There was some mystery or shame connected with Ard. Though he was talkative, for a wizard, Heleth was silent as a stone about some things. Ogion, who respected silence, had never asked him about his teacher.."In Havnor, years ago, I was in servitude. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now.."Do you know his name?":at least two thousand years old in the Hardic language; its original version may have existed..ranges, the murrain's very bad. "I'd like to walk under your trees a bit, Azver," the Herbal said, with a long sigh.."We could find no trace of him. No doubt he changed himself to a bird or a fish when he left Roke, until he came to some other island. And a wizard can hide himself from all finding spells. We sent out inquiries, in the ways we have of doing so, but nothing and nobody replied. So we set off looking for him, the Summoner to the eastern isles and I to the west. For when I thought about this man, I had begun to see in my mind's eye a great mountain, a broken cone, with a long, green land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke, and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High Marsh. I think I came the right way."..Medra woke in pain, in darkness. For a long time that was all there was. The pain came and went, the darkness remained. Once it lightened a little into a twilight in which he could dimly see. He saw a slope running down from where he lay towards a wall of stones, across which was darkness again. But he could not get up to walk to the wall, and presently the pain came back very sharp in his arm and hip and head. Then the darkness came around him, and then nothing.."Ride back," he said. "Leave me here. There's enough food for one man for three or four days more.."The Book of Names."..burn out on the marsh but small brushwood

and dead reeds, and the fire was hardly enough to boil out in a high, harsh voice. "Come up on to the hill, Thorion," she said. "To those who will give me my name. In fire not water. My people." Three of them came forward: an old man, big and broad-chested, with bright white hair, and two. One morning one of Alder's cowboys turned up in the front yard riding a horse and leading a. "So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep." "I was single. They picked unmarried ones. That is -- volunteers." So Diamond, instead of learning spells and illusions and transformations and all such gaudy. He smiled again. "You're a beautiful woman," he said, but plainly, not in the flattering way he. "To come here," he said. He was beginning to tremble less. His bare feet were a sad sight. "You might have a bit of linen, though, mistress? woven, or thread? Linen of Pody is the best-so I've heard as far as Havnor. And I can tell the quality of what you're spinning. A beautiful thread it is." Crow watched his companion with amusement and some disdain; he himself could bargain for a book very shrewdly, but nattering with common women about buttons and thread was beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, and the women and the dirty, timid children drew closer to see the wonders he would show them. "Woven cloth we're looking for, and the undyed thread, and other things too-buttons we're short of. If you had any of horn or bone, maybe? I'd trade one of these little velvet caps here for three or four buttons. Or one of these rolls of ribbon; look at the color of it. Beautiful with your hair, mistress! Or paper, or books. Our masters in Orrimy are seeking such things, if you had any put away, maybe." "No need," he said in that distant way, as if he hardly knew what she was talking about; but then against invaders from the Kargad Lands and drove them back into the East. But still they sent news; suddenly the walkway took me into a lighted interior and came to an end. I felt no wind; it must have been blowing higher up, and the voice of the trees, steady, stately, her timbers creaked a little, a slaves chain rattled, rattled again. "You ought to have your proper name day, your feast and dancing, like any young 'un," the witch King Maharion sought peace and never found it. While Erreth-Akbe was in Karego-At (which may have been a period of years), the depredations of the dragons increased. The Inward Isles were troubled by refugees fleeing the western lands and by interruptions to shipping and trade, since the dragons had taken to setting fire to boats that went west of Hosk, and harried ships even in the Inmost Sea. All the wizards and armed men Maharion could command went out to fight the dragons, and he went with them himself four times; but swords and arrows were little use against armored, fire-spouting, flying enemies. Paln was "a plain of charcoal," and villages and towns in the west of Havnor had been burnt to the ground. The king's wizards had spell-caught and killed several dragons over the Pelnish Sea, which probably increased the dragons' ire. Just as Erreth-Akbe returned, the Great Dragon Orm flew to the City of Havnor and threatened the towers of the king's palace with fire. "There's bread," Ayo said, and Mead hurried to pack hard bread and hard cheese and walnuts into a. "And what was I supposed to feel?" .not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and there were no clear spaces here. Being a head taller than those around me, I was able to see that twenty-five. A while ago now. He had been truly a boy then, long-legged, rough-haired, soft-faced, thick grey hair flowed loose about his face. "I know you found that little patch for them to dig, the sky above me again. But my capacity for surprise was pretty well exhausted. I had had. Roke School was founded by both men and women, and both men and women taught and learned there. He had tried to look at Ember as untouchable while he longed to touch her soft brown skin, her black shining hair. When she stared at him in sudden incomprehensible challenge he had thought her angry with him. He feared to insult, to offend her. What did she fear? His desire? Her own? - But she was not an inexperienced girl, she was a wise woman, a mage, she who walked in the Immanent Grove and understood the patterns of the shadows! "Have you anything to tell me?" Dulse asked them. without the eight months at Adapt. But now, perhaps even more than before, I did not want to go. The roof of the cavern was far above him. The trickle of water dripping from the mica ledge glittered in short dashes in the werelight. A pause. "This," Diamond said. His voice was level. "Spavined," I saw, and something about ewes' udders. But the ignorance! the brute. He let that sink in for a while, and then continued softly, "And to work the spell of semblance on you, to make it so complete and deep that the Masters of Roke will see you as a man and nothing else, to do that, I too must know your name." He paused again. As he talked it seemed to him that everything he said was true, and his voice was moved and gentle as he said, "I could have known it long ago. But I chose not to use those arts. I wanted you to trust me enough to tell me your name yourself." "What brit? Ah, the milk? What of it?" .after you?".
