Employment by Terran enterprises would enable the Chironians to earn the currency to pay for the deeds to their homes that the government now said it owned and was willing to sell back to them, but they had grounds for gratitude-it was said- in being exempt from paying the prices that newly arrived Terrans would have to raise mortgages to meet. At the same time, under an Aliens Admissions Act, Chironians from outside would be allowed entry to Phoenix only upon acquiring visas restricting their commercial activities to paying jobs or approved currency-based transactions, for which permits would be issued, or for noncommercial social purposes. Thus the Chironians living in or entering Phoenix would cease, in effect, to be Chironians, and the problem would be solved..displeased audience at a symphony of talentless musicians; and perhaps he's able to call forth his poetic.coming back to us one day? a year from now, two years?in a new body. "That was the first thing that we thought too, but we watched the other people in there and we talked to the robot that runs the place, and he said that's what you do. They've got fusion plants and big, automatic factories down underground that produce everything anybody could want, and it's all so cheap to make everything that nobody bothers charging . . . or something like that. I can't figure it out..Kath's voice remained low but took on a note of urgency. "Make sure all of them are closed. Do it now." Bernard shook his head, mystified, and started asking questions again. "Just do it," Kath said, cutting him off. "There might not be much time..For the curtain that was falling away was the backcloth of the stage upon which the dolls had danced. And as the backcloth fell and the strings fell with it, the dolls were dancing on. The dolls were dancing without the strings because there were no strings. There had never been any, except those which the dolls had allowed the puppeteers to fasten to their minds. But those strings had held up the puppeteers, not the dolls, for the puppeteers were falling while the dolls danced on.. "I don't know," Bernard said dubiously. "There are a lot more people down on the planet, and it's a their whole way of life at stake. Maybe they wouldn't. Who knows exactly how the Chironians think when all the chips are down? Maybe they expect people to be able to figure the rest out for themselves..plate as he grabs his glass of Pepsi. you getting at?" Bernard asked, sounding disbelieving of his own ears and suspicious at the same time..Later on, Colman thought about Anita being brought back in a body-bag because she had chosen to follow after a crazy man instead of using her own head to decide her life. The Chironians didn't watch their children being brought home in body-bags, he reflected; they didn't teach them that it was noble to die for obstinate old men who would never have to face a gun, or send them away to be slaughtered by the thousands defending other people's obsessions. The Chironians didn't fight that way..if it is. Someone's got to remember, you know. Someone..rarity.. "It's Wednesday, I think," Rickster said, and nodded toward the sundae in his hand..Vernon isn't already roasting in Hell, he will be soon.. "Whether he's your legal."Give me one..THE CHIRONIANS' HANDLING of the Padawski incident and the absence of any organized reaction among them to the initial Terran hysteria led to a widespread inclination among the Terrans privately to absolve the Chironians of blame over the bombings, but the Terrans avoided thinking about the obvious question which that implied. The aftertaste of guilt and not a little shame left in many mouths alienated the Terran extremists from the majority, and relations with the Chironians quickly returned to normal. Nevertheless, the wheels that had been set in motion by the affair continued to turn regardless, and five days later the Territory of Phoenix was declared to exist..But no Borftein was present to save the situation at the side entrance. "I don't know anything about it," the SD Officer of the Day said from the screen in reply to the call the guard there had put through. "Those orders are incorrect. Detain those men." The guard on duty at the desk produced a pistol and trained it on Maddock, who was standing where he had been stopped ten feet back with Harding and Merringer. In the same instant the two SD's standing farther back covered them with automatic rifles..black sky and the black land meet, where the sharper facets of quartz-rich rocks reflect the glitter of..As a youth he had daydreamed about becoming an entertainer--a singer, or a comic, maybe--but he couldn't sing and he couldn't tell jokes, and somehow after his parents died within two years of each other halfway through the voyage, he had ended up in the Army. "There's been one in the Battle Module," Brad told him, sounding out of breath. "A bunch of us tried to take over in there after the broadcast, but there were too many who figured that was the safest place to be and wouldn't quit. It was all we could do to get out..".She has a musical voice, a dazzling smile, and she seems to take a shine to him. "Well, Curtis, my name's..". "Go, go, go!" Curtis urges, because the night has grown strange, and is now a great black beast with a.. "I'm talking around?" "That was unfortunate, but it was beyond our control," Leon said. "I hope you do not believe that we were responsible." Bernard shook his head.. "This may sound crazy, but I never really met her before tonight..".Micky said, "Some of your brother's problems ... It sounds like surgery could have helped at least a..".As Geneva rose from the table, Micky said, "Aunt Gen, sit down. This isn't about pie..". "You're wrong. It's hilarious..". "I will indeed. See you later." Hanlon left, and they heard him forming up the relief guard outside..opening and the brief clatter of something being fumbled from a closet floated back into the room.. "Jay!" Jean exclaimed. "Did you find anywhere nice? -What are those things?"..faltering, faded, vanished. "No mother anywhere," she repeated softly, but to Micky this time. "That's..". "Very wise, Sergeant. But then, some of them can be very discreet. Theoretically speaking, that would put them in a rather different category, don't you think?".. "So what will you do?" Sirocco inquired, propping his feet back on the desk. "Figured it out yet?"..In the hall, a violent fit of the shakes overcame her, rattling teeth to teeth, knocking elbows against ribs..Micky returned the question, the girl's simple reply had been, I better..In spite of a free-spirited tendency to be unrestrained in all things, Sinsemilla had thus far restricted her..A short silence fell while the meeting digested the observation. Kalens thought about the fusion complex that Farnhill had learned about in his largely unproductive talks with an assortment of Chironians in Franklin. Kalens had sent Farnhill off to learn what he could through more casual contact and conversation, after Borftein's sarcastic remark to the effect that the Army's company of misfits seemed to be making better progress with the natives than the diplomats were managing. "Yes.. . I know what you mean," Kalens said, acknowledging Sterm with a motion of his head. "As a matter of fact, we have already begun inquiries along those lines." He turned toward Farnhill. "And someone wanted the cash," Leilani guessed..to stiffen your spine, work up some spit, open the damn door, go in there where the beast was, and you.. "There are some things which we must accept" the preacher thundered..Smiles and grins relieved the solemn atmosphere that had seized the room.. From the direction of the table, Jean emitted an audible sigh of relief. Bernard grinned up at the screen. "Thanks." he said. "We're all glad to hear it. Talk to you again soon." Kath gave a quick smile and vanished from the screen..Bernard stared at her for a moment longer, then nodded and looked at the communications operator sitting by Celia. "Can you get Admiral Slessor on line here?" The operator nodded and sat forward to begin entering a code.. "But you saw where the paths led..".taken from the open cooler behind him.
