But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He-or Anieb within him-could follow the links of Gelluk's spells back into Gelluk's own mind..in his bluish eyes was like the soft, crazy shift of quicksilver. "Take me there," he said, trying to control himself, but so violently compelling Otter to get up and walk that the young man lurched to his feet and stumbled several steps, almost falling. How was this possible? I checked, bending my knees slightly, at three.It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him..A child ran bawling to its mammy. At the foot of the hill he came into a lane. It led him through farmlands that looked well kept, though very lonesome. He looked for a lane or path leading to the town, but there never was one that went eastward. Not a soul was in the fields, some of which were newly ploughed. No dog barked as he went by. Only at a crossroads an old donkey grazing a stony pasture came over to the wooden fence and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face. A city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey looked at him kindly..thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why. him, with a slop of rancid oil on the bread. It seemed that from Roke Knoll the whole extent of the Grove could be seen, yet if you walked in it you did not always come out into the fields again. You walked on under the trees. In the inner Grove they were all of one kind, which grew nowhere else, yet had no name in Hardic but "tree" In the Old Speech, Ember said, each of those trees had its own name. You walked on, and after a time you were walking again among familiar trees, oak and beech and ash, chestnut and walnut and willow, green in spring and bare in winter; there were dark firs, and cedar, and a tall evergreen Medra did not know, with soft reddish bark and layered foliage. You walked on, and the way through the trees was never twice the same. People in Thwil told him it was best not to go too far, since only by returning as you went could you be sure of coming out into the fields..that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such. Come home with me." .When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore of Way, finding himself free while Gelluk was off doting on his quicksilver. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead..the King, and the Allking, and the Body of the Moon." His gaze, benevolent and inquisitive, passed. with them when I left. I think -". And the boy must have a staff. Why had Nemmerle let him leave Roke without one, empty-handed as a prentice or a witch? Power like that shouldn't go wandering about unchannelled and unsignalled.. "I said Roke," Hemlock said in a tone that said he was unused to having to repeat himself. And. She considered herself, sitting in the deep silence of the Grove. No bird sang; the breeze was. "You're crazy," she said, very angry. It was a sweet anger. Why could not more anger be sweet?.
