thus attaining a few hundred living cells that can be at once frozen for possible eventual use. (This is done at birth, because the younger the cell, the more efficiently it is likely to clone.) "Yes. Aventine has too many rich and famous residents to care about another celebrity, and as we have no hotels or public transportation and the cabletrain from Gateside is the only way in, aside from private aircraft on private landing fields, we manage to discourage most reporters and curiosity seekers." "So do I," Lang said, ending the discussion. But she explained her reasons to them.. Crawford and Lang hung around as the scientists looked things over. They were not anxious to get back to the task that had occupied them for the last two weeks: that of bringing the Podkayne to a horizontal position without wrecking her. The ship had been rigged with stabilizing cables soon after landing, and provision had been made in the plans to lay the ship on its side in the event of a really big windstorm. But the plans had envisioned a work force of twenty, working all day with a maze of pulleys and gears. It was slow work and could not be rushed. If the ship were to tumble and lose pressure, they didn't have a prayer.. But what did he think? First Ace printing: November 1981 Published Simultaneously in Canada. "Now, let me explain how that breaks down. You do very well in most categories? Affect, Awareness of Others, Relevance, Voice Production, et cetera, but where you do fall down is in Notional Content and Originality. There you could do better." When he reached the apron of the second stage, he strode across it and began ascending the second little gismos." She tapped the blue ball representing the Earth with one foot.
